

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

MESSAGE FROM THE GOVERNOR, No. 1.

STATE OF SOUTH CAROLINA,

EXECUTIVE DEPARTMENT,

COLUMBIA, November 28, 1871.

Gentlemen of the Senate and House of Representatives:

You have assembled for the fourth time since the establishment of a system of free government in South Carolina. Pursuant to the Constitution, it is the duty of the Governor to "give to the General Assembly information of the condition of the State, and recommend to their consideration such measures as he shall judge necessary or expedient."

The present financial condition of the State especially demands a rigid and unshrinking compliance with this constitutional requirement, in order that the General Assembly and every department of the State Government may unite in a common effort to correct such evils as are remediable, and prevent their recurrence. In this, the last Annual Message that I shall transmit to the General Assembly, I propose to state my views frankly upon the chief matters of public interest, and to give all the facts within my knowledge, without reserve, as alike due to the people, and imposed by my official obligation. I will thus, I trust, be enabled to correct gross exaggerations that are being diligently circulated in reference to our finances, and the entire administration of the State.

In performing this duty I shall not shrink from charging upon others any just share of their responsibility for evil consequences of their acts, and will not hesitate fully to admit my own.

The facts and data upon which the foregoing statement, which has been examined and approved by the Financial Board, is based, are open to the inspection of the public, both at the State Treasury and at the Financial Agency, in New York. The Financial Board report that, "the bonds have all been issued and used under the authority of the Act of August 26, 1868, entitled "An Act to authorize a loan to redeem the obligations known as Bills Receivable of the State of South Carolina;" the Act of August 26, 1868, entitled "An Act to authorize a loan to pay the interest on the public debt;" the Act of February 17, 1869, entitled "An Act to authorize a loan for the relief of the Treasury;" the Act of March 27, 1869, entitled "An Act to provide for the appointment of a Land Commissioner, and to define his powers and duties;" the Act of March 1, 1870, entitled "An Act to amend an Act entitled 'An

Act to provide for the appointment of a Land Commissioner, and to define his powers and duties,' and for other purposes therein mentioned;" the Act of March 23, 1869, entitled "An Act to provide for the conversion of State securities;" and the Act of March 26, 1869, entitled "An Act to authorize the Financial Agent of the State of South Carolina, in the City of New York, to pledge State bonds as collateral security, and for other purposes."

The three first named Acts authorized the borrowing of two million five hundred thousand dollars, on coupon bonds. Owing to the constant and increasing depreciation in the value of the bonds, it was found necessary, in order to carry into effect the purposes of these several Acts, to issue a much larger number of bonds. The Act for the conversion of State securities, giving authority for a more available and uniform class of bonds than the one which had, in the first instance, been issued under the several Acts referred to, the remainder of the bonds required to raise the amounts of money authorized by the several Acts were prepared, in accordance with the Act for the conversion of State securities, to the amount above named.

The indebtedness of the State being as above stated, the State authorities now hope to be able to retire the bonds in New York, and to save the securities now hypothecated from sale. It is also intended to discontinue the Financial Agency in New York, except to designate some banking institution as the place for the payment of the interest on the Public Debt."

TAX LEVY, TAXES COLLECTED, AND DELINQUENT TAXES.

Many and extravagant statements have been made regarding the assessment and collection of taxes, and those not familiar with the actual facts, when compared with collection of revenue for the same purposes in other States, are doubtless frequently led to believe that taxation is extravagant and unusual. I undertake to say that not a State in the Union has collected less tax in the same length of time in proportion to its population and resources. The following is a correct exhibit of the appropriation of moneys, the levy of tax, collection of revenue per annum, and the delinquent list for the years 1868, 1869 and 1870:

Statement of Amount of Taxes Levied, Amount Collected, and Appropriations made, during Years 1868, 1869 and 1870.

Total taxation for 1868, rate of taxation, State,	
7½ mills.....	\$1,338,742 19
Total amount collected.....	1,163,053 28
Delinquent.....	\$175,688 91

Total appropriations for the year 1868, exclusive of interest on public debt, for which no appropriation was made.....	\$817,968 28
Total taxation for 1869, rate, State, 5 mills....	\$1,014,901 83
Total amount collected.....	766,736 08
Delinquent.....	\$248,165 75
Total appropriations for the year 1869, including interest on public debt.....	\$1,191,805 09
Total taxation for 1870, State, 9 mills.....	\$1,670,063 66
Total amount collected.....	1,146,037 06
Delinquent.....	\$524,026 60
Total appropriations for the year 1870.....	\$1,604,053 54
Total delinquent taxes.....	\$947,881 26
Twenty per cent. penalty.....	189,576 25
Total.....	\$1,137,457 51

If the taxes, as shown in the foregoing statement, had been paid, as they should have been, it would have saved the State at least two millions and a half of bonded debt.

BONDED DEBT.

It must not be presumed that the increase in the bonded debt of the State is the creation, in any considerable degree, of the existing administration. This increase represents mostly liabilities contracted under previous administrations, the form of the obligation, in some cases, alone being changed, while a large fraction consists of bonds issued to meet the matured principal and accruing interest of the ante-war debt, in order to maintain the faith and credit of the State.

The seven hundred thousand dollars of bonds issued for the Land Commission form the only portion of the debt actually created by the present administration, and for this the State has an ample equivalent in the lands purchased, which will ultimately repay both principal and interest.

By reference to the various Acts cited in the foregoing statement of the Treasurer, it will be seen that, with the exception of those authorizing the issue of bonds for the Land Commission, they severally provide that a specified sum of money shall be raised on bonds of the State, and not simply that a given amount of bonds shall be issued.

The amount of bonds to be issued for this purpose was not specified by law, as our securities were untried, and therefore had no determinable market value. If the General Assembly had attempted to approximate the probable market value of the new State securities, they would doubtless have rated them at not more than five or ten cents on the dollar, provided that in this they had been guided by the views of the opposition press, which, in its efforts to break down the State credit, fastened upon these securities, in advance, the stigma of a threatened repudiation, and declared that they would be worthless to the holder.

But it was believed by the Financial Board that our securities might be so made to appreciate as to be negotiated at par, and that a million in our bonds would thus purchase a million of dollars.

As the result of the financial policy adopted, these new bonds commanded, in the early part of 1870, from 80 to 85 per cent. of their par value, and so well satisfied was I that our securities—bearing, as they did, six per cent. interest, payable in gold—would, in the natural order of things, further appreciate, that I refused my consent to sell even at those comparatively high rates. This apparent confidence of capitalists in the State Government aroused its opponents to a combined effort to depreciate the bonds, and not only were the most active individual efforts made to discredit our securities, but even the Chamber of Commerce and the Board of Trade of Charleston lent their aid to the scheme of depreciation. The exchangeable value of a State bond depends: First, upon the ability of the State to pay the interest upon it as it accrues, and to redeem it at maturity; and, second, upon the recognized and acknowledged disposition and intention of those who administer the affairs of the State, to provide for the punctual liquidation of all its just obligations. As the resources of the State were, and are, unquestionably ample, even on an ordinary scale of taxation, as compared with its indebtedness, the class of persons especially hostile to the State Government, and the principles upon which it is founded, directed their efforts to make it appear to capitalists that the State administration was corrupt and profligate, and that a popular reaction had taken place that would soon bear them into power. Founding their claims to consideration, upon these false pretences, and pretending to represent the people of South Carolina, they boldly proclaimed their purpose to repudiate all debts contracted subsequent to the adoption of our new State Constitution.

As, by this course of action on the part of men professing to have the honor and credit of the State peculiarly at heart, the purchasing value of the bonds was seriously diminished, thereby requiring an increased amount in bonds to raise a given amount in money, it follows that they, and not this administration, are responsible for any undue increase in our bonded debt, upon the just legal principle that every man is accountable

for the natural consequences of his own acts. Added to these causes for the decline in the value of our securities was the manifest want of confidence among capitalists in the management of our finances by our Financial Agent in New York.

In proof that this scheme to discredit the government of the State has its origin in political causes, I cite the following extracts from the *Charleston Daily News*, a widely circulated journal, published at the commercial center of the State. The first of these extracts, taken from the issue of that paper of date of July 17, 1868, but ten days after the new State government went into operation, makes it evident that the determination to depreciate our securities was formed almost simultaneously with the advent of the present administration, and before it could have rendered itself, by any act of its own, obnoxious to the charges of corruption or improvidence:

“‘BAYONET’ BONDS.—It would doubtless be a very comfortable thing if the debt of the State could be paid, or the interest funded, until the people, under a legitimate government, are able to meet their public obligations. But this cannot be done by the motley Legislature now in session in Columbia; nor can they, by the issue of ‘bayonet’ bonds, provide, as proposed, for the deficit in the annual revenue of the State.

“The Legislature will, of course, bleed freely every property holder in South Carolina, and, as long as they usurp the machinery of the law, may compel the payment of taxation. Negro Legislators, negro Sheriffs and negro Constables may distrain, and there the scheme of financial white-washing will come to a premature end.

“Beyond this they cannot go. What capitalist would touch ‘bayonet’ bonds issued by our bogus Legislature. Would New York or Boston touch these bonds, issued by authority of a horde of negroes, and in face of the protest of the white people of the State? Would not our Northern brethren prefer to wait until after November?

“The State debt of South Carolina—the debt now existing—will be paid to the last cent, whatever the General Assembly may do; but no ‘bayonet’ bond, for whatever reason issued, will ever be recognized by the white people of the State.”

Referring to the Act of the General Assembly providing for the payment of the interest on our State bonds in specie, the same paper says, under date of December 1, 1869:

“We can pay our debt as it stands. The question is, whether one year more of Radical rule will not so largely swell the total that the people will, at the first opportunity, shuffle off the weight of care, and repudiate every dollar of debt contracted after the war.

* * * * *

"Had the Governor advised that the war debt be paid—a debt contracted for the advancement of a cause in which our people embarked fortune, life and honor—an attentive ear and willing heart would have met the proposal, and the whole subject would have been considered with kindly and generous care.

* * * * *

"Every merchant or financier does see, or will see, that the whole scheme is a job and a swindle. Beyond this, there is the certainty that the law of specie payments will assuredly be repealed as soon as property holders and honest men have a majority in the councils of the State. This majority we shall have in less than a year."

The cry of repudiation thus raised by a large portion of the press, and continued, with a shameless pertinacity, in the interest of a small and malignant political organization, has done much to produce the recent depreciation of our securities, coming, as it did, at a time when the money markets were rendered peculiarly sensitive and stringent by various causes.

The debt statement made at the meeting of the Tax Payers' Convention in May last, and that furnished by me to the Congressional Committee in September, were correct, to the best of my knowledge, at those dates. My information as to the sale of bonds was then necessarily limited to the amount reported by the Financial Agent and Treasurer.

Twenty-two hundred thousand of the amount of conversion bonds, issued as above stated, were signed by me for the express purpose of withdrawing from the market and cancelling an equal amount of those issued and hypothecated under the Acts for relief of the Treasury, the payment of the interest on the public debt, and for the Land Commission. They were signed about the time the Tax Payers' Convention assembled. Subsequently, the Financial Agent represented that the rapid decline in the value of our State securities disabled him from getting control of the bonds deposited as collaterals, and to relieve which these conversion bonds were signed at that date.

The action of that body, and of the Charleston Board of Trade, in reference to the proposed Sterling Fund Loan, warning capitalists abroad against its negotiation, and declaring that, if negotiated, it should never be paid, had a most disastrous effect upon our securities, and thereby compelled a large and rapid increase in the volume of our bonded debt. At the time the Sterling Fund Bill was enacted, I deemed its policy a wise one, and it was endorsed as a good financial measure, by many leading financiers, both in this State and in New York. Its design was to replace our securities, already issued, with a uniform class of bonds, many of such securities not being a good delivery at the Stock Exchange

in New York. This loan was calculated to commend itself to capitalists, for, while it changed the form of the debt advantageously, it was guarded with the irrepealable restriction that its proceeds should be "*exclusively used in exchange for, or in payment of, the existing public debt of the State.*"

Its very terms thus show how unwarranted was the action of the Convention in stigmatizing it as an intended increase of the bonded debt of the State. In view of all the facts in the premises, the Sterling Loan, thus discredited in advance, was not put upon the market.

The gentlemen who guided the action of the Convention on questions of finance, expressed, as a further objection to the loan, their want of confidence in the Financial Agent in New York. In evidence of the real purpose, and the wantonness of these systematic attacks upon the State credit, I would mention that I thereupon proposed that they should designate the Syndics, or Agents, for the negotiation of the loan, both in London and New York. I further proposed, with the unanimous consent of the Financial Board, to guard holders under this loan from loss, through any possible subsequent action of the General Assembly in regard to it, by entering into such stipulations on behalf of the State with the Syndics charged with negotiating the loan, that no future Legislature could divert its proceeds without attempting to "impair the obligation of contracts," thereby giving the Courts of the United States jurisdiction, should a question of the kind ever arise, involving the rights of the bondholders and the faith of the State.

I instanced to them, in this connection, the decision in the case of Minnesota, where, under a similar stipulation, the rights of the bondholders were enforced by the Federal Courts, on *ex post facto* grounds, even against a provision in the Constitution of that State adopted subsequent to the creation of its debt. Nothing, however, could change their predetermined purpose. Had they and their allies displayed the same diligence in co-operating with the Financial Board for the negotiation of the Sterling Loan that they have shown in their efforts to discredit the securities of the State, our entire bonded debt would not now exceed ten millions of dollars, and the State would have been saved near three millions necessarily sacrificed in the negotiation of its depreciated bonds.

For them now to complain of our immense bonded debt and high taxation, and to claim commiseration for these direct and inevitable consequences of their own acts, is to imitate the criminal who, having murdered his parents, plead orphanage in mitigation of sentence.

On this question of responsibility between them and the State administration, I invoke and fearlessly await that just judgment which always springs from the sober second thought of the people.

The depreciation in our bonds, therefore, springs from causes purely

artificial, and in their nature temporary. The State can and will redeem all her obligations, to the last cent. I might, with propriety, end this branch of my Message here, but I deem it both proper and timely to show who these men are that arrogantly and falsely assume to represent abroad the wealth of the State, and the sentiment of the people of South Carolina. They are a remnant of the class who ruled this State when the many toiled and suffered for the benefit of the few, and its Government subserved the largest good of the smallest number. Asserting and exercising a prescriptive right to govern wrong, in times past they made the laboring masses, without regard to race, their pack-horses, to bear the burdens of a Government that conferred its benefits only upon a limited and select class of its people. They are essentially non-producers, and do not contribute five per cent. to the thirty millions value of the annual exported products of the State. Claiming to represent a large amount of capital, their names are chiefly found upon the arrear list, when found at all in the tax books, and nearly all of them have long since voluntarily recorded themselves upon the roll of bankrupts. Their pretence that they are the guardians of the honor and credit of South Carolina would be supremely ridiculous, if it were not so supremely shameless.

Their present cry of "repudiation" is not surprising. Repudiation is their chronic disease. When they were in power in 1862 they repudiated all their debts due loyal men, both private and public, and have themselves been repudiated by the people of South Carolina, upon the blood and muscle and sinews of whose hard-handed laborers these privileged few so long fattened. Professing to be the champions of good government, when they were in power, instead of effecting an equitable distribution of the taxes over all classes of property, they created numerous railway and other corporations, exempting them from all taxation forever. These corporations, although owning millions of property throughout the State, pay not one dollar of taxes into its treasury, and even successfully claim, in the courts, exemption from all municipal taxation for the residences and pleasure carriages and horses of their officers in our towns and cities, where, in nearly every street, these wealthy beneficiaries of the State own long rows of houses, untaxed and untaxable, which they buy and sell on speculation.

Remembering the general private suffering that they have caused, and the great public burdens that they have aided to create by their treasonable acts, it would better become these self-styled representatives of South Carolina to walk more humbly, and to show a grateful appreciation of the generous magnanimity that they have received at the hands of the National and State Governments, by honestly endeavoring in some measure to repair the ruin that they have made. As these persons have been pleased to except from their proposed scheme of "repudiation" the

"old bonds" of the State, it may be well to inform them that should the evil day ever come for South Carolina to proclaim her perfidy or insolvency by repudiating any part of her valid debt, she will not first dishonor that class of her obligations in the benefits arising from the creation of which the largest number of her people have shared. On such a financial doomsday the last would surely not be the first.

In dismissing this branch of my Message I would observe that the local combination against our finances was simply Ku Kluxism applied to the State credit, and naturally had, upon the exchangeable value of our securities, the same depressing effect which that infamous system has had upon the material prosperity of the State.

THE FINANCIAL AGENT OF THE STATE.

When the present State Government was inaugurated, (July 6, 1868,) there were only forty-five (45) dollars in the State Treasury. A large bonded and floating debt, incurred by former Administrations, had to be provided for. The ancient credit of the State, that had once stood so justly high in the money markets of the world, was gone. It had been blown away with the smoke of the first gun fired at Fort Sumter.

In order to meet the current expenses, until money could be realized from the tax levy, it was necessary for the State to borrow on its securities. To effect this object on the best terms for the State, the General Assembly authorized the Governor, Attorney General and the Treasurer, "to appoint, under a commission signed by them, some responsible bank or banker in the city of New York, to act as Financial Agent of the State."

To this end I visited New York, and conferred with leading banks. They all declined the agency, alleging that the duties were arduous and the time of payment uncertain; that we were only borrowers in the market.

While thus endeavoring to secure the services of a responsible and efficient Financial Agent, the name of Mr. H. H. Kimpton was presented. He was highly endorsed by prominent officials in the State, and by leading bankers in New York, among whom were the Presidents of the Broadway Bank, and the Bank of the Republic.

Although averse to appointing any individual banker Financial Agent, for reasons which time has since fortified, there then appeared to be no other alternative, and I, therefore, as one of the Financial Board, gave my assent to the appointment of Mr. Kimpton, but on the condition that he would give a bond to the State in the sum of five hundred thousand dollars, (\$500,000,) conditioned for the faithful discharge of his trust as Financial Agent. Mr. Henry Clews, a prominent banker of New York,

was proposed and accepted as bondsman, and I was afterwards informed by the Treasurer that Mr. Kimpton had executed and filed his bond.

It is proper that I should here remark that the law did not require the Financial Agent to give a bond, nor are bonds ever required of their financial agents by other States, but I insisted upon it, out of an abundance of caution in the interest of the State. I mention this fact simply to show that this trust was not carelessly conferred. In referring to it I do not mean to intimate that the depreciation in our securities bears any relation to the bond of the Financial Agent, for, even though his bond had exceeded in amount the total value of our securities in his hands, that depreciation and the consequent loss to the State could not have been thereby prevented, as it would have indemnified the State only in the event of damage received through neglect or fraud on the part of the Agent, neither of which is alleged against him.

Subsequent events have made it manifest that it was a grave mistake to appoint an individual instead of a chartered company as our Financial Agent.

An individual banker, whatever may be his capacity as a financier, cannot, in the management of large money transactions, command the same high degree of confidence, on the part of capitalists, that a corporation can.

Especially is this the case when the basis of the proposed negotiation consists of a class of securities new to the market, at a time, too, when there was an active speculative movement in the stocks and bonds of all the Southern States, and the value of the currency to holders was constantly made to fluctuate by operations of speculators in the gold market.

Hence, I again visited New York, a year ago, for the purpose of effecting a change in the Financial Agency. I found this impracticable, as the State was indebted to the Agent, and could not then arrange to liquidate that indebtedness.

The Financial Agent has probably done the best he could, under the circumstances, embarrassed and checked as he was by constant "bear" movements, originating in the State, as a part of an organized scheme to discredit its existing administration.

Nearly every leading man of the opposition—those who had capital and those who had none, but pretended to have it—joined in this scheme.

I am ready to take my share of the responsibility for our present financial embarrassment, but those citizens who combined against the credit of the State, at home and abroad, and systematically depreciated the market value of its securities, cannot evade theirs.

I am, in public estimation, held responsible for the action of the

Financial Board, when, in law and in fact, the Governor has no more power in the Board than any private citizen who might be a member of it. I would add, in reference to the Financial Agent, that he has been greatly embarrassed by the practice, on the part of the Treasurer, of drawing upon the Agency for funds to meet the current expenses of the State, in the interim between the periods fixed for the payment of taxes, thus creating a floating debt constantly in advance of the revenue. I do not mean to censure the Treasurer for this course, as he doubtless thought it warranted by the exigencies of the Treasury, but the practice is a bad one, and I would recommend that it should be prohibited by proper legislation, which should at the same time provide that hereafter no money shall be borrowed or debt contracted to defray the current expenses of the State Government, but let all those to whom money is due from the State await the collection of the taxes. This course, coupled with a system of rigid retrenchment, will soon lift the State above all present financial embarrassments, and prevent their recurrence in the future.

For a detailed statement of the transactions of the Financial Agent, I refer you to his report to the Comptroller General, for the quarter ending September 30, 1871.

EXPENDITURES OF THE STATE GOVERNMENT.

While holding the political opponents of the State Government responsible for the great depreciation in the market value of our securities—a depreciation directly due to their conspiracy against the credit of the State—I am bound by my sense of public duty to expose to the reprobation of the people the improvident expenditures incurred by the General Assembly, and the extravagant and improper disbursement of the State moneys, to which the Legislative department has given either its express or implied sanction. In so doing, I do not wish to be considered as wanting in a due and proper respect to a co-ordinate branch of the State Government, but I desire to appeal, in plain and earnest language, to the sober judgment, the decent self-respect and the public spirit of each member of the General Assembly, to give his active aid in effecting an instant reform in this direction; for the whole people, with united voice, demand it, and the condition of our finances, and every instinct of self-preservation, require it at your hands.

It would scarcely have been possible for the men who combined to destroy the credit of the State, to have executed their purpose so successfully, had not the General Assembly lent them its practical co-operation by exhausting, through its extravagance, the funds in the Treasury, thus leaving the State without any reserve-balance to meet the financial exigency.

I instance the following, among many other items of extravagant expenditures: The money drawn upon the orders of the presiding officers of the two Houses during the last session for current printing amounts to \$68,904.90. In addition to this large sum, \$30,000 were appropriated for current printing for the same session, making a total of \$98,904.90 expended on this item alone. There was further drawn from the Treasury and disbursed by the Clerks of the Senate and House, for printing the laws, &c., the sum of \$103,651.44. These figures show the enormous aggregate of \$202,556.34 expended on printing alone during and incident to the last session of the General Assembly, while large claims for public printing are still outstanding. In addition to these expenditures, the sum of \$29,814.05 was drawn upon the orders of the President of the Senate and the Speaker of the House, for purposes not very well defined, but designated as "contingent expenses and repairs," making an aggregate, for the above specified objects, of \$232,370.39—a sum startling in its magnitude for one session of the General Assembly, and which may well bid the legislative department pause in the path that it has been pursuing.

The appropriations, including those vetoed by the Executive, aggregate a total of \$480,000. To this is to be added the amount of \$103,651.44, as shown above, drawn upon the certificates of the Clerks of the two Houses of the General Assembly, on account of printing the laws, and the grand total of expenditures, on account of "legislative expenses," amounts to \$583,651.44.

As an evidence of the pernicious consequences of permitting this "money order" system on the part of the presiding officers of the Senate and House, I refer to the fact, well known to the members of the General Assembly, that during the past year, upon the order of the Speaker of the House, an alleged liability against the State was contracted, to the amount of \$91,500, for furniture for the State House. This was entirely without warrant of law, and if the principle is admitted that moneys can be thus drawn from the Treasury, or debts contracted without "appropriations made by law," then all proper safeguards of the Treasury are broken down, and a few ministerial officers in the State may mortgage its revenue in advance, or deprive it at will of the means of meeting its legal liabilities.

THE PAY OF MEMBERS OF THE GENERAL ASSEMBLY.

The first important measure of retrenchment demanded by our financial condition, is a great reduction in the amount received by members of the General Assembly for their services.

The Constitution provides (Article II, Section 23,) that "each member of the first General Assembly under this Constitution shall receive six

dollars per diem, while in session, and the further sum of twenty cents for every mile of the ordinary route of travel in going to and returning from the place where such session is held, after which they shall receive such compensation as shall be fixed by law; but no General Assembly shall have the power to increase the compensation of its own members." I would recommend that, in lieu of a per diem, each member shall receive an annual salary, to be fixed at such a rate as will greatly diminish the cost to the State of the sessions of the General Assembly, as compared with the amount now paid under the system of per diem compensation. It will also enable the General Assembly to provide an assessment for the amount required for the pay of its members, and will enable them to obtain their pay with certainty. I am satisfied that a moderate yet adequate salary could be provided by law, and a great saving be thereby effected to the State Treasury.

You would thereby also greatly diminish the incidental expenses of the General Assembly, by destroying what might offer a great inducement to many members to prolong the sessions.

I cannot refrain from expressing the hope that the present session of the Legislature will be a short and economical one, as the financial condition of the State will not admit of any unnecessary expenditure of money. All the influence of the Executive of the State will be exerted in accomplishing this end, and he trusts that he will have the active sympathy and co-operation of each and every member of the Legislative Department.

The large amount of money paid to the attachees, such as clerks, messengers, porters, &c., is without a parallel in the history of legislative bodies. It was claimed at the time by the members that most of these were men who had been driven from their homes on account of their political opinions, and it became the duty of the General Assembly to provide means for their support. While this may be true, and that it may have devolved upon the State Government to provide some means for their protection and support, yet a very unusual and expensive mode of extending that support was adopted. It might have been but justice to have made a regular appropriation and levied it upon the Counties from which these men were driven; thus the victims of political prejudice would have been provided for and the actual perpetrators of these outrages made to feel that it was an expensive way of controlling political opinions.

THE CODIFYING COMMISSION.

The Commission to codify the laws has been in existence for nearly three years, and has cost the State about fifty thousand dollars, (\$50,000,) and its work is not yet completed.

It is the opinion of some of the best legal minds of the State that this work could have been done thoroughly at a cost of not more than five thousand dollars. I would, therefore, recommend that this standing reproach to the State Government, and unnecessary drain upon the Treasury, be removed without delay, by abolishing the Code Commission and employing a competent jurist to complete the codification of our laws.

THE OFFICE OF LAND COMMISSIONER.

I recommend that the office of Land Commissioner be abolished, and that the duties of the office be devolved upon the Secretary of State.

THE SCHOOL COMMISSIONERS.

The thirty-one School Commissioners, at their present salaries, which are exceedingly large for the amount of service that they render, cost the State thirty-one thousand five hundred dollars per annum. I, therefore, recommend a material reduction in the salaries of School Commissioners, so as to reduce the expenditures on this account to a sum not exceeding ten thousand dollars per annum.

GENERAL REDUCTION OF SALARIES.

There is great and instant need for the reduction of the salaries of State officers, and for a decided diminution of the clerical force employed in many offices of the Executive Department. In some cases the State is paying clerks to perform duties that should be, and can be, discharged by the officers themselves. In my opinion the salaries of all officers, except the Judges, should be reduced one-third.

ADJUTANT GENERAL'S OFFICE.

The office of Assistant Adjutant General should be abolished, and the Adjutant General should be required to perform the duties of his office.

STATE AND COUNTY AUDITORS.

The office of State Auditor should be abolished, and its duties performed by the Comptroller General.

The office of County Auditor can be dispensed with without injury to the public service, and the duties of that office devolved upon the County Treasurer, thus effecting a saving to the State of not less than fifty thousand (50,000) dollars per annum, and securing even increased efficiency in the collection of taxes.

TRIAL JUSTICES.

I invite your early attention to the recommendations of my last Message in regard to Trial Justices. The aggregate cost of this class of

officers is very near one hundred and twenty thousand (120,000) dollars annually. The Trial Justices in the city of Charleston alone entail upon the County an expenditure of about thirty-five thousand (35,000) dollars a year. I would therefore urge, in addition to my former recommendations on this subject, that the office of Trial Justice be abolished in the city of Charleston, and that, in lieu thereof, three Police Judges be created for that city, who shall receive adequate salaries, and shall exercise the jurisdiction vested in Trial Justices. I would further recommend the appointment of one Police Judge in each of our principal towns; dispensing with Trial Justices therein, and vesting in such Judges the judicial powers now exercised by the Mayors' Courts, as, under existing Acts, the Mayors and Intendants of our cities and towns may crowd our jails with prisoners sentenced for trifling offences, thus increasing the expenses of the several Counties.

RECORDER OF THE CITY OF CHARLESTON.

I recommend that the office of Recorder of the city of Charleston be abolished forthwith. This is a State office created by Act of the General Assembly many years ago, but it has for a long period fallen into utter disuse. Although the Recorder receives a salary of twenty-five hundred (2,500) dollars per annum, and has a clerk at six hundred (600) dollars per annum, payable by the city, I am credibly informed that he has not held more than two sessions of the City Court, for the trial of criminal and civil causes, during the past ten or twelve years. It is a mere excrescence on our judicial system, and the people of Charleston should no longer be taxed to sustain it.

CLERKS OF THE SENATE AND HOUSE.

I would especially direct your attention, in this connection, to the propriety of reducing the salaries of the Clerks of the Senate and House. Taking the number of days on which these officers are presumed to be employed, their compensation per diem, respectively, is more than five times greater than that received by a member of the body in which they are subordinates, while the annual salary of each equals the highest received by any officer in the State, except the Chief Justice. This is an anomaly without precedent in any other State, and unwarranted by the present condition of the State Treasury.

ADDITIONAL LEGISLATION REQUIRED TO REGULATE PUBLIC PRINTING.

I recommend that the present system for the public printing be changed without delay, and the great drain upon the Treasury, caused thereby, checked at once. The authority vested in the Clerks of the

Senate and House, in regard to the printing, should be rescinded, and a proper safeguard, and a rigid system of accountability instituted, to insure the strictest economy in this very considerable branch of the public expenditures. It should not be left to the discretion of subordinate officers of the General Assembly, however honest and judicious they may be in the discharge of such a trust. The existing system has involved an expenditure for printing so great as to have proved a real calamity to the State. It has certainly eventuated in a contract for the public printing which is a flagrant fraud upon the Treasury, and should be instantly annulled.

I have ascertained that the company with which the printing contract has been made, to-wit: the Republican Printing Company, neither owns nor controls any journal or printing establishment, and is even without legal existence, but has the work executed in this city at the regular market rates, and thus derives an immense profit from the Treasury of the State, without any outlay on their part.

STATE REVENUES.

Under existing laws for the assessment and collection of taxes, real estate is made to bear an undue proportion of the burdens of taxation. For the purpose, therefore, of raising a sufficient revenue to defray the current expenses of an economical administration of the State, and meet its obligations to its creditors, while at the same time lessening its tax on realty, I make the following recommendations. These recommendations, if judiciously carried out, will secure the payment of taxes on classes of property hitherto practically exempt from taxation, and tend to utilize all legitimate sources of State revenue. The bulk of the cotton and rice is shipped from the State or sent to market, in the interregnum between the annual assessment of taxes, and is thus practically exempted from taxation, contributing but a small share to the amount of revenue derived from the tax on personal property. A tax on these important and valuable products, such as they may reasonably bear without checking production, and, according to value, should be especially provided for, and the necessary measures enacted to insure its collection with certainty.

THE PHOSPHATE, DEPOSITS.

This vast natural source of revenue has not yet been utilized, but a comparatively small revenue having thus far been derived from it by the State. I recommend that some proper officer be designated by law, whose duty it shall be, by actual inspection and measurement, to ascertain the number of tons of phosphate, belonging to the State, that are excavated by

the several chartered companies, and to certify and to collect the royalty due upon the same.

LICENSES.

I recommend that all persons engaged in the sale of liquors, and all merchants, factors, lawyers and physicians, be required to take out a State license.

INSURANCE COMPANIES.

A tax should be levied on all premiums received by insurance companies.

TAX ON RAILROAD TONNAGE.

All the most important railroad companies in this State pay no taxes upon their property. I earnestly recommend that a tax be levied on every railroad company in the State, for every passenger and every ton of freight transported.

DELINQUENT TAX SALES.

To enforce the more prompt payment of the taxes, and to check the growth of the present enormous arrear list, I recommend that the law be so amended that real and personal property, subject to taxation, shall be sold at public sale, by the County Treasurers, within thirty days after the same shall have become delinquent under the tax levy—the personal property to be first exhausted, if necessary, to satisfy the tax, before sale is made of the realty—and that bonds of the State be taken in payment at par for all real estate purchased at delinquent land sales. I further recommend that the several County Treasurers shall be authorized and required to give absolute titles to all real estate and personal property so sold, within sixty days after the date of such sale; that the State shall warrant and defend such titles, and they shall be held and taken by all Courts in the State as titles in fee simple; and that, in all legal proceedings, the said Courts shall be concluded by said titles as to all matters touching any irregularity that may have been had in connection with such sales, and which may be alleged against the validity of the said titles. This provision, as to time of sale and redemption, not to apply to the property of minors and persons who are *non compos mentis*, or confined in public prisons.

I would also urge that the provision of law requiring County Auditors to purchase lands for the State, at delinquent land sales, be repealed, and that all such lands, heretofore purchased by the State, be sold without delay, subject to the claims of those who may hold any of such lands under the State lease, as provided by law, should there be any such unexpired leases at the time of sale.

AMOUNT OF TAXES IN ARREAR.

As an evidence of the need of additional legislation to enable the State to realize the delinquent taxes, I mention the fact that the amounts due on the arrear lists, for the years 1868, 1869 and 1870, aggregate one million one hundred and thirty-seven thousand four hundred and thirty-three (1,137,433) dollars.

SALE OF STATE LANDS.

I further recommend that the lands purchased by the Land Commission, and all other lands owned by the State, be subdivided into suitable areas, and sold at an early period, at a rate per acre to be fixed by law, according to classification, and that bonds of the State be taken in payment, at par, for all such lands.

The State lands are now estimated to be worth one million (1,000,000) dollars, at a minimum valuation.

THE KU KLUX.

The existing intervention of the military power of the United States, for the suppression of "domestic violence" in the State, demands that I should review the causes that have made that intervention necessary. I perform this duty with a deep sense of humiliation as an American citizen, and with profound regret as the Chief Magistrate of South Carolina. It had long been the boast of our political system, founded as it is upon the expressed will of the people, that the peaceful agencies of the law were alone sufficient for the protection of life and property. When, therefore, it becomes necessary for the civil authorities to invoke the aid of the military, for the protection of the citizen in the exercise of his vested rights, it is a declaration to the world that within the limits of the State crime triumphs over law. That such is the fact is justly due to no act of the present State Government. It has assailed no private right, and committed no public wrong, and always remembering that it was established to advance the interests of the whole people, it cannot, with justice, be charged with ever having wantonly injured a citizen either in his person or estate.

The members of the Constitutional Convention of 1868, with remarkable unanimity, excluded from the new Constitution every restrictive feature, and, by its provisions, no citizen was disfranchised, and every class of persons and property was guaranteed the equal protection of the laws. The administration elected under that Constitution endeavored faithfully to reflect the generous spirit of its framers. Impelled by my own personal sentiments, no less than by what I deemed a wise public policy, I saw in the men who had rebelled against the Na-

tional Government only the citizens of my country, who, if they had done much wrong, had also, as a consequence, endured much suffering, and I sought to win them back to a better feeling, that all classes of our citizens might dwell together as brethren, under the shelter of a common mansion, and that the united efforts of the whole might be directed to lifting the State up from the universal prostration caused by the wanton acts of a part.

Actuated by these motives, and as a testimony that the new administration was neither partisan nor vindictive, in my first Message to the General Assembly I used the following language on the subject of political disabilities:

"I would earnestly recommend that your honorably body will, at an early period, memorialize Congress to relieve every citizen of South Carolina from all political disabilities. I make this recommendation the more readily from the fact that there are believed to be none of that class in this State who have committed infamous offences against the laws of war."

"The statute of disfranchisement was doubtless wise and proper at the earlier stage of reconstruction, and justly marked the nation's abhorrence of those who, having been the trusted leaders of the people, had led them into rebellion against the benign government of their country. Yet the continuance of such disfranchisement would be an anomaly under our Republican system based upon the doctrine of universal suffrage. Let us hope that such an act of magnanimity will not be mistaken by the class disfranchised, while to deny it will tend to make them objects of sympathy, and will be, as it were, to keep a knife sticking in an open wound."

I would add, that I have neither abandoned the hope or the sentiment that impelled that recommendation, so far as the industrial class of the whites are concerned. Although they contributed largely to the wealth and strength of the State, yet, in former times, they were not permitted to take any part in the administration of its affairs. There is no natural antagonism between them and our present system of free government, which, in its paternal care for the welfare of its citizens, has, for the first time in the history of South Carolina, enacted a homestead law, which guards the threshold of the poor man's dwelling, so that remorseless creditors may not enter and sell the roof that shelters his wife and children, or seize the products of the few acres that supply his table with food. Whatever feeling of hostility any of these may entertain against the government of their country, is the result, in a great measure, of the willful misrepresentations of their former privileged rulers, to advance their own political ends.

The General Assembly promptly seconded this effort to restore universal good will among our people, by devising an equitable system of taxation, and by the enactment of laws for the development of all the industrial interests of the State.

As an evidence of the beneficent policy of the new State Government, I cite the facts that most of the Circuit Judges elected by the General Assembly were known not to be in political accord with the majority of its members, and none of them were political partisans. More than half of all the officers appointed by the Executive were of the opposition, and the old Magistrates, who had held their places for years, were generally re-appointed. That this liberal course on the part of the new Administration was not due to a paucity of material in its own party, is shown by the fact that this policy was pursued even in Charleston, where there were numerous Republicans capable and willing to fill all the offices in that vicinity. All the old Magistrates in that city were re-appointed, and the best position in the County of Charleston, the County Treasurership, was bestowed by me upon a citizen known to be politically hostile to the State Administration.

I recur to these facts to show that the armed violence which has prevailed in the State, and has successfully bid defiance to the civil authorities, cannot find a vindication in the plea, which so justly commends itself to the American mind, that it was the result of a reaction against oppression—an appeal to force to remedy wrongs for which there was no other remedy.

Indeed, this system of organized murder began in 1865, immediately after the cessation of hostilities in the open field, inaugurating a condition of affairs that has continued with varying intensity up to the period of its recent culmination, and which differed in its destructiveness from actual war only in this, that *the killed and wounded were all on one side.*

In evidence of this, I refer to the well known fact, that my immediate predecessor, one of the most worthy and eminent citizens of the State, Governor James L. Orr, was both publicly and privately maligned for his efforts to suppress it and enforce the laws against the criminals. The class of men who assailed him for the faithful and fearless discharge of his duty are the same who openly defend the Ku Klux and secretly moved the springs that put and kept them in motion.

A better temper seemed to prevail among this class in the early part of 1868. This, however, was rapidly changed under the written teachings and public speeches of the opposition press and leaders. By the notorious Broadhead letter of General Frank P. Blair, and kindred utterances, announcing the speedy advent of a national administration that would "trample under foot" the whole system of reconstruction, the dormant disloyalty of the opposition leaders in this State was gal-

vanized into action, as is a palsied limb of the human body by the thrill of the electric spark.

These leaders at once evinced a recalcitrant spirit. They assumed the air and speech of a defiant conqueror, and where they did not vindictively assail the principles of the National Government, of whose rare magnanimity they were living proofs, they would declare, as the farthest limit of their loyalty, that they "accept the situation;" an expression which has now become stereotyped, and which, on the lips of such men, conveys both a falsehood and an insult, in the sense in which they use it, as it implies a reserved right to refuse obedience to the laws of their country, whose authority they ceased to assail only when they were deprived of the power to resist it.

They mistook the magnanimity of the Government for weakness, and presuming upon its forbearance, bore themselves as if they had been the victors in the late struggle. These old party leaders soon fanned into flames the expiring passions of their followers in the rebellion, doubtless fearing that the new political system might, if unchecked, induce the white masses to break the thralldom that had so long bound them under the ancient rulers of the State.

They denounced the State Government, elected by a majority of forty-three thousand of the voters of the people, as "a tyrannical usurpation," and "a negro oligarchy," designed to crush out white men; and they stigmatized its loyal supporters as "thieves and robbers," and passed a general sentence of outlawry upon every Republican, without regard to character. The seed thus scattered broadcast from the rostrum, the pulpit and the press, soon produced a terrible harvest. That Republicans were the victims of frequent murders, both open and secret, could not be accounted for on any known theory of mere coincidences. It soon became evident that there was "method" in this "madness," and that a large mass of the whites, obeying the "bloody instructions" of their political leaders, were engaged in a concerted effort to suppress Republicanism in the State, by murdering Republicans, white and colored, solely because of their political opinions. I endeavored to check this system of violence and terrorism by an energetic use of the State Constabulary, and other civil agencies at my disposal. In this I measurably succeeded for a time, although the alleged criminals were invariably bailed, or escaped punishment through jurors in accord with them in political sentiment.

Just previous to the general State election of October last, there was a comparative lull in these outrages. The opposition party, in that election, was again defeated by an immense majority. That defeat aroused the fiercest hate in the breasts of their leading men against every loyal man in the State, and, through their efforts, the most perfect cohesion

was given to the disloyal elements in the upper Counties, where there was an approach to a numerical equality between the two parties.

In November following the election, a prominent citizen of the State, an active and recognized leader of the opposition party, used the following language, in an address delivered in this city to the Confederate Survivors' Association:

"Defeated on the battle-field, defrauded at the ballot-box, we have but one remedy! The dagger, that was made illustrious in the hands of Brutus, must, in the daylight and *in the dark*, cut its way to the hearts of the miscreants who now misrule our native State."

That this language was used on that occasion by the person referred to, I have the testimony of gentlemen of the highest respectability, who heard it. Scarcely less incendiary was the tone of the opposition newspapers throughout the State, as the following extracts from their editorials of that period clearly demonstrate, and fasten upon them much of the responsibility for the baleful consequences that ensued:

"Remember that we are the white people, and that they are the negro; that they have chosen their ground, and arrayed themselves against us with a determination and hate which are unmistakable, and that our policy is to let them alone and take care of ourselves. But we must have organization, not politically, be it remembered, and the views below are worth consideration. Let us have a thorough understanding and a union of the whole white people of the State, not forgetting, either, the worthy exceptions among the negroes who have identified themselves with us, or any others who may see fit to cast their lines in with us."

[*Newberry Herald*, Nov. 3, 1870.]

"The time for temporizing, argument and conciliation, is passed; we shall have no more of it. A straight and severe line must be drawn between the races. The colored people have chosen their ground with the advice of the ringleaders, and they must follow it out without aid or sympathy from their former white friends. The white people have the power and the brains and the determination to hold their own and protect themselves, and they will do so. The negroes have followed their devices one time too many, and now let them look to others for help, assistance and sympathy."—*Darlington Democrat*, Nov. 3, 1870.

"We understand, therefore, and accept the solid black vote cast against the nominees of the Reform party as a declaration of war by the negro race against the white race, by ignorance against intelligence, by poverty against actual or potential wealth. This issue we have striven to avoid, but the negroes will have nothing else. They will not allow us to work with them; we must, if necessary, work against them. Con-

ciliation, argument, persuasion—all have been worse than useless. The white people stand alone. And they must organize themselves and arm themselves, not as ‘a white man’s party,’ but because the past and present prove that decency, purity and political freedom, as well as the preservation of society, are identical with the interests of the white people of the State.”—*Charleston Daily News*, Nov. 7, 1870.

I shall not multiply these evidences from the opposition press, but cannot refrain from uttering a reflection that their candid admissions forcibly suggest.

The two parties in the State during the campaign to which these extracts relate, ran their respective candidates upon platforms that were almost identical in terms, and were alleged by the opposition to be identical in principle. The fact, therefore, that those who claim to possess all the intelligence, and who do possess much of the potential wealth of the State, were so utterly defeated, cannot be referred to mere party differences. Nor can it be explained by charging such defeat to those who are offensively termed “carpet baggers” and “scallawags,” for the number of whites who are active Republicans in this State may almost be counted on the fingers of a man’s hands. The cause lies deeper than this. It is doubtless due to the “negro’s” just perception of character, either intuitive or derived from long experience and close observation, which enables him to look beneath the mere planks of a platform, and discriminate between those who are loyal and those who are disloyal to the government of his country. Hence, he would unquestionably vote as he does, even though every white man in the Republican party in this State should go over to the opposition. He doubtless also perceives that these men bear the same relation to the National Democratic party, of which they claim to be members, that the mere guerrilla or bush-whacker, plundering and murdering on the outskirts of a great army, does to the regular soldier in its ranks.

These appeals were quickly responded to. In many Counties of the up-country bands of armed horsemen, thoroughly masked, rode at midnight to the houses of peaceable Republicans and shot them down in cold blood. Colored men, Republicans, charged with offences, and imprisoned on probable cause, were taken from the jail and inhumanly butchered, to evade the effect of a writ of *habeas corpus* which had been issued in their behalf. Hundreds of Republicans, white as well as colored, law-abiding citizens, were tied to trees and whipped, and their bodies lacerated with cowhides. On the day succeeding the last general election, (October 20, 1870,) an attack was made by these men on a member of the State Constabulary, at Laurens Court House, while the Court was in session, which attack was the signal, evidently, for the execution of a

preconcerted plan to murder Republicans; for the instant it was made a large number of the citizens of the town, all of them of the opposition, formed line of battle and began firing, killing several Republicans upon the spot, without provocation, and hunting down those that fled, and placing them in position, and then deliberately shooting them to death. They then went to the post office and demanded the ballot-boxes from the Post Master, in whose custody they supposed them to be deposited—the Republican ticket, as they correctly thought, having been elected. In this affair, thirteen (13) Republicans were killed and many wounded. Not a man of the opposition was injured. In this and other Counties many were compelled to abandon their families and growing crops, and fly for their lives, and others were required and forced to make a public recantation of their Republican principles from the steps of the County Court Houses, and in open daylight. In obedience to the mandates of these masked murderers many of the local officials resigned, although they were chargeable with no malfeasance in office. In proof that these deeds of violence sprang from no local grievance, but were a part of a general political plan, I refer to the fact that they were committed in several Counties—Union, Spartanburg, York, Chester, Chesterfield, Laurens, Fairfield and Newberry—where all the judicial and other appointees of the administration were of the opposition.

In view of this condition of affairs, the State capital was thronged by refugee Republicans, and in the months of January and February last I was earnestly urged by many loyal men, including numerous members of the General Assembly, to call out the militia and declare martial law over those Counties where these acts of lawless violence were being perpetrated. This I refused to do, for reasons which I then thought, and still think, were judicious and proper. I had at my disposal but a comparatively small militia force, composed nearly altogether of colored men, as this class alone, with but few exceptions, had offered themselves for enrollment and organization, and they alone could be relied on as loyal citizens. As an evidence of this fact, I would state that a captain of a militia company, composed of white men, in this city, having applied to me for ammunition, I asked him if he would obey my orders as Commander-in-Chief, in the event of an armed collision arising from an attempt to enforce the laws, to which he frankly replied: "In case of difficulty, I will go with my race." He was told that it was not a question of race, but a question of enforcement of the laws against those who proposed to set them at defiance. The militia were, for the most part, undisciplined and unskilled in the use of arms, for they were reared under a system of law which even forbade their having a fire-arm in their possession. I was convinced that if put into the field they would have been

instantly confronted and attacked by a large body of veteran soldiery, well organized, and equipped with the most improved arms, and forming a part of a vast organization extending through adjacent States, with which they had easy lines of communication. In such a conflict it was evident that the militia would have been beaten—either driven back or slaughtered. In that event, I feared a general retaliation, which would have speedily made the entire State the theatre of an internecine war.

But, supposing the militia successful in such a conflict, the opposition papers and the Associated Press agents in this State would have proclaimed to the country that the State administration had, for a political purpose, inaugurated a “war of races,” and even loyal men of both parties in the North, who have no sympathy with the perpetrators of these unnatural crimes, would have been led to believe that the contest here was one between the “negro and the white man,” instead of being, as it is, an issue between the loyal friends of the Government and its disloyal enemies.

Such an impression in the country would have had a peculiarly disastrous effect upon the future of the colored population throughout the entire South.

In addition to these considerations, I thought, and still think, that it was the paramount duty of the Government of the United States to protect its loyal citizens in the enjoyment of “life, liberty, and the pursuit of happiness.”

The negro was a slave by virtue of the Constitution of the United States. By the Government of the United States he was emancipated and made a free, American citizen. The Government of the United States is, therefore, morally bound to protect him in the full exercise of his vested rights, and, if need be, to educate him to exercise those rights understandingly, for he was kept in ignorance pursuant to its laws. If the Government of the United States fails, when necessary, to discharge this duty, then emancipation was a political crime, and the negro is left to become the obedient tool or wretched victim of the disloyal enemies of the Government, and to suffer outrage because he is its friend. Moreover, I viewed the use of the military for the execution of the laws with extreme repugnance, and required that the civil authorities should first exhaust their powers through the *posse comitatus*. In the following letter, addressed to the Sheriff of Fairfield County, and published for the information and guidance of peace officers in other Counties, I enjoined upon the local Magistrates and peace officers of that County to act with vigor, and, at all hazards, to bring these criminals to justice, at least such of them as were known, and where there was proper evidence on which a warrant could issue :

"STATE OF SOUTH CAROLINA,
"EXECUTIVE DEPARTMENT,
"COLUMBIA, May 2d, 1871.

"To the Sheriff of Fairfield County :

"SIR—I have been credibly informed by a number of citizens of Fairfield County, as well as by your own official communication, that on the night of the 29th ultimo, a body of armed men, in disguise, rode into the town of Winnsboro, and left at the houses of several County officers a written paper, in which they were commanded to resign, and threatened with violence if they failed to obey. As you are the chief executive officer of the County, it is your duty to take measures to ascertain and bring to justice these masked violators of the public peace, and, for this purpose, you should promptly invoke all the resources which the law places at your disposal. In the last resort, should the ordinary service of process prove inadequate to make the necessary arrests, by reason of any armed combination, you will call out the *posse comitatus*, which call, I have no doubt, will be responded to by all good citizens. In all cases of this character, where citizens are put in terror by armed bands of lawless men, it is expected that the local authorities should exhaust all legal resources to give adequate protection to life and property, before the State Executive can properly intervene by extraordinary exhibitions of force, hitherto unknown to the administration of the laws in civilized communities. The failure of the proper County officers to exert their utmost vigilance to detect, and their most vigorous efforts to bring to punishment, all disturbers of the peace, will be deemed evidence of their flagrant neglect of duty or gross inefficiency. It is a grave reproach to the people of Winnsboro, that a band of fifty disguised horsemen should have been permitted to enter their town, and occupy it for several hours, with the declared purpose of putting in terror, or inflicting violence upon, the sworn public officers of the County.

"In this connection, it is proper that I should call your attention to the recent Act of Congress, which makes all citizens who are privy to any acts of organized violence, and fail to give any information in their possession that may lead to the arrest of the perpetrators, *particeps criminis* in their guilt.

"Very respectfully,

(Signed)

"ROBERT K. SCOTT, Governor."

The officers did not act, being either paralyzed by fear or in sympathy with the criminals. In common with many others, the loyal men among them seemed to regard this as a purely personal government, and to expect that the Executive should discharge the duties of all the Departments of the State.

At this juncture I determined to make a final effort to restore public order without military force, and I therefore invited prominent citizens of the disaffected section to a conference with me at the capital. They were all recognized leaders of the opposition, and of acknowledged influence in their respective Counties. I had hoped much from their co-operation in the interest of law and order which they professed to advocate, knowing, as I did, that the masses of the whites in this State would, from the mere force of former discipline, heed their admonitions. The conference was held. All of these gentlemen deprecated acts of violence, but denied the existence of the Ku Klux organization in South Carolina, while some of them indirectly sought to extenuate acts of violence that they could not well deny, by referring them to what they were falsely pleased to term "negro rule."

They alleged numerous acts of incendiarism by negroes, which allegations, derived from the opposition press, and often repeated, have been proved base fabrications, in the main, designed to offset or palliate the burning of school houses erected for the instruction of colored children.

These gentlemen, however, promised me their co-operation to the end in view, and I believed them. I am not advised that any effort was made to fulfill those promises. Certainly they effected nothing. Having exhausted all the civil power under my control to suppress this insurrection against the constituted authorities, I made application, in accordance with the Constitution of the United States, to the National Government to protect the State "against domestic violence."

The magnitude of this organized system of crime was made apparent to Congress, the evidence in the possession of the Government showing that the Ku Klux bands, in South Carolina, were "but parts of a stupendous whole," having a broader scope than the redress of a mere local grievance. Congress, "by appropriate legislation," having granted the necessary powers, His Excellency the President of the United States, on the 17th day of October, 1871, suspended the writ of *habeas corpus* in the Counties of Spartanburg, York, Marion, Chester, Laurens, Newberry, Fairfield, Lancaster and Chesterfield.

The County of Marion was subsequently excepted from this list, and the County of Union very properly substituted therefor—Marion having been originally embraced, instead of Union, in the first proclamation of the President, through a clerical error.

An adequate force of United States troops is now in the State, and, under the direction of an energetic and discreet commanding officer, they are actively engaged in arresting the Ku Klux criminals wherever legal testimony of guilt is furnished.

Many persons of the suspected class have fled from the upper Counties, while at the same time protesting their innocence of crime. Flight

from arrest by officers of the law is not generally regarded as furnishing a very strong legal presumption of innocence. It would be far better, however, for the State, that all of this class should abandon it forever, than that even one industrious laborer should be murdered or driven away from the pursuits of useful industry. The former are usually drones in the human hive, while upon the products of the toiling mass repose the whole wealth and prosperity of the State.

I am officially informed that thus far about six hundred arrests have been made in this State, under the Act of Congress. The persons arrested, and now, for the most part, held for trial, represent almost every class in society; from the humble laborer and small farmer, to the wealthy planter, practicing physician, lawyer, and minister of the Gospel.

I have endeavored to be historically exact in recording what must pass into history as a reproach to American civilization, and is now known of all men as the shame of the State. It presents the most extraordinary spectacle of a complete relapse from civilization into barbarism known in the annals of mankind; surpassing, in its atrocity, the "Thugism" of India, for the Thug spares woman and the aged, but the Ku Klux exempts none from his vengeance, in his effort to strangle Republicanism. If any impartial man, jealous of the honor of his kind, hesitates to believe such things possible in a civilized community, let him visit the jail in this city. He will there find scores of the veritable actors in these deeds of blood, many of whom have voluntarily confessed their crimes as Ku Klux, these last being poor, deluded men, to whom I trust the utmost clemency of the national Executive will be extended, for they are but the blinded victims of their cultivated leaders.

Some of them but recently showed, or offered to show, their scarred backs to a distinguished United States Senator from Rhode Island, (Mr. Sprague,) they having been lashed by order of officers of their own Klan, because, when ordered to shoot men marked for murder, they had, out of natural pity, "*only whipped*" the intended victims.

Those who, with an air of indignation, and with a well-affected concern for constitutional liberty and "State sovereignty," demand who has caused the military intervention of the United States in the affairs of the State, may be justly referred to the Ku Klux and their organizers and aiders and abettors, for their answer.

In the foregoing remarks, I have reluctantly used political designations, contrary to what I deem a proper custom in a Message of the Chief Magistrate of the State, who, in his official capacity, should know no party. But I found this unavoidable, in treating of these great crimes, that sprang solely from political causes; nor can I regard men loyal to the Government who set its laws at defiance, and use every means in their power to destroy its very existence.

THE TAX PAYERS' CONVENTION.

In the month of May last a highly respectable body of citizens, styling themselves "The Tax Payers' Convention," assembled at the State Capital, for the ostensible purpose of making inquisition into the financial administration of the State. They were furnished every facility to prosecute their proposed investigation, and the books, records and papers of the several bureaus in the Executive Department were unreservedly laid open to their inspection. The result of this investigation, prosecuted with great diligence, was, that they gave a reluctant confirmation, in the main, to the official debt statement, which they had primarily assembled to discredit.

Having been requested by the Convention, through its Committee, to extend the time for the payment of taxes, in the cases of those to whom it was not expedient to pay, or who could not make payment within the prescribed period, I informed them that the tax books would be opened in November for the receipt of taxes, but, in cases where parties are unable to pay, or could not pay without a sacrifice, I would extend the time to March the first, without the delinquent penalty attaching. Pursuant to my promise, I have directed the proper officers to grant an extension in every such case, that may be certified to them by the person asking it.

MINORITY REPRESENTATION.

The subject of minority representation engaged the earnest attention of the "Tax Payers' Convention," and they presented many cogent reasons for its immediate adoption into the elective system of this State. In accordance with my promise to them, I present this important matter for your gravest consideration.

I recognize the *principle* of minority representation as both wise and just. It secures to the several party divisions in the State a direct and proportional representation in its administration. It thus institutes a check and balance against that injudicious or oppressive exercise of power that is too apt to ensue where its undivided possession is held by a large party majority. The advantages of the system have been recently exemplified in practice at elections in England and in the States of Pennsylvania and Illinois. In those States, however, citizens divide into parties upon questions merely affecting the State or national policies, and they seek only by legitimate means to elevate to power the exponents of their views. There no man's party affiliation furnishes any just presumption against his loyalty to his country, and no citizen who is loyal is, for that cause, subjected to the hazards of murder, exile and the lash, or the certainty of public and social proscription.

Here, on the contrary, the minority are organized upon a basis which

practically calls in question the very principles, and the fundamental law upon which the State and National Governments repose.

The end sought by the proposed system could long since have been practically accomplished, but for the bitter spirit of intolerance engendered and fostered by party leaders of the opposition among their followers.

I have been at all times ready, as is well known, to co-operate with all moderate men, without regard to party affiliations, in securing the election to public office of those only who were worthy and well qualified. My own course in this regard has not only been illustrated by the Executive appointments, but by the personal aid that I have invariably extended to elevate to public position those native whites who, although classed, at the time, with the opposition, were gentlemen of character and intelligence, and fair and temperate in their political views. In proof of this I instance, with great gratification, Chief Justice Moses, and Circuit Judges Ex-Governor J. L. Orr, Green, Melton, Graham and Farmer, [the last an *ad interim* Executive appointment,] to whose elevation to the bench I gave my cordial support. These gentlemen were all trusted and honored under the ancient *regime*, and will compare favorably, in point of personal character and capacity, with any citizen of the State.

I submit, however, for your deliberate consideration, whether the men who are now demanding the establishment by law of the system of minority representation, are entitled to this act of magnanimity at your hands. It is for you to determine whether the line of policy pursued by them since the adjournment of the Tax Payers' Convention, tends to commend the speedy adoption by you of an elective system, which must largely increase the number of those in the General Assembly who are hostile to our system of free government.

FREE COMMON SCHOOLS.

The State Superintendent of Education states that he had hoped to be able to submit, in a full and complete form, his third annual report, but found several of the annual reports of the County School Commissioners so inexcusably defective, that he was compelled to return them for correction, and, on this account, the completion of his report has been unavoidably delayed.

The following general statements are presented :

The scholastic population of the State, as shown by the census of 1869, is as follows:

White males.....	40,956
Colored males.....	58,776
Total males.....	99,732

White females.....	41,240
Colored females.....	56,207

Total females.....	97,447
--------------------	--------

Total white.....	82,196
Total colored.....	114,983

Total scholastic population, 1869.....	197,179
--	---------

The returns of this year will show a scholastic population amounting, in the aggregate, to more than 200,000.

The whole number of pupils attending the Free Common Schools of the State, for the scholastic year 1871, is about 67,098.

The whole number of Free Common Schools in the State is 1,639.

The whole number of School Districts in the State is 462.

The Free Common Schools throughout the State are kept open about six months in the year.

The whole number of teachers employed in the public schools is as follows:

Males.....	1,150
Females.....	705

Total.....	1,855
------------	-------

The average salary paid to teachers is \$35 per month.

The following is an exhibit of the school funds of the State for the fiscal year ending October 31, 1871:

Regular legislative appropriation....	\$150,000
Amount of poll tax collected, estimated at.....	50,000
Deficiency appropriation.....	40,000

Total	\$240,000
-------------	-----------

A majority of the School Districts in the State have voted a school tax, but the Superintendent has no means of ascertaining the aggregate amount.

There is evidently a lack of interest in the cause of Free Common School Education, and it is hoped that some practical and simple plan for raising a school revenue, by means of local taxation, will be speedily devised, and that the people interested in the general results of education, will, through their personal influence, aid in extending means. A reasonable degree of progress, taking into due consideration the adversities and difficulties encountered, has been achieved in the educational work during the scholastic year. The school attendance for the year 1871 more than doubles that of 1870. The "School Law," though not faultless, will not fail to produce very favorable results, if it be properly

enforced, and the Superintendent testifies that the people are gradually acquiring an interest in the cause of public schools.

It will be noticed that \$35 per month has been paid to teachers, male and female, throughout the State. I am surprised at the high average of compensation paid for this service, as it is well known that the qualifications of a large portion of these teachers would not enable them to earn over one-third of the pay now received in any other vocation they might adopt. It is the duty of the General Assembly to interpose in the expenditure of the appropriation for this purpose, and, while advancing the means of education, limit the amount paid teachers to such a compensation as their services would legitimately command. In the higher grades of schools in our towns and cities the teachers who can fill the situations are entitled to compensation in proportion to their qualifications; but in the country schools it is a well known fact that the teachers generally employed can do but little more than impart the rudiments of a common school education, and yet they receive the pay of first class teachers. This extravagance in disbursing the appropriations for schools is one of the principal causes that embarrasses the Superintendent of Education.

In no portion of the United States are school teachers regarded as beneficiaries of the State, but they adopt the vocation as a means of gaining a livelihood, and in country places the cost of living is a mere trifle, and the compensation is proportionably reduced. The same rule should be adopted here that prevails in other sections of the country, and School Commissioners should give this their attention, for, to my personal knowledge, very large and extravagant claims for the services of teachers have been favorably acted upon by the Legislature, whereas the parties making the claims could not have earned twenty-five per cent. of the compensation demanded, thus robbing the children who needed the benefit of the appropriation for educational purposes. I trust this matter will engage your earnest attention, as it must be patent to every member of the Legislature that the foregoing is no exaggerated statement of the waste of public school funds.

I would further recommend that you memorialize Congress, through our Representatives, on the adoption of a National system of Education, and more especially on the subject of contributing means towards the education of that class of children of the Southern States who have been hitherto totally deprived of the means of education, in pursuance of the Constitution and laws of the State and nation. At the close of the recent rebellion, those held in slavery were turned loose upon the world with neither education, or even houses to shelter them, but were left to the mercy of those who had but recently held them in bondage. It could scarcely be expected that assistance would voluntarily be rendered

them by those who felt that a great wrong had been inflicted on themselves by the loss of this class of legal property. They have, therefore, before them years of struggling and hardship, before they can, unaided, succeed in educating their children, and prepare them for the duties of citizenship. A national system of education, supported by the General Government, would secure equal advantages to all classes of children.

THE LUNATIC ASYLUM.

The report of the Board of Regents of the Lunatic Asylum, including the Annual Report of the Superintendent and Physician, communicates much valuable and interesting information in relation to this important institution. And the valuable suggestions of the Superintendent are earnestly recommended to the attention of the Legislature. The Regents speak of the Superintendent (Dr. Ensor) as having, during the past year, effected many long needed reforms in the affairs of the Asylum, and, by his intelligent and untiring exertions, made very decided improvements in its various departments, and thus contributed largely to the comfort of his unfortunate charge.

The various statistical tables referring to the operations and condition of the Asylum are full and satisfactory. The number of patients admitted during the year was 125, of which 71 were males and 54 females. The number of patients in the Asylum, October 31, 1871, was 370: whites 295; colored, 75; 185 males, and 187 females; of whom 30 were discharged cured, 10 improved, 3 unimproved, and 32 died. The supposed causes of insanity of the patients admitted during the year was: Hereditary, 12; Epilepsy, 10; Consumption, 5; Intemperance, 5; Domestic Trouble, 5; Child-birth, 5; Congenital, 6; Masturbation, 4; Typhoid Fever, 3; Meningitis, 2; Eating Opium, 2; Injuries to Head, 2; Uterine Diseases, 2; Softening of the Brain, 2; Hepatic Derangement, 2; Heart Disease, 2; and there were one each of Syphilis, Influence of Puberty, Exposure in the Army, Malarious Poisoning, Cancer, Pregnancy, Suspension of Menses, Bad Health, Unknown. The form of insanity in patients admitted during the year was: Acute Mania, 16; Chronic Mania, 11; Puerperal Mania, 5; Dementia, 20; Imbecility, 11; Epilepsy, 11; Melancholia, 14; Idiocy, 7; Delusional Insanity, 20; Monomania, 2; Hysterical Mania, 3; Dypomania, 1.

A larger number of patients have been admitted than in any previous year, and the whole number under treatment during the year was greater than ever before.

The receipts of the Asylum have been, from patients, \$ 9,824 78	
From the State Treasurer.....	34,000 00

\$43,824 78

Indebtedness of the Institution, on account of this
year's transactions..... \$21,271 48

With this brief resume I must refer you to the reports of the Board of Regents and Superintendent for a more detailed statement of the affairs of the Asylum. Some important suggestions have been made, which space does not permit me to notice at length. I must say, however, in providing the necessary appropriations to extend the usefulness of this humane Institution, as recommended by its officers, I feel it my duty to caution you against making more liberal appropriations than the income of the State at present justifies.

THE SOUTH CAROLINA PENITENTIARY.

The Board of Directors of the South Carolina Penitentiary furnishes the annual report of the Superintendent of the institution, with its accompanying exhibits, showing fully and satisfactorily its practical workings. I regret that the late hour at which it was furnished precludes a more exhaustive analysis of its contents, which throw much light on the workings of this institution, so important not only to the material interests of the State, but to the moral and industrial interests of its inmates. I can do but little more than refer you to this report, and call your attention to its recommendations.

The expenditures of the Penitentiary for the year ending October 15, 1870, for all purposes, amounted to \$104,134.02, and the value of work done and manufactured articles produced, to \$98,626.02, which leaves \$5,558 as the actual cost to the State of its Penitentiary, an exhibit which reflects much credit upon the Superintendent and Board of Directors for the efficient management of the institution, as well as to their subordinates, for the skill and zeal with which they have directed their labors.

On the 15th day of October, 1870, the Penitentiary contained	317 inmates.
Received under sentence since.....	231
Recaptured.....	9
Total during the year.....	557
From which were discharged by expiration of sentence	69
Pardoned.....	153
Died.....	13
Escaped.....	13—248
Number now in confinement.....	309

Whereof 301 are males and 8 females. Two of the latter have each a child, one of which was born a short time after the mother's arrival. The evils adverted to in the Superintendent's last report, of imprisoning women in a penal institution unprovided with facilities and conveniences necessary for an absolute separation of the sexes, are still unabated, and it is earnestly hoped that they may be provided for in some appropriate asylum.

The estimates accompanying the Superintendent's report, which he claims will admit of no abatement, for salaries, materials, clothing, &c., aggregates in the neighborhood of \$130,000. In addition to which there is an actual deficiency of \$17,457, the items and the necessity for the expenditure of, which are explained. The erection of permanent workshops is of imperative necessity for the welfare and true prosperity of the institution. The time is rapidly approaching when the unskilled labor now utilized must be dispensed with, and the force now so employed will have to be otherwise occupied, by gradually instructing them in the mechanic arts appropriate to an institution of this kind; and, if provision is not made in time for teaching the inmates these industries, much loss will be incurred by the State, and disease and demoralization result to the convicts.

It will be seen from the above table that one hundred and fifty-three (153) convicts have been pardoned during the past year. Of these eighty-five were pardoned on the recommendations of presiding Judges and the petitions of numerous good citizens of the Counties in which they were convicted, and sixty-eight, when within a few days of the expiration of their sentences, for good conduct.

Very harsh criticism has been indulged regarding an alleged excessive use of the pardoning power. This criticism is unwarranted, and leaves out of view the causes that have invited and justified the exercise of Executive clemency. In many cases unimpeachable testimony, now of record in the Executive Department, has clearly shown that their conviction was contrary to the evidence and due to political prejudice; and, in others, that the witnesses were in conspiracy to effect the conviction of the accused; while a still larger number were convicted of such minor offences as did not appear to me to warrant their imprisonment in the Penitentiary for any great length of time. As an instance of the last named class, I cite the case of a convict who was sentenced to a term of eighteen (18) months' imprisonment in the Penitentiary for stealing a few ears of corn, amounting to less than a peck, from the feed box of his employer's horses. The current statement, that pardons have been granted by me in a spirit of partisanship, discriminating in favor of colored convicts, is not true. I have granted as many pardons to white as I have to colored convicts, in proportion to their respective

numbers. During the past year I have granted but two pardons to homicides, and both of these convicts were *white men*, one from Camden and the other from Charleston, and, in both cases, the victims of the homicides were colored.

The whole number of pardons granted by me does not exceed the number granted by my predecessors, for the same period, when compared with the number of convictions. Moreover, under previous administrations, the penalties for petty offences were not as severe as they are now, there being then no penitentiary system of imprisonment at hard labor.

QUARANTINE.

The report of Dr. Robert Leiby, Health Officer for the port of Charleston, refers officially to the "presence of yellow fever in the city during the past season." He claims that the rigid and successful execution of the Quarantine Act of 1868 in the harbor of Charleston, and on the seacoast line of South Carolina, has prevented the introduction of yellow fever into the cities and towns of this State by importation; and, while Charleston has severely suffered from epidemic yellow fever, and a type of the same fever, to a limited extent, appeared in Beaufort, there is no evidence whatever to induce the belief that the disease was introduced by importation, but that it was dependent entirely upon local causes. The disease has been very fatal on unacclimated persons, especially the German population. The colored population has suffered more than in any other epidemic form of fever that has appeared in Charleston for thirty years. If this form of fever has been imported, it certainly was not by vessels or across the bar of Charleston."

Among the Quarantine Acts requiring legislative amendment, Dr. Leiby forcibly recommends the exclusion of dead bodies of persons brought from Northern cities for interment, between the 1st day of May and 31st day of October. The same restrictions that are placed upon vessels should apply to express and railroad companies. Dr. Leiby's recommendation on subjects connected with his department are entitled to much weight, and I respectfully submit them to your consideration.

Legislative provision is recommended for quarantine protection for the rivers emptying into St. Helena Sound, and also for a protection from the infection of small-pox, now extensively prevailing in the port of Philadelphia. An appropriation is asked for the keeper's salary and the repairs of the Lazaretto.

LIBRARY AND CAPITOL BUILDING.

I call your attention to the recommendations of the State Librarian, who has charge of the capitol and grounds, many of which are import-

ant, such as the required repairs to the roof of the capitol, and fencing of the grounds. I must say, however, in all matters that relate to appropriations that are of no immediate necessity, the expenditure of public money should be avoided.

FERTILIZERS.

The report of the Inspector of Guanos and Fertilizers shows a largely increased production of phosphatic manures, and largely expanded facilities for collecting them. The total production of the phosphatic beds of South Carolina, for the year, both land and river, has been forty-five thousand tons, and during the same period fifteen thousand tons of commercial fertilizers have been manufactured in Charleston. The demand for phosphatic rock has increased in foreign markets, but at home, in consequence of the diminished domestic consumption, has, at best, remained stationary. The Inspector states that the advance towards a higher standard in quality still continues, and his Laboratory has been equipped with a complete outfit of apparatus, chemicals and specimens, drawn from the best European and American sources, and sufficient for investigation in all departments of analytical chemistry.

STATE ORPHAN ASYLUM.

The late hour at which the report of the Board of Trustees of the State Orphan Asylum, at Charleston, was received, renders it impossible for me to do more than call the attention of the General Assembly to its recommendations and suggestions. This institution is deserving of the fostering care of the State, as it shelters and provides for a large number of orphans, who would otherwise be left on the cold charities of the world, to become victims of vice and immorality.

THE BLUE RIDGE RAILROAD.

This road, in which both the State and the City of Charleston has had so large an interest in stock, has been the subject of anxiety on the part of both the Legislature and the people. The depreciation in the State finances has rendered the bonds endorsed by the State almost valueless, so far as the State guarantee was concerned. After consulting many prominent business men, who favored the plan, I recommended to the Sinking Fund Commission the propriety of disposing of the State stock to a private corporation, which project was carried into effect on the 22d day of July last, the new company agreeing to pay all floating debts of the road, together with one dollar per share to the State for the stock, and fifty thousand dollars to the State on the completion of the road, the whole to be completed within five years. It is a well established fact

that public enterprises can be managed more economically by a private corporation than by a commonwealth, as, in the latter case, such enterprises are at all times subject to the baleful influence of politics. I believe this company will complete the road in accordance with their agreement.

ELECTION LAW.

I must urge on the General Assembly the necessity of making some changes in the Election Law, in order to close the door against the charge of offering opportunity for the practice of fraud, in giving so long a period between receiving the ballots and the time for counting them. The ballot-box should be carefully guarded in every respect, as in its purity rests the foundation of Republican institutions and the liberties of the people.

CENTENNIAL CELEBRATION OF THE INDEPENDENCE OF THE UNITED STATES.

I respectfully submit for appropriate action the following document, from the Governor of Pennsylvania, in reference to the commemoration, at Philadelphia, in the year 1876, of the Centennial Anniversary of the Independence of the United States:

EXECUTIVE CHAMBER,

HARRISBURG, PENNSYLVANIA, March 29th, 1871.

To His Excellency ROBERT K. SCOTT,

Governor of South Carolina:

DEAR SIR—Permit me to invite your attention to the following Joint Resolution of the General Assembly of Pennsylvania, approved March 8, 1871, to wit:

“That the Governor, and three persons appointed by him, Wm. A. Wallace and James H. Webb, Speakers of the Senate and House, with three members of each branch of the Legislature, to be appointed by the Speakers of the Senate and House respectively, shall be a committee of the State of Pennsylvania, to co-operate with committees from other States and local committees upon the subject of the Centennial Celebration, at Philadelphia, in the year one thousand eight hundred and seventy-six, said committee to stand until that time, and to report at each intervening Legislature, and make such suggestions and recommendations, from time to time, to the Legislature, as they may think proper and expedient in reference to said Centennial Celebration.”

One of the most prominent objects of this resolution is to perfect the necessary preliminary organization at the earliest practicable date, and

to gather all necessary information and material to facilitate the operations of the United States Board of Commissioners, to be appointed by the President of the United States, upon the recommendation of the Governors of the different States and Territories, in accordance with an Act of Congress "to provide for celebrating the one hundredth Anniversary of American Independence, by holding an International exhibition of arts, manufactures and products of the soil and mines, in the city of Philadelphia, and State of Pennsylvania, in the year eighteen hundred and seventy-six.

It is desired and intended that this Centennial Celebration shall be the grandest affair that has ever taken place, and it is highly important that every possible means shall be employed for the attainment of that object. I therefore most respectfully request and recommend that you direct the attention of your Legislature to the importance of appointing a special committee; at its earliest convenience, to co-operate with the Committee of Pennsylvania, in conformity with the provisions of the Joint Resolution of the General Assembly of this Commonwealth.

Very respectfully,

(Signed)

JNO. W. GEARY.

I also invite your attention to the Act of Congress, (Statutes at Large, Vol. 16, page 470,) on the above subject. South Carolina being one of the original States, it is my opinion that she should be represented by a Special Committee.

CONCLUSION.

In conclusion, gentlemen of the General Assembly, I desire to express my earnest hope that in all your deliberations you will remember that the only path of safety is the path of duty.

I trust and believe that you will so legislate in the interest of the whole people of the State as to prove to the country at large that Republicanism and good government in South Carolina are not, as is falsely alleged, inconsistent with each other.

ROBERT K. SCOTT,
Governor.

EXECUTIVE DEPARTMENT,

OFFICE OF COMPTROLLER GENERAL,

COLUMBIA, S. C., November 28, 1871.

To the Honorable the Senate and House of Representatives.

GENTLEMEN—I have the honor to inform you that the Treasurer of the State has not sent to this office his monthly report for the month of October, nor his annual report for the fiscal year ending October 31st, 1871, and I am, therefore, unable to lay before the General Assembly of the State my annual report of the financial transactions of her public officers, as required by law.

I also regret to inform you that the Financial Agent of the State has failed to make quarterly reports to this office, as required by the Act of Assembly, approved March 26th, 1869 ; and I deem it but just to myself to state that I have notified the said Agent of the requirements of the law on this subject very frequently during the past year, but all without receiving any response whatever. I have also given notice to His Excellency the Governor of the failure of the Financial Agent to make the reports due, and have asked him to lay the matter before the Financial Board, that they might take such action as they deemed proper.

It will afford me pleasure to comply with the requirements of the law as soon as the reports herein referred to shall have been received.

I have the honor to be,

Very respectfully,

Your obedient servant,

I have the honor to inform you that I have this day returned, without my signature,

REPORTS FROM COMMITTEES.

Mr. WILKES, from the Committee on the Judiciary, submitted the following:

The Judiciary Committee, to whom was referred the memorial of Isaac W. Hayne, ex-Attorney General of the State, asking that he be paid the sum of five hundred and fifty dollars, his arrear of salary for the last six months of the year 1864, beg leave to report: That, after a careful consideration of all the papers submitted to them in the case, the State is justly indebted to Mr. Hayne in that sum, and is morally and legally bound to pay it; and for this there is a precedent, even if the claim was doubtful. The General Assembly, in 1869, ordered the payment of \$15.75 to Mr. C. D. Melton, Solicitor. This claim is precisely similar to Mr. Hayne's, with this exception, that, during the period referred to, (as the period in which the services were performed for which these charges are made,) the Courts were held in the Circuit of Mr. Hayne, and he performed the duties of his office; whilst, in Mr. Melton's Circuit, the Courts were not held, and he was not called on to perform any service as Solicitor. Now, if, under these circumstances, it was right—and your Committee holds that it was—that Mr. Melton should receive his arrearages of pay as Solicitor, is it not equally right to pay the claim of Mr. Hayne, who not only held the office of Attorney General, but, also, discharged its duties? Prior to the year 1868 the amount of the Attorney General's salary was fixed by the Act of 1837, (6 Stat., p. 77, § 5). By the provisions of this Act, and that of 1827, a contract was made by the State with a public officer, in consideration of services to be rendered during his term of office, to pay him, annually, the sum stipulated. There is no doubt that Mr. Hayne rendered the services charged for, and if the State shall fail to pay him his full salary, she would violate her agreement. This she cannot afford to do. Your Committee, therefore, recommend the passage of the following Joint Resolution:

Resolved by the Senate and House of Representatives of the State of South Carolina, now met and sitting in General Assembly, and by the authority of the same, That the Treasurer of the State be, and he is hereby, directed to pay to Isaac W. Hayne, late Attorney General, the sum of five hundred and fifty dollars, out of the funds of the State, the same being for his arrears of salary for the last six months of the year 1864.

The report was laid on the table to take up the Resolution.

The Joint Resolution was read the first time, and ordered to lie over for a second reading.

Also, reported (unfavorably) on

A Bill to amend Section 279 of the Code of Procedure.

Also, reported (favorably) on

A Bill to declare the use of certain words a misdemeanor, and to punish the same.

Also, (favorably) on

A Bill to empower Judges of the Probate Courts, in their respective Counties, to issue executions.

Also, (favorably) on

A Bill to regulate the granting of divorces, with amendments: In Section 2, next to the last line, strike out the word "twenty," and insert the word "eighteen;" and, on the last line, strike out the word "eighteen," and insert the word "sixteen;" in Section 7, in the 13th line, strike out the word "three," and insert the word "two;" in Section 5, strike out all after the word "nullity."

On motion of Mr. THOMPSON, the report was laid on the table to take up the Bills.

The Bills were ordered to lie over for a second reading.

Mr. HEDGES, from the Committee on Commerce, reported back a Bill to authorize and empower W. C. Garrity, F. W. Towles and D. H. Towles to establish and build a wharf at Martin's Point, Wadmalaw Island, S. C., and recommended it do pass, with the following amendment: Insert in Section 1, after the word "collect," the words "the usual rate of."

On motion of Mr. GOODSON, the report was laid on the table to take up the Bill.

The Bill was ordered to lie over for a second reading.

Mr. BOWLEY, from the Committee on Subordinate Officers and Attachees, submitted the following:

A majority of the Committee elected under resolution of the House, adopted on the 28th November, 1871, to ascertain the number of attachees necessary to the House, and the pay therefor, beg leave most respectfully to submit the following report:

That they have carefully considered the subject, and recommend the following number of attachees necessary, and decree the prescribed compensation just:

16 Committee Clerks, at \$5 per day.

1 Reading Clerk, at former pay.

2 Solicitors, at former pay.

6 Messengers, at \$3 per day.

- 2 Assistant Sergeants-at-Arms, at \$3 per day.
 40 Porters, at \$3 per day.
 1 Mail Carrier, at \$3 per day.

Mr. CRITTENDEN presented a minority report, as follows :

The undersigned, members of the Committee of Thirty-one, elected by the House of Representatives to determine the number of subordinate officers and employees of the House, and to regulate the pay of the same, respectfully submit the following minority report :

It was an ascertained fact, convincing to our minds, that twenty-seven was a sufficient number of attachees to perform the necessary duties of the House. The guiding principle with the undersigned was to employ just so many subordinates as was necessary to transact and facilitate the business of the House, and to reward them adequate compensation for their services.

Therefore, we recommend the adoption of the following resolutions :

Resolved, That six clerks be appointed, to be apportioned to the Standing Committees of the House by the Speaker, at a pay of five dollars per day—\$30.00.

Resolved, That the remaining subordinates of the House shall consist of the following, with the rate of pay attached to each, viz.:

1 Messenger.....	\$3 00
4 Porters, for service in the House, at \$2.....	8 00
4 Pages, at \$1.50.....	6 00
1 Mail Carrier.....	2 00
1 Solicitor.....	10 00
2 Assistant Sergeants-at-Arms, at \$3.....	6 00

1 Reading Clerk.....	6 00
7 Porters for Committee Rooms, at \$2.....	14 00
	<hr/>
	\$55 00
	30 00
	<hr/>
	\$85 00

All of which is respectfully submitted.

(Signed)

S. S. CRITTENDEN,
F. A. MILES,
O. M. DOYLE,
R. M. SMITH,
F. W. DERRICK,
G. T. LITCHFIELD.

Mr. FROST also submitted the following report:

We, the undersigned, a minority of the Committee of Thirty-one, elected under resolution of the House, adopted November 28, 1871, to ascertain how many subordinate officers are necessary for the use of the House, and what compensation should be paid them, after carefully considering the matter, viewing all circumstances proper to be considered, chiefly among which stand the depleted condition of the State Treasury, and the acknowledged and praiseworthy determination of the House, as evinced by the adoption of the resolution under which we act, to retrench in all matters possible, without detriment to the cause of justice, beg leave, most respectfully, to report the following number of subordinate officers as necessary, and the amounts set opposite their classes as just compensation :

- 1 Sergeant-at-Arms, at \$6 per day.
- 1 Assistant Sergeant-at-Arms, at \$5 per day.
- 2 Solicitors, at \$10 per day, each.
- 10 Committee Clerks, at \$5 per day, each.
- 1 Door Keeper, at \$4 per day.
- 3 Assistant Door Keepers, at \$3 per day, each.
- 10 Porters, at \$3 per day, each.
- 1 Mail Carrier, at \$3 per day.
- 6 Pages, at \$1.50 per day, each.

The aggregate salaries of this number of subordinate officers of the House amounts to one hundred and thirty-six (136) dollars per day, which, for thirty days, would amount to four thousand and eighty (4,080) dollars. This, in conjunction with the per diem of members, at twenty-two thousand three hundred and twenty (22,320) dollars per month, would make a total expense, in the matter of salaries alone, of

twenty-six thousand four hundred (26,400) dollars, an amount of expense against the increase of which we enter our solemn protest.

All of which is respectfully submitted.

F. H. FROST,

N. B. MYERS,
J. E. HAGOOD,
WILLIAM R. JERVEY,
LAWRENCE CAIN.

Mr. FROST moved to take up, in connection with the majority report, the several minority reports.

Mr. W. M. THOMAS moved to indefinitely postpone the motion.

Mr. MOBLEY moved that the whole matter be referred back to the Speaker.

On this Mr. CRITTENDEN called for the yeas and nays, which were taken, and are as follows:

Yeas, 70; nays, 34. Agreed to.

Those voting in the affirmative are:

Messrs. Bascomb, Bosemon, Bowen, Briggs, Bryan, E. Cain, Corwin, Cousart, Crews, Dannerly, T. A. Davis, Dennis, Duncan, Elliott, Ellison, Farr, Ferguson, Ford, Frost, Gantt, Gardner, Garey, Giles, S. Mr. JONES moved to reconsider the vote just taken, and lay the motion to reconsider on the table. Agreed to.

On motion of Mr. THOMPSON, the Committee of Thirty-one was discharged.

The following paper was presented to be entered on the Journal:

The undersigned protested against the report of the majority of the Committee of Thirty-one, fixing the number of employees of the House at 76, because he conceives so great a number of employees to be totally

unwarranted by the necessities of the House and the business of its Committees, and entailing an additional expense upon the tax-payers of the State, which they ought not to be called upon at any time to bear, and which they are unable to bear at this time. I signed and supported the minority report of Mr. Frost, as the best that I could get, the most practicable, and the one most likely to be accepted by the House, in lieu of the report of the majority. My own judgment was to return to the former practice of the House, and to appoint one permanent Clerk, one Reading Clerk, one Messenger, one Door-keeper, and a Clerk of the Committee on Education; but in this I was overborne by the majority of the Committee, and hence accepted the proposition for 38 employees to the House in preference to 76.

(Signed)

WARREN D. WILKES.

SPECIAL ORDER FOR 1:05 P. M.

Report of the Special Committee appointed to inquire into the matter of the over-issue of State Bonds.

Mr. BOWEN, from the Special Committee, submitted the following report:

The Committee appointed under the resolution authorizing an investigation into the alleged over-issue of State bonds, have had the same under consideration, and beg leave to report:

The whole amount of the bonded debt of the State, as shown by the report of the Comptroller General, on the 31st October, 1868, was \$5,407,306.27, exclusive of what is known as the war debt; to this amount, add the bonds issued to redeem the Bills of the Bank of the State, \$1,258,550, making the old debt \$6,665,856.27; to this amount there was, during the years 1869 and 1870, added \$500,000 in bonds to redeem Bills Receivable, and \$500,000 in bonds which had been issued to pay interest on public debt, and had been sold by the Financial Agent, making the bonded debt of the State, on the 31st October, 1870, \$7,665,856.27; there was, also, at the same time, in the hands of the Financial Agent, \$1,000,000 of bonds for the relief of the Treasury, \$500,000 to pay interest on public debt, and \$700,000 Land Commission bonds, making a grand total of \$9,665,856.27, and showing that only \$3,200,000 new bonds have been issued up to 31st of October, 1870, to wit:

Bonds to redeem Bills Receivable.....	\$ 500,000
pay interest on public debt.....	1,000,000
for relief of the Treasury.....	1,000,000
Land Commission Bonds.....	700,000
	<hr/>
Total.....	\$3,200,000

According to the sworn statement of the State Treasurer, there are now, signed and outstanding, \$9,514,000 of new State bonds. Deduct

from this amount the \$3,200,000 that were out on the 31st October, 1870, and we find that \$6,314,000 have been signed and put upon the market, which, in the opinion of your Committee, is an over-issue.

This conclusion is arrived at after a careful investigation and close scrutiny of the Acts under which, it is claimed, the authority was derived for issuing said bonds.

First. Under an Act to authorize a loan to redeem the obligations known as the Bills Receivable of the State of South Carolina, approved August 26th, 1868, the Governor of the State was authorized to borrow, within twelve months from the passage of the Act, a sum not exceeding \$500,000, or as much thereof as he might deem necessary, to redeem said bills.

Second. Under an Act to authorize a State loan to pay the interest on the public debt, approved August 26th, 1868, the Governor was authorized to borrow, within twelve months from the passage of the Act, a sum not exceeding \$1,000,000, or as much thereof as he might deem necessary, to pay the interest on the public debt. These two Acts were amended by an Act, approved March 26th, 1869, extending the time, therein limited, during which said loans might be negotiated, "to twenty-four months from the passage of the said Acts," to wit: the 26th of August, 1868.

Third. Under an Act to authorize a loan for the relief of the Treasury, approved 17th February, 1869, authority was given to borrow, *within twelve months*, one million of dollars, *or as much thereof as might be deemed necessary* for the relief of the Treasury of the State.

The Act authorizing a loan for the relief of the Treasury expired on the 17th of February, 1870, and the Acts to authorize a loan to redeem the Bills Receivable, and to pay the interest on the public debt, expired on the 26th day of August, of the same year, and, on the 31st October, 1870, the State Treasurer's report to the Comptroller General shows that only \$3,200,000 new bonds were outstanding, leading your Committee to the conclusion that the amount *deemed necessary*, according to the language of the above Acts, *had been obtained* by the issuing of that amount in bonds, and if said amounts had not been negotiated up to that time, then no authority existed, under the law, for the further issue of State bonds. This position, your Committee thinks, is proven by the passage of the Act amending the two Acts approved 26th August, 1868, for, in those Acts, the time *originally allowed*, in which to negotiate the *amount required*, was twelve months. *A sufficient amount not having been obtained*, it was deemed necessary to apply to the General Assembly for an Act *extending the time twelve months longer*.

Your Committee thinks that the Act approved March 23d, 1869, providing for the conversion of State securities, *was not intended* to be used

for the purpose of *increasing* the State debt, but solely for the object named in the Act: "The conversion of some outstanding security," which, when *converted*, should be retained in the Treasury as a voucher for the conversion bonds issued; but, if the Act could possibly be construed into the issuing of bonds to negotiate loans authorized under the Acts above referred to, the expiration of the limitations contained therein would certainly preclude such a construction.

The above are all the Acts authorizing the issue of bonds for any purpose, save those for redeeming the bills of the Bank of the State, and creating a Sterling Loan. The bonds issued under the first of the last named Acts have been charged to the old debt, and the others are said to be in the hands of the American Bank Note Company, in the City of New York.

The law requires the State Treasurer to report to the Comptroller General, at the end of every month, the financial condition of the State, and it was in pursuance of this law, your Committee presumes, that he made the report on the 31st October, 1870, fixing the amount of new bonds then out at \$3,200,000. The testimony of the Comptroller General, taken by the Committee, shows that, although the Treasurer has made a report to him at the end of every month since the above date, up to September, 1871, yet he has failed, in all those reports, to give any account of a further issue of bonds, and there is no information in the Comptroller General's Office, according to his sworn testimony, that the State debt has been increased.

If other evidence was required of this over-issue, it is contained in the testimony of His Excellency the Governor, who states that he has signed and delivered to the State Treasurer, bonds for the conversion of the \$700,000 issued by the Land Commission, also the \$1,000,000 for the relief of the Treasury, and a large portion of those to pay the interest on the public debt; yet all, or nearly all, of said bonds are out as a portion of the indebtedness of the State.

Your Committee, having reported the facts and the law under which the bonds have been issued, and feeling satisfied that the State has been defrauded by an over-issue of \$6,314,000, would, therefore, respectfully recommend that this House take the necessary steps to hold accountable those persons who have violated the laws and ruined the credit of the State.

All of which is respectfully submitted.

(Signed)

C. C. BOWEN,
BENJ. BYAS,
F. H. FROST,

The SPEAKER laid before the House the following:

MESSAGE FROM THE GOVERNOR, No. 4:

STATE OF SOUTH CAROLINA,

EXECUTIVE DEPARTMENT,

COLUMBIA, December 22, 1871.

To the Gentlemen of the Senate and House of Representatives:

I herewith transmit for your information a Proclamation convening the General Assembly at 12 o'clock, noon, on to-morrow, the 23d day of December, 1871, pursuant to the authority vested in me by the Constitution of the State

To adjourn and leave the Chief Magistrate and Treasurer of the State in office, with a resolution accusing them of "high crimes and misdemeanors" pending in the House of Representatives, would be a most dangerous precedent, as it would enable one branch of the General Assembly, which alone can prefer charges, to paralyze the Executive arm of the State, while it denies the accused their right to meet their accusers face to face. If the pending Resolution of Impeachment expresses the sense of the House of Representatives, and is, in their judgment, warranted by the law and the facts, it is their duty to the State to so declare, and not adjourn, and leave in power officers whose acts merit such charges.

If the resolution does not express the sense of the House, then justice to the people and the accused imperatively demands that the House should so declare without further delay.

Very respectfully,

(Signed)

ROBERT K. SCOTT, Governor.

A PROCLAMATION.

STATE OF SOUTH CAROLINA,

EXECUTIVE DEPARTMENT.

To the Honorable the Members of the Senate and House of Representatives of the General Assembly of the State of South Carolina:

Whereas Resolutions of Impeachment against the Governor and Treas-
12H

urer of the State were introduced into the House of Representatives on the 13th day of December, 1871; and, whereas, by reason of a Concurrent Resolution adopted by the Senate and House of Representatives, the General Assembly will adjourn at three o'clock P. M., on Friday, the 22d instant, during the pendency and consideration of the said Resolutions of Impeachment, such adjournment to continue until the fifth day of January, 1872; and, whereas, it is neither decent nor proper, and is injurious to the interests of the State, that such adjournment should take place, while the Governor and State Treasurer are charged in a pending Resolution with "high crimes and misdemeanors," without having a definite vote taken upon such charges;

Therefore, know ye, that I, ROBERT K. SCOTT, Governor of the State of South Carolina, deeming this an extraordinary occasion, do, by virtue of the authority vested in me by the Constitution of said State, call upon the members of the Senate and House of Representatives of the State of South Carolina to convene in General Assembly, at the State House, in the city of Columbia, at twelve o'clock meridian, on Saturday, the twenty-third (23d) day of December, A. D. one thousand eight hundred and seventy-one.

In testimony whereof, I have hereunto set my hand, and caused the Great Seal of the State to be affixed, at Columbia, this 22d day [L. s.] of December, A. D. 1871, and in the ninety-sixth year of the Independence of the United States of America.

(Signed)

ROBERT K. SCOTT, Governor.

I vote *yea*, on the motion to impeach the Treasurer, not thereby assuming that the facts stated would induce the Senate to convict him of high crimes and misdemeanors, but because the *prima facie* evidence is sufficient to put the Treasurer upon his defence; an investigation is due to the Treasurer, as well as to the people.

(Signed)

WARREN D. WILKES.

We voted for the adoption of the resolutions to impeach Governor Scott and Treasurer Parker for the following reasons:

1. Because public rumor has charged them with an over-issue of bonds.
2. Because these charges have been sustained by the report of the Committee appointed by the House of Representatives, which report has not been denied by any of the parties on the floor who have defended them, nor can they be successfully contradicted.
3. Because we regard them as the men who have brought financial ruin upon the State. Whether by capacity or imbecility, the result is the same. We believe the former.
4. Because we believe it to be the duty of the Representatives to protect the people against the robberies of officials.
5. Because, in enforcing the vote at this time, they excluded the testimony of the Joint Committee, this day handed in, which testimony, in

our opinion, is damaging to these officials, and the said vote was brought on by ruling contrary to all parliamentary rule—depriving a member of the floor, who had the unquestionable right to speak, and that, too, under the protest of a respectable minority of the House of Representatives.

6. Because it saddles upon the Republican party of South Carolina, the party now in power, the corruption of individuals—a load that said party cannot carry—and compels honest men to seek some other political affiliation.

7. Because it can be demonstrated, by figures, that the impoverished people of the State cannot carry the debt thus dishonestly imposed upon them, and it would not be right to repudiate the debt, either positively or negatively, without holding responsible the men who have contracted it for their own purposes.

The following paper was presented, to be entered on the Journal :

We voted "No" on the resolutions to impeach R. K. Scott, Governor, and Niles G. Parker, Treasurer State of South Carolina, for the following reasons :

Because we were members of the Committee to investigate the alleged over-issue of bonds, and that the Chairman of that Committee informed the House of Representatives, before the said Committee was appointed, that he had facts and figures in his possession which would implicate the entire Financial Board of the State. That, after the persons composing the Financial Board were, each of them, summoned and examined separately by the said Committee, there was nothing in their testimony which would substantially establish the alleged rumor of an over-issue of State bonds under the several Acts authorizing the same. That the said Chairman was then called upon by the Committee, and, under oath, testified his knowledge of the said over-issue, and that he stated that there had been bonds issued, from time to time, to the amount of twenty-two million dollars, in accordance with the Governor's Message, and that six millions five hundred thousand dollars (\$6,500,000) of the said issues were entirely contrary to the law which authorized the said Financial Board to issue the same, because they were not issued within the twenty-four months granted by law to raise the required amount of money.

Believing in the testimony of the Chairman, we thereupon deemed it our duty, in accordance with our oath of office, to protect the lives and property, and enforce the laws of our commonwealth, to sign the report made by the Committee, which report he seemed, as well as other members of the Committee, anxious to render to the House of Representatives, making the recommendation, that the supposed guilty parties be brought to justice.

But after having consulted the ablest legal minds with whom we were acquainted, and in whom we had implicit confidence, believing that they felt as much interested as ourselves in the welfare and good government of our State, they informed us that the said Financial Board may have acted dishonest in other matters, but, as to the various issues of bonds, the laws under which they had made these issues would justly warrant

them in issuing any amount, whatsoever, and at any time. That the stipulations of the law only limited them to the borrowing of the money, and not the issue of the bonds.

In accordance with our above mentioned obligations to our oath, we deemed it our duty to protect the officers of our commonwealth, until, in accordance with our Constitution, good and substantial reasons should be adduced before we could be warranted in casting our votes to impeach them of high crimes and misdemeanors, as set forth in the resolutions above alluded to.

The SPEAKER laid before the House the following:

MESSAGE FROM THE GOVERNOR, No. 7.

STATE OF SOUTH CAROLINA,

EXECUTIVE DEPARTMENT,

COLUMBIA, January 9, 1872.

Gentlemen of the Senate and House of Representatives:

A document entitled "Report of the Joint Special Financial Investigating Committee, appointed by the General Assembly," having been

laid before your honorable bodies, in which report I am assailed in terms marked by the most scurrilous malignity, and embodying grave charges against me, I claim the privilege of responding to its unwarranted allegations. As I cannot, under your rules, meet my accusers face to face, I shall reply to their accusations in the only mode by which I can place my vindication before you.

Nothing material, in this answer, shall rest upon my own veracity, but all matters of fact shall be weighed by the proofs, and all questions of law made clear in the light of the very statutes under a false construction of which I have been arraigned at the bar of public opinion. I shall fall far short of my purpose, if I do not satisfy every fair minded member of the General Assembly that my accusers have failed, utterly, to present a particle of law or testimony to show that I have been false to my obligations as the Chief Magistrate of the State, or that I have, in any capacity, violated a public trust. The report immediately in question is virtually a supplement, or continuation, of the report adopted by the House of Representatives, on the 18th ultimo, and which was the unsubstantial basis of resolutions of impeachment, that, after five days of exhaustive discussion, were voted down by a majority of two-thirds of the House. As the propositions of law and fact upon which those resolutions were decisively voted down were carefully suppressed by the journals opposed to the principles on which the existing State Government is founded, and as the evidence that justifies the action of the House of Representatives has never been published, I desire, also, to bring that procedure under review, and to lay bare the secret springs that moved it. I shall treat these reports in their order, answering, first, the propositions which are declared, by those who made them, to warrant my impeachment for "high crimes and misdemeanors." The various loose allegations, reduced to a definite shape, are:

First: That, as Governor, I have over-issued, or have been, with criminal intent, accessory to an over-issue of State bonds, amounting to \$6,314,000.

To furnish a basis for this charge, it was first necessary to make it appear to the House that there was an actual over-issue of bonds, as the charge was manifestly not tenable for an instant, unless such over-issue were clearly proved. The following are the alleged proofs, and all the proofs yet alleged of the over-issue charged:

1st. That the State Treasurer reported, on the 31st day of October, 1870, that the total amount of bonds issued to that date was \$3,200,000.

2d. That the State Treasurer reported, on the 31st day of October, 1871, that the amount of bonds issued to that date was \$9,514,000.

3d. That, accepting these two statements of the Treasurer as true, bonds to the amount of \$6,314,000 were issued by the Governor between

the 31st day of October, 1870, and the 31st day of November, 1871, and, therefore, such bonds were an over-issue, because they were issued subsequent to August 26, 1870, the date at which the twenty-four months' limitation fixed by law for the "*issue of bonds*" expired, pursuant to the Act of March 26, 1869, (Stat. at Large, Vol. 14, p. 258,) entitled "An Act to authorize the Financial Agent of the State of South Carolina, in the city of New York, to pledge State bonds as collateral security, and for other purposes."

In order to make it plain that the above conclusion is not warranted by the premises on which it is professedly based, and cannot, by any stretch of human ingenuity, be extorted from the terms of the law, which is avowedly its sole foundation, I ask your careful consideration of the Act in question, which is as follows:

"SECTION 1. *Be it enacted* by the Senate and House of Representatives of the State of South Carolina, now met and sitting in General Assembly, and by the authority of the same, That the Financial Agent of the State of South Carolina, in the city of New York, be, and he is hereby, authorized to pledge the bonds of the State, which the State now has, or may hereafter have in its possession, as collateral security for State loans: *Provided*, That in all transactions he shall conform to the provisions of an Act entitled "An Act to authorize a loan to redeem the obligations known as the Bills Receivable of the State of South Carolina," ratified the twenty-sixth day of August, A. D. 1868.

SEC. 2. That Section 1 of an Act entitled "An Act to authorize a State loan to pay the interest on the public debt," passed the twenty-sixth day of August, 1868, and Section 1 of an Act, entitled "An Act to authorize a loan to redeem the obligations known as the Bills Receivable of the State of South Carolina," passed the same date, be so amended as to extend the time during which said loans may be negotiated to twenty-four months from the passage of said Acts.

SEC. 3. That the Financial Agent of the State of South Carolina, in the city of New York, be, and he is hereby, directed to make and forward to the Comptroller-General of the State a report of his transactions, quarterly, which report the Comptroller-General is hereby directed to include with his annual report to the General Assembly."

It will be seen that this Act, (Section 2,) the provisions of which have never been modified, as there is no later Act upon this subject, simply fixes the time "*during which loans may be negotiated*," and makes no limitation whatever as to the *issue of bonds*; it cannot, therefore, be tortured, by any scheme of malice or imposture, into a prohibition against the issue of bonds, even at this date, to cover loans negotiated prior to the expiration of the period designated for the negotiation of loans. Nor is it even alleged that any loans have been negotiated subsequent to the

expiration of that period, to wit: August 26, 1870. Hence the matter of this charge has not been brought within the terms of the law relied upon to sustain it, and the charge thus far stands unsupported by the statute. To say, therefore, that bonds issued subsequent to August 26, 1870, were issued in violation of this Act of March 26, 1869, which it has been shown does not relate to the issue of bonds, is to attempt to practice a bold and palpable fraud upon the intelligence of the General Assembly.

But, even granting that this Act did, in plain terms, prohibit the issue or sale of a single bond after the 26th day of August, 1870, and that bonds in the amount named *were* issued and sold since that date, still this fact would be utterly foreign to any possible charge that would warrant the impeachment of the Governor; for the powers granted by the Act in question, and the restrictions that it imposes, relate to the Financial Agent, and to the Financial Agent alone, and whatever penalties may attach to their abuse or violation must be visited solely on him, under the provisions of this law. Indeed, this very Act, in unmistakable language, excludes the Executive from all control over the negotiation of loans, by declaring (Section 1) "That the FINANCIAL AGENT of the State of South Carolina, in the City of New York, be, and he is hereby, authorized to pledge the bonds of the State, which the State now has, or may hereafter have in its possession, as collateral security for State loans."

The only restriction imposed upon the Financial Agent, in the exercise of the extraordinary power thus given him, is in Section 5 of the Act of August 26, 1868, (Statutes at Large, Vol 14, p. 17,) to which he is required to "conform his transactions;" but these restrictions apply only *when bonds are to be sold*, and require him to sell "at the highest market price, and not less than for a sum to be fixed by the Governor, Attorney General and Treasurer," these officers being named in the Act, in their joint capacity, as the Financial Board of the State, and not in their official characters, as members of the Executive Department of the State Government. As additional evidence of the miserable trickery and reckless perversions of law and fact resorted to by the framer of the report presented in the House, and which I have thus far reviewed and answered, I call your attention to the fact, that it is therein stated, or implied, that the Act of March 26, 1869, prohibits the negotiation of any loans, and the issue of bonds, after August 26, 1870, whereas said Act contains no such restrictions, (see Section 2,) its limitations referring only to *two loans* that are plainly specified, to wit: the "loan to pay the interest on the public debt," and the "loan to redeem the obligations known as the Bills Receivable."

Neither of these loans is alleged, by the author of the report, to have been negotiated subsequent to August 26, 1870, and they were both, in fact, negotiated prior to that date, as shown by the report of the State Treasurer.

I would add, in concluding my review of this report, that, even if all that it alleges were undeniably true, it would furnish no evidence whatever that either the Governor or the State Treasurer has been culpable in the premises. It is simply a bundle of surmises and insinuations, bolstered up by the grossest perversions of law, and borrows the ill-fitting cloak of an honest concern for the State credit to cover the moral nakedness of its author.

But it is alleged in the Joint Report that this pretended over-issue of State bonds was made by the Financial Agent, under the direction of the Financial Board, which is composed of the Governor, Attorney General, and State Treasurer, and that, therefore, I am responsible, *as Governor*, for such over-issue. This allegation assumes, without one atom of proof, that there has actually been an over-issue of bonds, and then proceeds to fix the responsibility for such presumed over-issue—a mode of reasoning as startlingly absurd and unjust as it would be to arraign and condemn a man for bigamy in a Court of justice before it had been proved that a marriage had been entered into.

I unhesitatingly deny that there has been any over-issue of bonds, or that any one bond, of any class, has been issued, except in pursuance of law. Whenever the Acts authorizing the issue of State securities were susceptible of the slightest doubt of their real meaning and intent, as regards the issue of any class or amount of bonds, and their sale or hypothecation, the opinion of the Attorney General was required and obtained by the Board; and no bond has been issued contrary to the opinion of the Attorney General, the highest law officer of the State.

The oft-repeated assertion, in this Joint Report, that bonds have been over-issued, makes it requisite (before proceeding to demonstrate the audacious falsity of its conclusions, so far as they affect me personally or officially,) that the term "over-issue" should be clearly defined in its legal acceptance.

An over-issue of bonds is, in a legal sense, an issue made in excess of the amount of bonds authorized by law. As, however, not one of the Acts authorizing the creation of a loan, limits the amount of bonds to be issued—they specifying only the amount of money to be raised on bonds of the State, whether the issue required were more or less—it follows, undeniably, that there has been no over-issue in this sense. There is but one other sense in which an over-issue in our bonds can possibly be charged, and that is, that an amount of bonds has been issued in excess of the amount actually necessary to have purchased or

borrowed the total amount of money required by the Acts authorizing the issue of bonds. Those Acts authorize the borrowing, in the aggregate, of three millions two hundred thousand dollars, in money, on any amount of bonds that, in the judgment of the Financial Board, might be deemed necessary to borrow that amount of money. The Joint Report, and the report heretofore referred to, admit that the total amount of money specified, to wit: \$3,200,000, has been raised; but they both allege that, in order to raise that amount, bonds have been placed in the hands of the Financial Agent, as reported by the Treasurer, having a face value to the amount of \$9,514,000, and they, therefore, conclude that the difference between this amount of bonds and the \$3,200,000 in money, namely, \$6,314,000, face value of bonds, represents an over-issue of bonds. This proposition proceeds upon the notoriously false assumption that \$3,200,000 in State bonds were worth, at the date of their negotiation, \$3,200,000 in money. If the Committee do not mean this, then they do not mean, what they have distinctly and unequivocally said in their declaration, that there has been an over-issue of bonds to the amount of \$6,314,000. If, however, they do mean this, then it is incumbent upon them to show the proofs that warrant so grave a charge, or stand convicted of a base conspiracy, in the judgment of every man who has a moral sense less obtuse than that which distinguishes the convicted criminal.

To show the grossness of the attempt to palm this false statement off upon the General Assembly and the public, as the truth, in regard to the financial management of the State, I cite the following facts, which will be attested by many of the leading bankers of New York: In the fall of 1868 I visited New York city, for the purpose of borrowing money on the credit of the State on coupon bonds, under the provisions of the Acts of August 26, 1868. I had the assistance of Mr. H. H. Kimpton, U. S. Senator F. A. Sawyer, and Mr. George S. Cameron. I called at several of the most prominent banking houses to effect the negotiation of the required loan, and they refused to advance any money upon our State securities, for those securities had been already branded with the threat of a speedy repudiation by the political opponents of the Administration, who have ever since howled the same cry against the State credit. As the persons who made this threat controlled the press of the State, they were enabled to impress capitalists abroad with the false idea of a speedy reaction that would soon place them again in authority.

As the capitalists well knew that these persons, when in power in 1862, did repudiate their debts due Northern creditors, their distrust of our bonds was very natural and apparently well founded. It soon became evident to every man familiar with our financial standing in New York that, to negotiate the loan authorized, the question was not *what we would take for the bonds*, but *what we could get for them*. After much

effort, and the most judicious management, I succeeded in borrowing money, through Mr. Cameron, at the rate of four dollars in bonds for one dollar in currency, the bonds being rated at 75 per cent. below their par value, or at 25 cents on the dollar. This loan, however, was only effected at the extravagant rate of one and a half per cent. per month, or eighteen per cent. a year—a rate only demanded on the most doubtful paper, to cover what is deemed a great risk—for the money loaned.

Subsequent loans were effected at a higher valuation of the bonds, but at rates of interest varying from 15 to 20 per cent., in addition to commissions necessarily to be paid the Financial Agent. If, then, three millions two hundred thousand (\$3,200,000) dollars, in money, have cost the State nine millions five hundred and fourteen thousand (9,514,000) in bonds, it does not, therefore, follow that the Financial Board have criminally conspired against the credit of the State, and, still less, that any *one member* of the Board can justly be held up to public execration or stigmatized by an accusation of "high crimes and misdemeanors" for the assumed results of its action. Even if the Board have exercised their discretion unwisely in the management of the finances, still it was a discretion vested in them by law, and its exercise, however unfortunate in results, cannot, in the absence of an evil intent, clearly shown beyond a reasonable doubt, properly become the subject of public denunciation.

The Joint Committee have themselves stated, on page 241 of their report, facts that should have admonished them against making the baseless statement, in effect, that our bonds could have been negotiated at near their par value. They say: "The reasons for such an aggregate in loans, when so small an amount has been furnished the State by the Financial Agent, over and above the moneys sent him by the State Treasurer, are manifold. Among them was *the want of confidence in the securities of South Carolina*, the absence of financial experience and reputation of the Financial Agent, and the consequent necessity of short loans, often repeated, protected by heavy collaterals, satisfied in the payment of high per centages, great interests, usurious discounts, and large commissions, every time the loans were negotiated."

It is proper that I should add that the armed violence which has prevailed in this State for the past three years, has had upon our bonds the same effect as actual war, in lessening their purchasing value, as money is dearer in war than in peace. Ku Kluxism made capitalists shrink from touching the bonds of this State, as a man would shrink from touching a pestilential body.

I am astonished, in looking over the three and a half years through which we have just passed, that we have been so moderate in the expenditure of money; that, instead of collecting one million of dollars from

taxes, it has not been three times that amount, when we consider that an absolute state of war has existed in many parts of the State, and that, in any attempt to enforce the law, open threats of violence, and resistance to its officers, were of daily occurrence.'

Those who complain of the low price at which our bonds have sold in the markets of the country, and that it has cost nine millions of bonds to buy less than three and a-half millions of dollars in currency, have only to examine the testimony being developed before the United States Court, now in session in the Capitol of the State, to find any easy solution for every financial evil that has afflicted the people.

But the Committee again lapse into error, when they assert that the \$9,514,000 of bonds delivered to the Financial Agent are all held as a debt against the State.

The exhibit of the Treasurer, as set forth in my last Annual Message, and which, in this particular, has not had its correctness questioned even by the Joint Committee, states that there had been, of new bonds, issued, to October 31, 1871.....\$9,514,000 00

Less in hands of Financial Agent, to credit of the Sinking

Fund Commission..... 200,000 00

Total\$9,314,000 00

Yet the Joint Committee state that the amount is \$9,514,000, well knowing that the \$200,000 of bonds, to the credit of the Sinking Fund Commission, cannot be sold or disposed of by the Financial Agent.

The Committee also unwarrantably estimate the \$3,773,000, then in use by the Financial Agent as collateral security for loans, as fully and absolutely a part of the actual debt, whereas the fact is, that these bonds are held by the Agent to secure loans that amount, in money, to less than the one-fourth of the face value of the collaterals.

As the Committee have stated, without presenting any evidence upon the point, that they were told that "the Financial Board of the State have recommended the covering up and withholding of the real business transactions of the Agency," I desire to say that the Board have not, to my knowledge, given any instructions to the Agent that would warrant a refusal, on his part, to submit the transactions of his office to a duly authorized investigation. I certainly have not been privy to such instructions, as the following facts will show :

In the month of October last, I visited New York, for the purpose of securing a change in our Financial Agency. I employed and consulted Judge Barrett, an eminent lawyer of that city, and laid before him the facts in regard to the management of our finances by the Financial Agent, with the view to legal proceedings to secure a settlement with the Agent. Judge Barrett advised me not to go into Court, unless abso-

lutely necessary, as the State would sacrifice less by an amicable settlement.

In the meantime, Colonel J. B. Palmer, President of the Central National Bank, of this city, Major W. B. Gulick, Cashier of the Carolina National Bank, and Mr. Southern, also of this city, had been earnestly at work to arrange for the transfer of the Financial Agency into the hands of a prominent and wealthy institution, the Union Trust Company, of New York city. In the latter part of October this arrangement seemed to be perfected. The Executive Committee of that institution invited the Attorney General (Mr. Chamberlain), the State Treasurer (Mr. Parker) and myself to meet them in their bankinghouse, for the purpose of making a full and clear statement as to our true financial condition, which request was complied with, and the statement made there was substantially the statement as published by the State Treasurer. After two or three days intervening, we were notified that they would accept the Agency on the very reasonable condition that all securities which had been printed should be placed in their hands for safe keeping, and that no bonds should be issued except through them, if, in future, there was to be any change in the character of our securities.

On the night of the 6th of November, Mr. Wesley, representing the Union Trust Company, Mr. Kimpton, Judge Porter, his attorney, General J. B. Dennis of the Investigating Committee, C. C. Bowen, Col. J. J. Patterson, Col. J. B. Palmer and Mr. Southern, met me for the purpose of effecting a final arrangement for the transfer of the Financial Agency. This meeting was in consequence of my having determined to start for home that evening. The arrangements, as I supposed, having been made with the concurrence, and to the great satisfaction, of all parties interested, and, there not being time to draw up the papers necessary for the transfer of the Agency and the bonds in the hands of the American Bank Note Company, I signed, in blank, two papers, and placed them in the hands of Col. Palmer, a gentleman in whose integrity I had the fullest confidence. This doubtless was an affront to the counsel of the Investigating Committee, because I did not entrust them to him, and I will only here remark, that the moneyed men of New York, or the sensible men of this State, would say that I was entrusting my blank signature to an improper person, were I to have placed it in the hands of one who has spent much of his life in the prisons of his country, for his crimes and misdemeanors. I called Col. Patterson to witness the objects for which I placed my blank signature in the hands of Col. Palmer. No man knows better than this person who makes these charges, that the object of transferring the Sterling Bonds to the Union Trust Company, was not for the purpose that he has stated, viz: to place them on the market.

This was requisite, for the double purpose of protecting the Agency from the possibility of any other party putting bonds on the market to their injury, and to insure that the bonds of the State would be kept in a place of perfect security, and in the custody of a corporation known to the whole country as worthy of the highest confidence.

A corporation with the resources and reputation of the Union Trust Company, is an ample guarantee for the safety of anything that may be placed in their care. Therefore, I regard this as a sufficient answer to the nefarious charge of my attempting to place the Sterling Loan Bonds upon the market. If the General Assembly is not satisfied with my explanation of this malicious and unwarranted charge, they can satisfy themselves, by calling upon the parties whose names I have mentioned, to learn whether my statement is correct or not. I left New York City on the 6th of November, under the impression that all these arrangements were perfected, and, on the next day, the transfer would be made to the Union Trust Company, of not only the Financial Agency, but of all securities that had been printed, as Mr. Kimpton had agreed to the arrangement. On the 9th, I received the following telegram from C. C. Bowen :

NEW YORK, 9th November, 1871.

Governor R. K. SCOTT, *Columbia, S. C.* :

Barrett has written Kimpton that he is authorized, on the part of the State, to commence proceedings. Palmer claims to represent you. Such a move would be disastrous. You retained me. I advise you to withdraw all authority from Barrett and Palmer.

Telegraph me immediately, revoking their alleged authority to proceed.

(Signed)

C. C. BOWEN,
9 Nassau Street.

I replied to him, by telegraph, as follows :

COLUMBIA, November 9, 1871.

Hon. C. C. BOWEN,

(Care of H. H. KIMPTON,)

No. 9 Nassau Street, New York :

I don't understand what is being done. When I left, thought all was settled, and the Trust Company was to take charge, as agreed, for State.

(Signed)

R. K. SCOTT, Governor.

On the 11th, Colonel Palmer informed me that the arrangements had all fallen through, and requested me to telegraph to Judge Barrett, (he having had an interview with him,) to commence proceedings.

As Mr. C. C. Bowen has found it convenient to allege publicly that the above telegram of his was not forwarded in the terms stated, or for the purpose of obstructing legal proceedings against the Agent, I now invite your attention to the following letter, addressed by the Chairman of the Investigating Committee to the State Treasurer, which is similar in tenor to one delivered to the Financial Agent. The Chairman of the Committee, General J. B. Dennis, a member of the House, states, in a communication hereto annexed, that, by the advice of Mr. C. C. Bowen, the advisory counsel of the Committee, he wrote these letters, which prohibited the Financial Agent from making the exhibit of his books contemplated in the legal procedure then under advisement :

COLUMBIA, S. C., January 6, 1872.

His Excellency R. K. SCOTT, Governor of South Carolina :

GOVERNOR—I have the honor to acknowledge receipt of your communication of this date, requesting a copy of the orders served by myself, as Chairman of the Joint Special Financial Investigating Committee, upon Hon. Niles G. Parker, Treasurer of South Carolina, and H. H. Kimpton, Esq., Financial Agent of South Carolina, on the 9th of November, 1871, in the City of New York, in reference to the transfer of South Carolina securities, then in their possession; also asking why this course was adopted, and by whose advice. Enclosed please find copy of order served on Hon. Niles G. Parker, which is the same as served upon H. H. Kimpton.

In reply to inquiry as to why such a course was adopted, I will state that certain parties considered the transfer of the securities to the Union Trust Company would be a disadvantage to the State, and, by the advice of Hon. C. C. Bowen, who was employed as attorney for the Investigating Committee, and the only one to whom I could apply for legal advice, I gave the order.

Very respectfully,

Your obedient servant,

(Signed)

JOHN B. DENNIS, Chairman.

[This letter, it will be seen, was dated on the very day I sent my telegram.]

NEW YORK, November 9, 1871.

Hon. NILES G. PARKER, Treasurer State of South Carolina :

SIR—Information having been received by the Committee appointed by the General Assembly of South Carolina to investigate the financial condition of affairs of said State, that certain evil-disposed persons from South Carolina, who are speculating in the securities of that State, are now in this city, aided by certain other parties, also speculators in said

securities, to the detriment of the credit of South Carolina, are trying to get possession of the Financial Agency and the assets belonging to said State, by force and threats. You are, therefore, as one of the Financial Board, and Treasurer of said State, ordered and required by this Committee, that you do not, under penalty of the law, consent or agree that the said Agency, now held by H. H. Kimpton, Esq., of this city, pass into the hands of said speculators; and that, if the said H. H. Kimpton shall resign, you will delay the appointment of any other person as Financial Agent of the State until further notice from this Committee, and that you do not, under any circumstances, allow any of the assets of the State, now in your hands, or which may hereafter come into your possession, to be turned over or pass into the possession of any other parties, until the said H. H. Kimpton shall have resigned or been removed by the Financial Board or Legislature of South Carolina, and his successor duly appointed and qualified.

Very respectfully,

Your obedient servant,

(Signed)

JOHN B. DENNIS,
Chairman Committee.

In further proof of the bold falsehood that has been uttered on this subject by my chief accuser in the House, I submit the following communication from Mr. H. H. Kimpton, Financial Agent:

COLUMBIA, S. C., January 6th, 1872.

To His Excellency ROBERT K. SCOTT, Governor:

SIR—Your letter of this date is received, requesting me “to furnish you with a copy of an order served on me by the Chairman of the Joint Special Investigating Committee, on or about the 9th November, 1871, in the city of New York, directing me to refuse to turn over any of the bonds or other property of the State controlled by me, as Financial Agent, to any person or persons.”

I have the honor to reply that such an order, which is now in my possession in New York, was served on me, at my office, by the Chairman of the Committee, in the presence of the Committee, and their counsel, Hon. C. C. Bowen.

I was a creditor in possession, and could not do otherwise than insist upon full settlement of the loans which I had negotiated for the State; but I was then anxious, and have been at all times, to close my responsibility as Financial Agent of the State.

Very respectfully,

(Signed)

H. H. KIMPTON,
Financial Agent.

The following is my telegram to Judge Barrett :

COLUMBIA, 11th November, 1871.

GEORGE C. BARRETT, Attorney, No. 20 Nassau St., New York:

Unless Kimpton resigns and settles, as was agreed before I left, you will institute proceedings in accordance with conversation with you.

(Signed)

R. K. SCOTT, Governor.

I can only infer that, after leaving New York, Bowen had become, also, the legal adviser of Mr. Kimpton, as well as of the Committee. These telegrams explain themselves. I do not deem it necessary to enter into any argument to convince the General Assembly that my statement is correct. If the General Assembly has any doubts of the correctness of these telegrams, they can at once have them verified by applying to the telegraph office, as I have no fear of the ability of any of my accusers, to secure, by corruption, a change or *erasure of any of these documents*, now in the hands of the Western Union Telegraph Company, and the substitution of any other names therein.

Certainly these facts, which are all of record, and speak for themselves, do not tend to warrant the imputation cast upon me by the author of the Joint Report, and by his coadjutor and forerunner in the House (Mr. C. C. Bowen), that I have endeavored to screen and cover up the transactions of the Financial Agent, and that he and I have been in criminal copartnership to plunder the State, by an illegal or improvident use of its securities, for private gain.

In reference to what is alleged by the Committee, that the bulk of the new bonds outstanding was unnecessarily issued, I would simply say that it is well known to every member of the General Assembly that, during the past three years, the authorized expenditures of the State have far exceeded its actual income from taxation. This being true, I would ask, in the name of common sense, where was the deficiency to come from? Do the members of the General Assembly believe that we can expend a million and a half dollars (\$1,500,000) a year, and pay it with an income of a million? This being evidently impossible, it is plain that the money to meet the deficiency was received from some source other than taxation. The deficiency in the collection of taxes amounted, in three years, to \$1,137,000. One million (1,000,000) dollars was expended before a single cent was collected, in order to meet the current expenses of the State Government. One million dollars (\$1,000,000) to pay interest accumulated on the public debt (old) up to July 1, 1869; five hundred thousand dollars (\$500,000) to redeem Bills Receivable, and seven hundred thousand dollars (\$700,000) for the Land Commission. These sums aggregate four millions, three hundred and thirty-

seven thousand (4,337,000) dollars in money actually raised and expended, in addition to the money derived from taxes. More than half of this sum was consumed in meeting debts contracted before the organization of the present State Government.

THE BONDED DEBT OF THE STATE.

The Joint Report, (page 267,) with its well established disregard for facts, and singular rashness in the use, or abuse, of figures, for a purpose that will be shown hereafter, places the bonded debt of the State at \$29,158,914.47.

This is so bold and monstrous an exaggeration, that it would be perfectly astounding, if the mind of the reader of the report had not been prepared, by previous disclosures of its untruthfulness, to meet, without surprise, any degree of mendacity in its closing pages. This statement puts the actual bonded debt at a figure which is \$13,391,005.49 in excess of what it can possibly be, even though every bond ever placed in the hands of the Financial Agent, and not now in the Treasury, should become a total loss to the State. This enormous figure is reached by classing, as a part of the debt, the six millions (\$6,000,000) of Sterling Loan Bonds now in the State Treasury, \$6,787,608.20 of railroad bonds, on which the State appears only as an endorser, paying no interest, and only liable for any deficiency after all the property of the roads, (which have ample assets,) shall have been exhausted. In proof that these endorsements do not necessarily make a part of the State debt, I refer to the fact that, within the past year, the South Carolina Railroad has provided for and liquidated its bonds that were endorsed by the State, amounting to \$2,093,312.40.

But the amount of endorsed bonds, given above by the Committee, is subject to a reduction of \$4,000,000, that being the portion endorsed for the Blue Ridge Railroad Company, and which have never been put upon the market, and have, therefore, not yet formed a part of even the contingent liability.

In addition to these remote and purely contingent liabilities, the Committee have improperly embraced the following items, which, at present, form no part of the actual debt, in order to make up an astounding aggregate, namely:

Bonds held by Sinking Fund Commission.....	\$200,000
Bonds due July 1, 1871, and redeemed and cancelled, and now in Treasury.....	212,000

There should be further deducted the College land scrip bonds, stated at \$200,000, and now held in trust by the Financial Agent, as those bonds,

after having been computed by the Committee in their general debt statement, were again added, as if they were an additional issue.

Making these deductions, which are clearly proper, even according to the figures given in the Committee's own report, and admitting that every bond of the State, delivered to the Financial Agent, is lost to the State, or must be redeemed at its face value, the total bonded debt is shown, by this very report, divested of all exaggerations, to be \$15,759,306.27, or \$8,602.71 less than is set forth in the Treasurer's exhibit, as given in my last Annual Message. And here I wish it to be distinctly stated and understood, that of the \$3,200,000 purchased or borrowed by the issue of bonds, \$2,200,000 were for the payment of debts contracted under former administrations, and were left as a burden on this.

In closing this branch of my Message, I desire that, on the subject of the State debt and the alleged over-issue of bonds, you will compare the statement of the Joint Report with that made by the Chairman and a member of the Joint Committee, in their Special Report to the House, on the 20th day of December, three days before the Joint Report was laid before the General Assembly. The Special Report was made by gentlemen who were certainly equal in character and intelligence to any others on the Committee, and had equal facilities for ascertaining the facts, and no motive, to my knowledge, for misstating them. These gentlemen state, on page 6 of their Special Report, the bonded debt as follows:

"Loan to redeem bills of Bank of the State.....	\$ 1,509,000 00
Loan to redeem Bills Receivable of South Carolina.....	500,000 00
Loan to pay interest on public debt.....	1,000,000 00
Loan for conversion of State securities.....	8,200,000 00
Loan for relief of the Treasury.....	1,000,000 00
Act approved August 26, 1868.....	1,000,000 00
Act approved March 27, 1869.....	200,000 00
Act approved March 1, 1870.....	500,000 00
Sterling Funded Debt.....	6,000,000 00
Registered certificates of stock.....	2,550,000 00
Total.....	\$22,540,000 00

The above bonds your Committee find, upon examination, accounted for as follows:

In office of State Treasurer: Sterling Loan.....	\$ 6,000,000 00
Conversion bonds.....	473,500 00
Relief of Treasury.....	101,000 00
Payment interest public debt.....	50,000 00
Redeem bills Bank of State..	331,000 00
Conversion stock.....	2,117,300 00

Cancelled and destroyed :

Bonds for payment of interest on public debt.....	500,000 00
Bonds, conversion.....	501,000 00

Issued at State Treasury :

Bonds for conversion.....	1,260,500 00
Bonds to redeem bills Bank of the State.....	1,259,005 00
Conversion stock.....	432,700 00

Making a total of.....\$13,026,000 00

Which amount, deducted from the total amount printed,
leaves a balance of.....\$ 9,514,000 00

Also, deduct bonds passed to the credit of the Sinking
Fund Commission..... 200,000 00

\$9,314,000 00

To which add the debt known as the old bonded, or ante-
war debt..... 6,453,908 98

Covers a total of.....\$15,767,908 98

Your Committee, after a careful and thorough examination, are fully convinced that the entire bonded debt of the State of South Carolina is \$15,767,908.98, and has been created in accordance with the several Acts authorizing the issuing of State securities. Your Committee are of the opinion that there has been no over-issue of State bonds, for the reason that no Act of the General Assembly limited the amount to be issued. The only Act containing a limitation of any kind, is the Act of March 26, 1869, and that contains a limitation as to time only in which loans could be negotiated.

"Your Committee have obtained no evidence that the terms of that Act have been violated. The limit fixed by that Act for the negotiation of loans expired August 26, 1870, and while bonds have been issued since that date, they were to cover loans negotiated previous to the expiration of the twenty-four months specified in the Act."

THE ENROLLMENT AND ORGANIZATION OF THE MILITIA, AND THE EM-
PLOYMENT OF AN ARMED FORCE.

Under this caption, the Committee are pleased to state, on page 13 of their report, that the militia are entirely without organization, and, in

order to bring the Governor into contempt, and to degrade the National Guard of the State, they sneeringly term it "Scott's militia," and allege that it consists of a retinue of personal favorites or hirelings of mine, and impliedly assert that the officers and soldiers were paid by me, for political purposes, out of money in the Treasury, "the same pay and allowances given to officers and soldiers of the same grade in the army of the United States." They also positively allege that the election of 1870, in this State, was, in part, carried for the Republican party by such illegal use of the militia and the public money.

These statements, which are known to the General Assembly to be infamously false, could only have sprung from a mind desperately bent upon perverting the truth, and ignominiously insensible to the shame of exposure.

In reply to the statement that the militia are entirely without organization or equipments, I ask your attention to the following facts, which are attested by the records now on file in office of the Adjutant General:

There are now organized and, in great part, well equipped, fourteen (14) regiments of infantry, constituting four (4) brigades of the National Guard, State of South Carolina. In addition to these, one company of cavalry has been duly organized and enrolled. There have been issued to the National Guard 7,845 stands of arms, all improved breech-loading rifles. Of the number of arms originally issued, 3,167 were forcibly taken from members of the militia, at their homes, in the up-country, by bands of Ku Klux. Of the arms so seized and taken away, 1,700 only had been recovered by the State up to October 31, 1871, leaving a balance of 1,467 rifles lost or unaccounted for. Four thousand six hundred and seventy-eight improved rifles are now in the hands of the organized militia.

With this statement of facts, that defy successful contradiction, I ask the General Assembly to judge how far this partisan rehash of base libels from opposition newspapers is entitled to respect or credit, even though it may be cunningly dressed up as a legislative document, and spread over three hundred printed pages.

THE AGRICULTURAL COLLEGE LAND SCRIP.

In answer to the implied allegations of the Committee, that I have been derelict in my duty in relation to the Agricultural College Land Scrip, I assert that I have discharged every duty imposed upon me by law in regard to the same. The Act of December 10, 1868, which is the only law upon the subject enacted by the General Assembly, pro-

vides (Section 3) that "the Governor, Secretary and Attorney General of State shall be, and they are hereby, authorized and empowered to receive, sell, and the Attorney General shall assign, at such times, and upon such terms, as they may deem best for the interests of South Carolina, or as the General Assembly may hereafter, by law, direct, the whole or any part of the scrip or land warrants issued, or to be issued, to this State, by virtue of the Act of Congress referred to in the first Section of this Act."

It will be perceived that the only power or authority that I had in the premises was conferred upon me jointly with the Secretary of State and the Attorney General. The Board thus constituted were authorized, in Section 5 of the Act above quoted, to "perform and discharge any of the acts, trusts or duties authorized, directed or conferred herein by any Agent by them selected and appointed."

Pursuant to this authority, the Board designated the Financial Agent of the State, in New York city, as the most proper "agent" to sell the scrip. The Financial Agent reported the sale of the scrip at seventy-two and a-half cents per acre, which, I have no doubt, was the price actually received for it.

The Attorney General assigned it, as he was empowered to do, by the law. I never saw the land scrip. I do not know, and never heard of, the purchaser, except through the public prints. My whole knowledge upon the subject was received from the Financial Agent, who reports that he invested the proceeds, according to law, in six per cent. bonds of this State, which bonds, amounting to \$191,800, he now holds "for the purposes directed in the Acts of Congress." Thus falls another scandalous and false charge, which this Committee have diligently circulated against me. If the General Assembly have the slightest doubt of the full and complete correctness of this statement, let them question the Financial Agent and Attorney General, on oath, as to the facts in the premises, within their knowledge.

THE LAND COMMISSION.

I deem a simple statement of facts, known to every member of the Land Commission Advisory Board, a sufficient vindication of my action in connection therewith. The Act of March 27, 1869, to provide for the appointment of a Land Commissioner, declares, in Section 3: "That the Governor, Comptroller General, State Treasurer, Secretary of State and Attorney General are hereby declared to be an Advisory Board to the Land Commissioner; and said Commissioner shall, in all the duties imposed upon him by the provisions of this Act, be governed by their instructions and advice." It will thus be seen that the law vested in me

one-fifth of the joint power of the Board. This was represented by my one vote; and to that extent, and no further, am I responsible for the administration of the Land Commission. At the session of 1868-'69 the first appropriation, amounting to \$200,000, was made for the purposes prescribed in said Act. Up to about the first of November, 1869, expenditures were made for lands to the amount of fifty or sixty thousand dollars. To that date the purchases had my approval. Subsequently, I insisted that, before purchasing, the Land Commissioner should inspect, in person, each tract of land offered, instead of depending upon the representations of the proposed seller. This demand not having been complied with, I declined to give my assent to any further purchases. On the first of March, 1870, a new Land Commissioner was appointed. The new Commissioner, not having received the records of his office until the following May, all purchases ceased in the interim. I then ascertained, for the first time, from the statement of his predecessor, that of the appropriations, amounting to \$700,000, about \$500,000 had already been expended, under the first Commissioner. The remainder of the appropriation was expended under the second Land Commissioner.

Many of the purchases of land having been severely criticised, and grave charges of irregularities in the administration of the office of Land Commissioner being current, I applied, in the month of May, 1870, to an eminent lawyer of this city, Colonel J. D. Pope, to initiate legal proceedings for the purpose of bringing the alleged fraudulent transactions of the Land Commissioner under review in the Courts. Colonel Pope stated, in a written opinion, which he furnished me, that after a thorough investigation of the law and the facts in the premises, he was satisfied that great irregularities had been practiced to the injury of the State, but that the necessary legal proofs of the malfeasance alleged could be furnished only by those who sold the lands, and by others interested in effecting such sales, and who profited by them, and they were not likely to appear as witnesses and criminate themselves. Colonel Pope also gave it as his opinion, that the law itself was defective in leaving open a wide door to fraud, and that, until additional legislation was had, I had no power to correct the evils complained of. In my Annual Message, of 1870, I brought this matter to the attention of the General Assembly, and used the following language :

"Whatever abuses have characterized this agency, and paralyzed its usefulness, are mainly traceable to its organization, by which its authority was deligated to five Commissioners; and by its divided responsibility, in constituting any three of them, whose assent was obtained, either individually or in the aggregate, a quorum to decide all questions brought before them."

Among the many purchases that have recently been subjected to severe criticism, I approved two, which are alleged, with some justice, to have been sold at a rate far above their true market value. These two purchases are situated in the Counties of Charleston and Beaufort. The men who sold them, and thus imposed upon the State poor lands, at an exorbitant price, are now among the most prominent assailants of the Advisory Board. They are Mr. W. J. Whipper, and Mr. Timothy Hurley, members of the House. In both these cases, I refused to give my assent to the purchase, until the Land Commissioner, Hon. R. C. DeLarge, had first inspected the lands in person, and reported favorably on their purchase. I mention these indisputable facts, to show that I did endeavor to throw around every purchase of lands, to which I gave my approval, all safeguards, in the interest of the State.

THE STATE ARMS.

The Joint Report of the Committee imputes to me the responsibility for the expenditure for arms for the State, and, to meet their false imputation, I propose to state simply the real facts.

By the Act of March 16, 1869, the Governor was empowered to purchase, for the use of the State, 2,000 stands of arms, of the most improved pattern, with the usual complement of ammunition, providing that a serviceable and satisfactory arm could not be procured from the United States. A serviceable and satisfactory arm could not be procured from the United States Government, and I therefore purchased, through the Adjutant General, who was the proper officer to represent me in the matter, 1,000 stands of Winchester rifles, with the usual complement of ammunition, that being an arm of the most improved pattern, and the one actually contemplated by the General Assembly, in enacting the law, although it was not deemed advisable that I should be restricted to that particular arm. Hence, it will be seen that, so far from violating the law in this particular, I did not exercise the full power that it vested in me. The records of the United States' War Department will show that no arms were transferred to the State, by the National Government, until a year after the purchase of the Winchester rifles, and only after persistent and frequent application, which delay, in the delivery of the quota of arms due the State, compelled the purchase of an improved arm in advance of such delivery.

But the arms, when finally obtained from the General Government, were found not to be of the class termed serviceable, being second-hand Springfield muzzle-loading rifles—far from being a “satisfactory arm.” It became, therefore, necessary to have these arms altered and put in serviceable condition, in order that I might fully arm and equip, if nec-

essary, the force contemplated by the Joint Resolution of February 8, 1869, "authorizing the Governor to employ an armed force for the preservation of the peace." If any additional authority were needed to warrant an expenditure of money to convert the arms received from the Government into serviceable arms, such as impending exigencies in the State seemed to demand, it may be found in the Act of March 16, 1869, requiring the arming and equipment of the militia, and, indeed, the arms were given by the Government of the United States for this special purpose, and nearly every State in the Union has expended money in converting arms so received into improved breech-loaders.

These facts exhibit the grossness of the misrepresentations made by the Committee in their statement, that the arms received by the State from the Federal Government were of the serviceable pattern now in use in the United States army, when, on inquiry, they could have readily learned the fact that the General Government has never furnished any State with their regular service arm.

In reference to the contracts for the alteration of the arms, I would state that they were made by the Adjutant General, who had authority from me to have the arms altered, at the lowest practicable cost. I am not acquainted with, nor have ever seen, to my knowledge, Mr. Pond, the contractor, or any person employed by him to make such alterations. My whole knowledge of the transactions was derived from the report of the Adjutant General.

The payments under these contracts were made direct by the Financial Agent. I have never signed a check for any of the payments for making the alterations of these arms, nor do I know to whom the payments were made.

There can be no doubt that the Adjutant General was the proper person to have attended to this duty, and I cannot be led to believe, from the report of the Committee, that either he or the Financial Agent paid out any more money than was authorized by the contracts; if they have done so, no report has ever been made to the Comptroller General by the Financial Agent of the State, and I have no means of ascertaining, as the Financial Agent is not bound by law to report to the Governor; and, should he attempt to make a charge against the State for money illegitimately paid, the proper mode is to hold the Financial Agent responsible, he being an officer of the State government, and accountable to it for his official acts.

In this connection the Joint Committee recommend that the law authorizing the Governor to pay for the employment of an armed force be repealed.

This recommendation is ostensibly made upon the ground, that the appropriation is virtually unlimited, as the Act in question authorizes

the payment of the force "out of any moneys in the Treasury not otherwise appropriated." It will seem strange to the members of the General Assembly, that such a recommendation, for the reason alleged, should come from the Senator who is the declared author of the Joint Report, for that Senator, but a few days ago, voted to pass over my veto, a Bill, which gave the Clerks of the Senate and House the power to draw upon just such an "unlimited appropriation, in favor of "The Republican Printing Company."

I now propose to show the real object of this report, which is, indeed, "fearfully and wonderfully made."

The report itself gives one of the motives that impelled it, for it recommends, on page 39, that "The Financial Board should be selected by the State Senate from among such persons, not connected with the State Government, as have experience in matters of finance, integrity of character, and a first-class business reputation."

This recommendation, if carried out, would exclude from any voice in the financial management of the State, the House of Representatives, in which originates all appropriations of public money.

It would also surrender the absolute control of our finances to the enemies of free government in South Carolina, who so loudly applaud this report through the Ku Klux press, they having discovered that the true path on which they must move, to avenge their sentenced confederates, will be found in a successful effort to control the Treasury of the State through schemes of this class.

As an additional solution of the purpose of this report, I state the further fact, openly proclaimed by the counsel of the Committee, who was also its forerunner in the House :

Mr. C. C. Bowen, counsel of the Joint Investigating Financial Committee, stated, at the Executive Mansion, on the night of December the 7th, fifteen days before their report was published, that he was "in favor of the General Assembly taking such action upon the debt as would utterly discredit all the bonds, and that a Committee should, at the same time, be appointed, and furnished with money, to *buy up the bonds secretly*, at five or ten cents on the dollar."

This declaration was made in the presence of not less than thirty members of the General Assembly, and was denounced by me at the time as infamous.

As an evidence of the mental blindness that great malice often inflicts upon those who cherish it, and in proof that the champions of impeachment do not possess all the intelligence of the House, even if they do claim to embody all its virtue, I mention the fact, that a prominent member of the House has had entered upon the Journal that he cast his "vote to impeach the Governor because *rumor* says there has been a

large over-issue of bonds." The member who gave this hearsay reason for arraigning the Chief Magistrate, on the charge of "high crimes and misdemeanors," is a Commissioner to codify the laws, and is, also, Chairman of the Committee of Ways and Means. He should know that, if public "rumor" is to be deemed evidence of guilt, no prominent Republican, in this State, would be adjudged innocent, and the member himself would be quickly escorted through the door of the Penitentiary, for his "rumored" taking of bribes, and other corrupt practices in office.

CONCLUSION.

I have thus, fellow-citizens, endeavored to answer, frankly and fully, the charges made against me.

I am fortunate in the characters of my accusers. It sometimes happens that, through evil appearances, an innocent person has a good man for his accuser. In my case, however, the two foremost of my assailants are well known to the criminal records of the country, and now seek, under the garb of the IMPEACHER, to hide the brand of the CONVICT. To your intelligent sense of right, and to the just judgment of all impartial men, I fearlessly confide my vindication.

We could and would have voted for a simple resolution to declare vacant the seat of Mr. Lyle, but could not vote to adopt the preamble to the resolution, which recites that he has rendered "himself an outlaw." We understand the Constitution of the United States to prohibit a sentence of outlawry, and in deference to our obligations to protect and defend that instrument, we could not do otherwise than vote

against a resolution, coupled with a preamble violative of that instrument, as we construe it.

THURSDAY, JANUARY 11, 1872.

229

STATE OF SOUTH CAROLINA,

EXECUTIVE DEPARTMENT,

COLUMBIA, January 8, 1872.

To the President of the Senate:

I have the honor to inform you that I have this day returned, without my signature:

"An Act to repeal a Joint Resolution entitled 'Joint Resolution authorizing the Governor to employ an armed force for the preservation of the peace,' " approved February 8, 1869.

I would feel bound to withhold my approval from this measure, even if there were not many valid reasons against its enactment, for I am satisfied that it has come before me in violation of Section 21, Article 2, of the Constitution, which requires that every Bill shall be read three times, and on three several days, in each House, in order that it may have the force of law. The evidence that has produced this conviction on my mind is purely negative, however, and arises from the fact that I have been assured, by numerous members of the House of Representatives, who have been in their seats continuously, during each day of the session, that no such Bill has had its third reading in that body, to their knowledge.

But, assuming that there has been no irregularity or inadvertence in the premises, this Act ought not to become a law. The exigency that demanded the employment of an armed force in 1869 may, at any time, recur. The danger that invoked this measure has not yet entirely passed.

The United States troops may be withdrawn at any moment from the State; and, in that event, the Executive, should this Act pass, would be left absolutely without any means to meet emergencies demanding instant protection for the life or property of the citizen. The funds placed at my disposal by the Joint Resolution that it is proposed to repeal, have been used providently, and applied efficiently to the purposes contemplated in its enactment. I trust, therefore, that the General Assembly will reconsider their vote upon this Act, and that the Joint Resolution authorizing the Governor to employ an armed force for the preservation of the peace will not be repealed.

Very respectfully,

(Signed)

ROBERT K. SCOTT, Governor.

The Act was returned to the Senate with a message.

The following paper was presented, to be entered on the Journal :

We voted "yes," on the question, "Shall an Act to repeal a Joint Resolution entitled 'A Joint Resolution authorizing the Governor to employ an armed force for the preservation of the peace,' become a law, the objections of His Excellency the Governor to the contrary notwithstanding?" for the following reasons :

1st. Because we hold that none of the reasons adduced by the Governor, for refusing to sign said Act, are cogent. He says : "I feel bound to withhold my approval from this measure," because "I am satisfied it has come before me in violation of Section 21, Article II, of the Constitution, which requires that every Bill be read three times," &c. The confirmed Journal of the House, which proves as follows : That said Act received its first reading, in that body, on the 11th ultimo, its second reading on the 15th, and its third reading on the 16th, clearly refutes the proposition laid down, and removes from the Speaker the reflection cast on him in the implication that he attested, at its ratification, by his signature, the passage of an Act by the branch of the General

Assembly over which he presided, and on the Clerk, in that he signed a certificate to the same effect, which did not pass.

2nd. He assumes: "The exigency that demanded an armed force in 1869 may at any time recur."

No exigency can exist greater than the condition of affairs in the State subsequent to the passage of the Joint Resolution sought to be repealed, prior to the interposition of the strong arm of the United States Government, contrary to the negative opposition of those in position to demand its aid, which condition was murder and rapine in many Counties, to an extent sufficient to prevent many members of this House from returning to their hearths and firesides during the interim of the present and last session of the Legislature, under which no action was taken by the Governor. who, on the other hand, withdrew from the possession of Republicans the arms given them for their protection, under another Act, and thereby left them to the mercy of the mob, the consequence of which was that seventeen persons were murdered during the twenty-four hours afterwards, and who now seeks to retain the power conferred on the plea that the exercise of such power *may* yet be necessary.

3rd. Because, by apparently preconcerted action, the *gag*, commonly known as the previous question, was applied, and those desirous of stating their reasons against sustaining the veto were prevented because of the knowledge of the existence of a transcript of public records in the hands of one whose intention it was to place it in the possession of the House, and thereby show that the power to draw the money of the State from the Treasury under the Joint Resolution sought to be repealed was 'prostituted, and the power to protect its citizens, especially Republicans, as they only needed protection, was left unexercised.

F. H. FROST,
W. J. WHIPPER,
B. G. YOCOM,
C. C. BOWEN,

At the Comptroller General's office, vouchers were found for all warrants drawn by him on the Treasurer, and his books in a condition highly creditable to himself and his clerk, Mr. C. J. Houston. At the suggestion of the Comptroller General, your Committee examined the State bonds deposited with him by Insurance Companies, as required by "An Act to better protect holders of Insurance Policies in this State." That officer requested it, for the reason that no Legislative Committee had ever examined them, and he earnestly desired it. We found every bond agreeing in amount, series and number, with the duplicate receipt given each company, and the entry made on the books of the office, and also found that they agreed, in the aggregate, with the amount required of each company doing business in this State.

Your Committee having discharged the duty for which they were appointed, respectfully ask to be discharged.

W. J. WHIPPER,

COMMUNICATION.

EXECUTIVE DEPARTMENT, OFFICE OF COMPTROLLER GENERAL, COLUMBIA, S. C., January 25, 1872.

To the Honorable the Senate and House of Representatives :

GENTLEMEN—I have the honor to submit, herewith, the reports of the various disbursing officers, together with all information connected with the financial condition of the State, which I have been able to get together.

That the delay of these statements has been very disadvantageous to yourselves, as well as to the public service, every one will admit, and no one can regret it more than I do; and, I assure you, gentlemen, that I have used every effort in my power to obtain them at an earlier day. I now place them in your possession at the earliest possible moment.

I also regret that the reports are not more satisfactory, and that I am unable, under the present embarrassed condition of our finances, to make some recommendations looking to improvement in the future; but, in view of the fact that our finances are managed by the Financial Board, of which I am not a member, and of whose future plans I am not advised, you will, I trust, pardon me for refraining from the expression of my views, and for hoping, perhaps vainly, that their plans for the future will work out our relief as rapidly as those pursued in the past have increased our State debt.

Without reflecting upon any one, I beg leave to say, that I am both disappointed and surprised at the enormous amount of our funded debt, and venture to make one suggestion: that is, in the future live within your income; the State having lost its credit by extravagant practices, just as a private individual would lose his by the adoption of a similar course.

Very respectfully,

Your obedient servant,

(Signed)

Whereas, the Congress of the United States, in plain violation of the doctrine "that there should be, either in free trade, in reference to the products of all the world, or else an equality of protection," seems to be about to remove the duty from Rice, one of the staple products of this State; and, whereas, in the judgment of this General Assembly, such a measure would be "partial in character and disastrous in results;" be it, therefore,

Resolved by the House of Representatives of the State of South Carolina, the Senate concurring, That the repeal of the tariff on Rice, the culture of which staple is the principal source of profit and support of so large a portion of the laborers of this State, would be unwise, partial and disastrous.

Resolved, That our Senators are hereby instructed, and our Representatives to the Congress of the United States are hereby requested to use their influence to secure the continuance of the protective duty on Rice.

Resolved, That this General Assembly would not be understood, by this action, as endorsing the principle of a high tariff for protection.

Resolved, That His Excellency the Governor is hereby requested, immediately upon the adoption of these resolutions, to forward certified copies thereof to His Excellency the President of the United States, the President of the Senate and Speaker of the House of Representatives, and to our Senators and Representatives to Congress, who are hereby requested to lay the same before that body.

Mr. SIMONS, from the Joint Committee on the Lunatic Asylum and Medical Affairs, submitted the following:

REPORT.

The Joint Committee on the Lunatic Asylum and Medical Affairs beg leave to report:

That they have visited the Asylum, and have had shown to them, through the courtesy of the President of the Board of Regents, the Superintendent, and his Assistant, the several improvements made since their last visit. In every object of notice there is a reminder that the wants and desires of the unfortunate patient has been earnestly looked after and cared for. The air of comfort, affected by the cleanliness of the buildings, and the observance of the rule of "a place for everything, and everything in its place," the improvements in the furniture, the billiard tables, pianos, croquet implements, and the substitution of a bath-room for each ward, instead of one for each building, reminds the observer that everything has been done by the Superintendent and his co-laborers to make those within their charge as comfortable, and as far removed from their lamentable condition, as the limited means would permit.

The first objects of notice that would strike the eye of a visitor, upon entering the old building, are the registers upon the walls, and the fur-

naces in the basement. These dispense with the stoves and fire-places, and concomitant dangers, and affect, at a much less cost of fuel, a thorough heating of the building, which, under a former administration, was much desired, but declared to be impracticable.

All these improvements, however, redound to the comfort of but one class of patients. The condition of those occupying the wooden buildings we find very little improved. Your Committee, in fact, despair of the condition of these unfortunate people being ameliorated until the new building is finished, and they are removed from the miserable tenements which they now occupy. This, we hope, each member will assist your Committee, so far as their duties and powers go, in accomplishing.

The work upon this new building was steadily and satisfactorily carried on whilst the money appropriated for the same could be obtained from the State Treasurer. When orders, however, were refused to be approved and cashed, the contractor was compelled to put them upon the market, and pay large sums of money for discount and rates of interest. This means of obtaining money could not be pursued long, and the work was necessarily suspended. Thus the humane objects for which the appropriation was designed still remains unaccomplished, and the hopes of this Committee, that these people be properly and equally cared for, deferred. Those upon whom devolved the duty under the law to approve and cash these orders, have not been, in the estimation of your Committee, as willing to meet the efforts of those in charge of this work as would be looked for from persons occupying such elevated positions, as the cause of this delay may be in part, if not in the whole, charged upon them. The \$17,000 of the appropriation still remaining in the Treasury the contractor is unable to obtain, notwithstanding the urgent need.

Dr. Ensor, the efficient Superintendent, has the congratulations of each member of the Committee for the high degree of success which he has met with in the conduct of the Institution, and in the performance of those peculiar duties which require the pulsations of a kind and sympathetic heart, as well as medical skill and learning.

Respectfully submitted.

We voted "No," on the Senate Bill to amend an Act entitled "An Act to grant the use of a vacant lot, in the city of Columbia, to the Palmetto Lodge, No. 5, of the Independent Order of Odd Fellows, on certain conditions," for the following reasons:

First. Because the National Grand Lodge of the Independent Order of Odd Fellows does not admit within their organization colored men, no matter what their ability of mental culture may be; and we deem it an exclusion, contrary to the principle and spirit of that glorious declaration made by the forefathers of this great Union, that all men were born free and equal. and that it would be more than could be expected from human nature to give substance and support to a measure that would ultimately work so as to oppress them.

Secondly. A system of school proposed in this Bill would likewise be of a nature to oppress, and would foster a spirit which would not only be detrimental to us, but to our posterity yet unborn.

We, the undersigned, voted "yes" on the motion to strike out the resolving clause of a Joint Resolution to investigate the transactions of the Financial Board, and the Financial Agent of the State, in the city of New York, because investigating Committees have been appointed ever since the Special Session of 1868, and up to the present time no benefit has been derived therefrom. In view of this fact, and believing, as we do, that this scheme was intended to allow certain parties to draw from an already nearly exhausted Treasury forty or fifty thousand dollars for nothing, we could not, conscientiously, cast our votes for the adoption of such a measure.

The Sergeant-at-Arms announced a message from His Excellency the Governor.

The SPEAKER laid before the House the following:

MESSAGE FROM THE GOVERNOR, No. 11.

STATE OF SOUTH CAROLINA,

EXECUTIVE DEPARTMENT,

COLUMBIA, February 6, 1872.

Gentlemen of the Senate and House of Representatives:

Several subjects, of both local and general importance to the citizens of this State, have been brought to my attention, which were not treated of in my Annual Message, and which seriously affect the interests of the State, among which is the anomalous condition of property in Beaufort County, held by the General Government, and the refunding of the tax collected on cotton.

In relation to the lands in Beaufort County, I beg to lay before you an extract from a communication received from citizens of that County, which gives a fair exhibit of the hardships under which they are suffering. From a large portion of the property being exempt from actual settlement, and consequently from taxation, it is unquestionably both the duty and the interest of the General Government to release their claim upon this property at once, by either selling it or restoring it to its former owners. And I believe it is only necessary for the Legislature to express a decided opinion on the subject to induce our Representatives in Congress to take immediate action.

The property of many persons who were innocent of any actual participation in the war, but who were placed in apparent antagonism to the

Government by their surroundings, has been sold ; and I would earnestly recommend that where the title has not passed from the Government, that their property be restored to them on the payment of the taxes, &c., and where the title has passed out of the control of the Government, that the money arising from the sale, after deducting the taxes, be paid to the former owners. I deem the following extract from the communication all that is necessary to impress you with the importance of the subject :

"The attention of the Legislature should be called to the fact that one-fifth (in value) of the real property of the County of Beaufort is now in possession of the United States, and, therefore, not subject to taxation. The title to this property was acquired by the Federal Government by means of the various sales made by the United States Direct Tax Commissioners, in years 1863-'64-'65-'66, at which time the whole of the Parish of St. Helena was sold by the United States for delinquent taxes. There yet remains in the hands of the Government about 1,500 pieces of property, varying in size from 5 acres to 1,600 acres, besides more than 100 lots in the town of Beaufort. A Bill has been prepared by the Commissioner of Internal Revenue, in whose hands this property now is, and it is now before Congress. This Bill provides for the speedy sale of all the interests of the Government in Beaufort County. It also provides for an equitable distribution of the fund accruing to the United States Treasury, from this and previous sales, among those whose property was seized and sold, deducting the amount of tax due and penalty.

"The longer continuance of the occupation of these lands by the General Government will be a serious and insurmountable obstacle to the prosperity of the country. No improvement will be made upon such property. Agriculture cannot be otherwise than shiftless and slovenly when there is no personal owner. Many houses have already fallen into ruin ; some have been pulled down ; and all are deteriorating rapidly. The County of Beaufort is deeply in debt. If this property were subject to taxation, it would produce enough to pay the interest on bonds, and provide a sinking fund for its early extinguishment. While there may be differences of opinion as to the best way to remedy the evils indicated, there is no doubt that any settlement is better than the present anomalous condition of affairs. Our Senator ought to be instructed, and our Representatives requested, to give this matter their earnest and immediate attention."

I also beg to call your attention to the accompanying documents from the Chamber of Commerce of the cities of Charleston and Memphis, in relation to the special tax on cotton, collected by the United States Gov-

ernment during the years 1865-'66 and '67, immediately succeeding the rebellion.

This collection of taxes from one of the principal staples that adds largely to the wealth of the country, under ordinary circumstances, I would have regarded as an oppressive and improper discrimination against the cotton growing interests, and, at the time it was collected, it was unquestionably oppressive upon those who were compelled to pay it. I will not enter into a discussion of the justice or injustice of the measure, nor am I disposed to question the constitutionality of the regulation under which it was collected, but will simply urge the propriety of memorializing Congress to return to the several States from which it was collected, the revenue derived as special tax on cotton, believing that the General Government, when it properly appreciates the hardships suffered by the people of those States, will not stop to consider the cause, but will exhibit the same magnanimity in this that it has in other acts towards our people, in tending towards fostering the growth of one of the most important agricultural products of the United States.

[See papers accompanying this Message in Reports and Resolutions, Regular Session of 1871-'72.]

I desire to call your attention to the fact that, during the past four years, there has been a deficiency in the collection of the revenue amounting, in the aggregate, to \$1,137,457.51, which amount has been provided by the State Treasurer by drafts on the Financial Agent in New York, and from other sources.

The Constitution of the State provides, Article IX, Section 3, as follows:

"The General Assembly shall provide for an annual tax, sufficient to defray the estimated expenses of the State for each year, and, whenever it shall happen that such ordinary expenses of the State for any year shall exceed the income of the State for such year, the General Assembly shall provide for levying a tax for the ensuing year, sufficient, with other sources of income, to pay the deficiency of the preceding year, together with the estimated expenses of the ensuing year."

The deficit, in meeting the expenses of the State Government during this period, has not been provided for as required by the Constitution. This failure to comply therewith has been the primary cause of our financial embarrassment, and to delay longer to discharge this public duty, from fear of a complaint on the part of the taxpayer, is only to increase the financial embarrassment, while it will in no way lessen the complaint of high taxation.

Long experience should have convinced the General Assembly that the complaint is not regulated by the rate per cent. levied upon the taxable property of the State. For, in the year 1870, when the entire tax

WEDNESDAY, FEBRUARY 7, 1872.

for State purposes was but five mills on the dollar's valuation of taxable property, the complaints were as loud and earnest as though it had been five times that amount. The failure to levy such a fair rate of tax as will cover deficiencies and meet the future legitimate current expenses of the State Government, together with a sufficient amount to pay the interest on the public debt, amounting to \$11,994,908.98, (the last item alone requiring about four mills on the dollar,) must produce discontentment and continued embarrassment.

In addition to the above, there will be a deficiency for the present fiscal year, the amount of which should be determined at once by the Committee on Ways and Means.

I would, therefore, earnestly recommend that this subject be acted upon at once, and the necessary means provided by proper legislation.

Very respectfully,

(Signed)

ROBERT K. SCOTT, Governor.

The SPEAKER laid before the House the following:

MESSAGE FROM THE GOVERNOR, No. 12.

STATE OF SOUTH CAROLINA,

EXECUTIVE DEPARTMENT,

COLUMBIA, February 8, 1872.

Gentlemen of the Senate and House of Representatives:

I have the honor to transmit herewith, for the information of the General Assembly, the report of the State Auditor in reference to the sale of the Union and Spartanburg Railroad, which he attended under directions from me, in accordance with the resolution of the General Assembly, of the third instant.

Very respectfully,

(Signed)

ROBERT K. SCOTT,
Governor.

OFFICE OF AUDITOR OF STATE,

COLUMBIA, S. C., February 6, 1872.

To His Excellency R. K. SCOTT, Governor of South Carolina:

GOVERNOR—I have the honor to report that, in compliance with instructions received from your Excellency, I proceeded to Union Court House on Monday, the 5th instant, for the purpose of protecting the interest of the State at the sale of the Spartanburg and Union Railroad, advertised to take place that day.

I was informed by your Excellency that the amount of liabilities of the State, on account of this road, was six hundred and nineteen thousand, five hundred dollars, and directed to bid to that amount. Upon the road being offered for sale, the terms were read by the Referee, Mr.

Baxter, requiring twenty-five thousand dollars to be paid in cash, and the balance to be paid in three equal semi-annual installments.

The road was bid off by myself, on account of the State, at six hundred and ten thousand dollars. Upon my tendering my warrant upon the State Treasurer to the amount of twenty-five thousand dollars, it was refused, upon the ground that said warrant was not cash, and consequently the terms of sale were not complied with. The question was then asked if by cash was meant gold and silver, and the reply was, United States and National Bank notes.

The Referee proceeded with a re-sale of the property, I protesting against such action through Col. J. D. Pope, who, under your Excellency's direction, acted as my legal adviser—claiming that the property belonged to the State, and that said action on their part was illegal. Notwithstanding my protest, however, the Referee proceeded with the sale, refusing to accept my bid on behalf of the State, and the bid finally reached two hundred and seventy-five thousand dollars, at which figure it hung for nearly half an hour, the auctioneer being just upon the point of striking the property off at that figure, when, at this juncture, some gentlemen, bankers at Union Court House, came to me and offered to advance twenty-five thousand dollars upon my warrant, providing that I would pay them for such advance. I had no time to consider, as the property was then called for the last time, but, acting upon the legal advice of Col. J. D. Pope, stated to the Referee that I would raise the required amount, and he accepted my bid. Meanwhile, in consulting with the gentlemen who had offered to make the necessary advance for me to prevent the sacrifice of the interests of the State, I found that their terms did not present a very flattering prospect for the interests which I represented—they requiring a bonus of ten thousand dollars for the use of the required twenty-five thousand dollars for twenty-four hours.

These very modest and moderate terms I of course rejected, and upon the road being struck off to the State for the second time, at four hundred and forty thousand dollars, I was obliged to say that the gentlemen who had offered to advance the necessary funds had refused to do so.

The property was now put up for the third time for sale, and was finally stricken off to H. G. Worthington, for the sum of four hundred and fifty thousand dollars.

Upon the adjustment of the settlement on account of this purchase—both Col. Pope and myself attending—Mr. Worthington tendered two certified checks, amounting to twenty-five thousand dollars, upon banks in this city, which were accepted, both Col. Pope and myself protesting, and claiming that such action was no more cash payment than was the warrant which I had tendered.

I would say, in closing, that Col. J. D. Pope, to whom I am under many obligations for the interest which he exhibited, and the advice which he gave me in this matter, expressed himself to me as satisfied that it is in the power of the State to set aside this sale: firstly, upon the ground that there is no legal right by which the State can be required to pay any amount of money in cash in excess of the bill of costs, which must be made out and presented; second, that the warrant which I tendered, and which was refused, was as much cash, under the law, as the certified checks which were received.

I have the honor to be, very respectfully, your obedient servant,
EDWIN F. GARY, State Auditor.

Whereas the Hon. F. A. Sawyer and the Hon. T. J. Robertson, Senators in the United States Congress from the State of South Carolina, owe their positions to the Republican party of this State; and whereas they have betrayed the sacred trusts reposed in them by the Republican party, in using their influence and casting their votes to defeat that eminently just and wise measure, the Supplementary Civil Rights Bill, in open disregard and defiance of the expressed will of their constituents, through concurrent resolution of the General Assembly of this State; and whereas they have, on every occasion, ignored the just claims, and have voted in opposition to the declared wishes of the Republican party, their constituents; therefore,

Be it resolved by the House of Representatives, the Senate concurring, That the Hon. F. A. Sawyer and the Hon. T. J. Robertson, Senators of this State in the United States Congress, be requested forthwith to resign the honorable positions they hold by the suffrages of the Republican party, whose rights they oppose, and wishes they misrepresent, upon the floor of the United States Senate.

Mr. BOWLEY offered the following as a substitute, which was adopted:

Whereas, we, the representatives of the people of South Carolina, in the interest of liberty and equality, recently passed a concurrent resolution, instructing our Senators and requesting our Representatives in Congress to vote for the passage of the Supplementary Civil Rights Bill, then pending in the United States Congress; and whereas it appears that the Hon. F. A. Sawyer and the Hon. T. J. Robertson did, notwithstanding such instructions, vote against said bill—thereby proving themselves recreant to the trust reposed in them by the Republican majority of this State—and showing that they are opposed to the principles of liberty and the equality of all men; therefore, be it

Resolved by the House of Representatives, the Senate concurring, That the said F. A. Sawyer, and the said T. J. Robertson, be requested to resign their seats in the United States Congress forthwith.

Resolved, That the Clerk of the House be instructed to forward certified copies of this preamble and resolutions to said Senators, and to our Representatives in Congress; also to the President of the Senate and the Speaker of the House of Representatives of the United States Congress.

The following paper was presented, to be entered on the Journal:

I voted "no" on the passage of the Bill "to relieve the State of South Carolina of all liability for its guaranty of the bonds of the Blue Ridge Railroad Company, by providing for the securing and destruction of the same," for the following reasons:

Because the liability of the State is on the bonds issued by the "Blue Ridge Railroad Company, in South Carolina," only, and not on the bonds issued by the Blue Ridge Railroad Company, in Georgia, the Tennessee Railroad Company, in North Carolina, the Knoxville and Charleston Railroad Company, in Tennessee, and the Pendleton Railroad Company, in South Carolina, also, as stated in the preamble to this Bill.

If the bonds of the Blue Ridge Railroad Company, in South Carolina, endorsed by the State, are on the market at all, contrary to the official declaration of the Governor in his Special Message, their continuance on the market cannot be as great an injury and prejudice to the credit of the State as the issuing of Treasury certificates of indebtedness without consideration, and without means of payment.

Because the bonds in question are payable at fixed periods, and payment of them cannot be required at unforeseen and inopportune times.

Because the bonds in question are not due for nearly seventeen years, and the pecuniary condition of the State is not such as to warrant the payment of any liability of the State nearly seventeen years in advance.

Because there is no evidence that the indebtedness of the Blue Ridge Railroad Company, in South Carolina, is one million eight hundred thousand dollars, as provided in this Bill, but good reasons for believing that such indebtedness does not reach more than half that amount.

Because the liability of the State on the bonds of the Blue Ridge Railroad Company was incurred on the pledge of all the estate, property and funds of the company, in this and other States, to protect the State against loss; while this Bill not only provides for the State paying a larger sum of money than its liability requires, but also provides for the discharge and release of the very security it holds for its own protection.

Because, although the purpose of all the aid afforded by the State to the Blue Ridge Railroad Company, in South Carolina, has been the construction and completion of the Blue Ridge Railroad, yet this Bill, which discharges the company from all liability for its debts to the State, and gives it certificates of indebtedness for a greater amount than its debts, makes no provision that the road shall be constructed and completed.

C. J. ANDELL.

The Bill was ordered to lie over for a second reading.

Mr. W. M. THOMAS, from the Special Committee to whom was referred the Bill and substitute to make appropriations and raise supplies for the fiscal year commencing November 1, 1871, submitted the following

REPORT:

That they have had an extended interview with the State Treasurer and Comptroller General, who were present by request of the Committee. Your Committee find that there is a deficiency in previous years, on account of the failure to levy and collect the taxes, to the amount of \$950,000, now due and unpaid. The delinquencies in the collection of taxes, for the past three years, amount, in the aggregate, to about \$1,200,000.

Your Committee are satisfied that the law for the collection of taxes is inadequate, and should be so amended as to insure the prompt collection of the same. The failure to levy and collect a sufficient amount in the past is the cause of the present financial embarrassment of the State. The neglect, also, of the Legislature, in past years, to provide, annually, for deficiency in revenue, as prescribed by the Constitution, renders it necessary now to greatly increase the rate of taxation.

Your Committee find the debt, as stated by the Treasurer, for which a revenue to pay the interest should be provided, to amount to \$11,994,908.98. The Comptroller General fully concurs in this statement. The amount necessary to pay the interest on the same, at the rate of six per cent. per annum, will be \$719,694.54, if paid in currency, which your Committee recommend; if paid in gold, the premium will have to be added, thereby increasing the amount.

Your Committee have estimated the expenses of the State for the fiscal year ending October 31, 1872, including the above, to be \$2,450,000.

Your Committee recommend the adoption of the first Section of the substitute, with this amendment: In the seventh line, after the words

"public debt," insert "which shall be paid in United States currency or National Bank notes."

Respectfully submitted.

JAMES N. HAYNE, Chairman,
W. H. JONES, JR.,

P. R. RIVERS,

The SPEAKER laid before the House the following:

MESSAGE FROM THE GOVERNOR, No. 14.

STATE OF SOUTH CAROLINA,

EXECUTIVE DEPARTMENT,

COLUMBIA, February 22, 1872.

Gentlemen of the Senate and House of Representatives :

I beg to call your attention to the following report from Dr. Otto. A. Moses on the phosphates of the seaboard, in which the State has a direct interest :

GEOLOGICAL AND CHEMICAL LABORATORY,

No. 28 GEORGE STREET,

CHARLESTON, February 20, 1872.

To His Excellency ROBERT K. SCOTT, *Governor**of the State of South Carolina :*

SIR—Your request for a report on the extent, value and best methods for economizing the phosphate strata belonging to the State receives my immediate attention. The following statements are based upon my personal observation during three entire years of practical and scientific study of this remarkable deposit.

A considerable portion of each of the Counties of Charleston, Colleton and Beaufort is underlaid by two apparently distinct beds of recent formation, very interesting in their character. The upper one is composed of a stratified or imbedded rock ; the other is less coherent in its nature. The principal ingredient of the upper bed (which varies from four to twelve inches in thickness) is a phosphate of lime. This material forms from fifty to seventy per cent. of the entire mass. The lower bed, varying considerably in thickness, consists, for the most part, of silicious matter and a constantly present phosphate of lime. Upon the presence of this latter substance depends the value of these strata.

Over or through these beds flow the Wando, Cooper, Ashley, Stono, Edisto, Coosaw and Bull Rivers, with their network of navigable tributaries. Their bottoms are generally covered with the nodular masses imbedded in the phosphatic sands.

No survey has yet been instituted to determine accurately the extent of water surface under the jurisdiction of the State, representing a basis for mining operations ; but it cannot be less than fifty square miles, say, thirty thousand acres. The yield of rock varies from one hundred to five hundred tons per acre. An average estimate would make the amount of phosphate rock belonging to the State, and available for mining purposes, equal to nine millions of tons. This does not include the phosphate of lime contained in the subjacent strata, which is very valuable, and easily extracted by proper washing machinery. No effort has yet been made to utilize this lower deposit.

The present value of phosphate rock is about six dollars a ton. The expense of laying a proper plan for digging the rock is considerable, and may make the cost of extraction for the first year, from three to four dollars per ton, including the State royalty; and this even will diminish in inverse proportion to the increase of demand. The average cost per ton of rock dredged in rivers is less than of that mined from land—consequently the river mining interest will regulate the markets.

With regard to protecting the phosphate deposits belonging to the State from waste, I would suggest that an agreement to that end might be made between the different chartered companies among themselves and the State. It might stipulate that mining be not conducted in an irregular or superficial manner, as this course tends to exhaust the workable deposits. Again, it would be of great importance to the mining companies that may work hereafter, that ships taking cargo be not allowed to discharge their ballast into the river as this materially deteriorates the value of the phosphate beds beneath. It would be advisable to request the United States Coast Survey to publish their maps of the above mentioned rivers in a cheap and convenient form for distribution.

In conclusion, I would call your attention to a few facts indirectly bearing upon the subject:

The Peruvian Government has given notice of the exhaustion of the guano deposits on the Chincha Islands; the Guanape will only supply the demands of the world for a short time. Since this announcement, civilized nations have sought, in every direction, a substitute for the Peruvian guano. The South Carolina phosphate strata, the potash and magnesia salts of Stassfurt, in Germany, the new source of ammonia on the Rio de la Plata, have been discovered, and will be utilized, and there is every prospect that the gradual disappearance of the Peruvian guano will not seriously affect the interests of agriculture.

Let me add that the demand, at present, for phosphatic material is greatly in excess of that for potash and ammonia.

In 1865, over ten millions of dollars returned to Peru from England alone, in exchange for her treasures of guano, and the Chincha Islands have been able to sustain all the expenses of her government for many years. But the revenues from this source will have soon disappeared, and that nation will have lost her influence on the agriculture of this age.

The State of South Carolina may take her place. I have no hesitation in declaring that five hundred thousand tons of our phosphate rock could be annually disposed of in the markets of the world.

Respectfully submitted,

(Signed)

OTTO. A. MOSES, Ph. D.

At this late day of the session of the General Assembly, I can say but little more than to call to your notice the importance of providing some means to insure the collection of the royalty due the State, and for guarding this valuable interest against deterioration and spoliation. There has existed a vague impression that the phosphate property of the State was very large, but it has only recently been developed that the neglected phosphatic strata, forming the beds of many of our streams, are of vast and increasing importance to the welfare of the world. These, if protected, will, in a short period of time, yield a revenue almost sufficient to supercede the necessity of levying a tax on other property. The reference, in the communication of Dr. Moses, to the revenue derived by Peru from her guano interest, will give you some conception of the value of these deposits.

I earnestly recommend that you will take such action, under the suggestions contained in my last Annual Message, as will give adequate protection of law to these most valuable possessions of the State.

Very respectfully,

(Signed)

ROBERT K. SCOTT,
Governor.

The Message was received as information, and referred to the Committee on Mines, Mining and Manufactures.

REPORT :

To the Honorable the Senate and House of Representatives

of the State of South Carolina :

GENTLEMEN—The Joint Special Committee appointed by concurrent resolution to investigate the mining and removing from the navigable streams and rivers of this State phosphate and phosphatic deposits, beg leave to report that they met at Charleston on —— February, 1872, that they met again, at Charleston and Columbia, at divers times thereafter, for the purpose of making a thorough examination of the matter to them referred by the resolution aforesaid. The only company, chartered by the Legislature, now in operation, is the River Marine Mining Company, who, through their Treasurer, R. Tomlinson, made the following statement, under oath :

There are four companies digging in the navigable streams, as follows :

Oak Point Mining Company ;

Marine River Phosphate Mining Company ;

Coosaw Mining Company ;

Williman's Island Company.

The Coosaw Mining Company is associated with us, for the purpose of digging and mining in Coosaw River, but their business is managed separately ; they make returns of amount of rock dug to us.

The Oak Point Mining Company is also associated with us for the purpose of digging in the North and South Wimbu Creeks, but claim that they have not, as yet, dug in the navigable streams, but hold themselves ready to pay royalty whenever they do so.

The Williman's Island Company claim that they own to low water mark, under a grant from the Governor of the State, and are not digging in the navigable streams.

The following statement hereunto attached, marked "A," shows the amount of rock dug, mined and carried away from the beds of the rivers and navigable streams of this State:

The difference between the amount reported, 17,655 tons, and the amount shipped, your Committee have not been able accurately to ascertain, but are satisfied that, at the least, it is double the amount above stated, and is accounted for by the fact that the Williman's Island Company and the Oak Point Company claim that they are not liable for royalty, as they are not digging in the navigable streams. This, gentlemen, is now in the Courts of the State and of the United States, and, should the decision be against the Companies aforesaid, they are ready to pay all dues to the State.

We have carefully considered the testimony brought before the Committee, and we must acknowledge that the light we can lay before your honorable body is very meagre. It was impossible for us to determine the amount of phosphate rock shipped from the ports of the State which had been extracted from the beds of navigable streams. It would have been necessary for us to have written to all portions of the world to obtain this desirable information. We know, however, that cargoes have been shipped to nearly all the ports of this country, and that European markets have been generally supplied with some of these treasures belonging to the people of South Carolina.

Our only vouchers for the royalty due the State are the returns made or paid by officials of the River and Marine Mining Company, of which the Hon. D. T. Corbin is President.

This Company has been in existence for two years, and they have spent, we are informed by them, two hundred thousand dollars in that time, and yet the stock of the Company is in demand. We cannot but call to mind that if a corporation do not pay any dividends, it will not attract the attention which the River and Marine Mining Company have received in the stock exchange market.

The River and Marine Mining Company have made returns to the State Auditor, as the result of their vast mining operations during two entire years, with all the assistance of the most improved and efficient machinery, dredges, washers, steam tugs, flats, and the resources of an endless purse, of the trifling sum of \$20,000!

We must accept the returns of the River and Marine Mining Company. We have no other evidence, and can have none other, until the Legislature has adopted the proper course. This will be to appoint some competent person, as recommended by the Governor, in his Special Message on the subject, whose duty shall be to look after the interest of the State.

Our labors are at an end. We would have been pleased to have rendered more service to the State by our investigations, but we have had nothing reliable to base our inquiries upon. Not until some one shall have been appointed, whose especial and constant business it will be to make accurate reports to the proper authorities of what amount of phosphate rock has been taken from the State, never to return, can we believe that there will be a proper administration of this most valuable property of the State. We are distressed at the prospect that everything will be done to prevent legislation on this vital question.

Gentlemen, you are about passing a special Act to protect the few birds whose lives are a sacrifice to the thoughtless sportsman. Will you not see that the vast treasure lying beneath our rivers are similarly protected? On their utilization depends the welfare of the entire people of South Carolina.

Most respectfully submitted.

The Sergeant-at-Arms announced a Message from His Excellency the Governor.

The SPEAKER laid before the House the following :

MESSAGE FROM THE GOVERNOR, No. 16.

STATE OF SOUTH CAROLINA,
EXECUTIVE DEPARTMENT,
COLUMBIA, March 2, 1872.

To the Speaker of the House of Representatives :

SIR—I respectfully return herewith, without my approval, “An Act to relieve the State of South Carolina of all liability for its guaranty of the bonds of the Blue Ridge Railroad Company, by providing for the securing and destruction of the same.”

It is well known to the General Assembly that I have, at all times, been ready to give my approval to any measure looking to the completion of this great enterprise, of so much value to the interests of the entire State, and still feel the deepest solicitude for its success.

It was believed, at the time when the authority was given by the Legislature to endorse four million of its bonds, that the Company could command a sufficient sum of money, by their sale, in addition to other means at their disposal, to complete the road, but the depreciation of State securities, resulting partly from this endorsement, has rendered the bonds almost valueless to the Company. Although I have never regarded the endorsement of the State on bonds as fixing a legal obligation on the State to meet the accruing interest, yet it has persistently been claimed, by the opponents of the present administration, that this four millions of bonds was a part of the actual debt of the State, and not a merely contingent liability; while the facts are that the State could only be held responsible for the remainder, after the assets of the road had been exhausted; and it is fair to presume that, before the twenty years had expired, the work would have been completed, and these bonds would have been a first mortgage upon the entire property, and hence a good security, independent of the State endorsement.

The present embarrassed condition of the finances of the State does not appear to me to warrant us incurring so large an obligation, to be paid in so short a period of time as that named in the Act, even if, under any circumstances, it was justifiable.

I might, however, very reasonably doubt the correctness of my own judgment in this respect, when I reflect that the measure passed both Houses by more than a three-fourths vote, thereby showing that the General Assembly differ very widely from me on this subject. Also, from the fact that, although this Bill has been on the Calendar for more than a month, the entire press of the State has been silent on its merits, leading me to infer that it meets the approval of all parties interested in the financial welfare of the State; therefore, I might not feel it my duty to do more than express my disapproval of the measure, on the grounds of public expediency.

But there are reasons, in my judgment, deeper and more substantial than those of expediency. There are grave doubts as to the constitutionality of the Act, both Federal and State. The Constitution of the United States clearly prohibits a State from issuing bills of credit, while the State Constitution provides that a debt can only be created by an issue of bonds running twenty years. But whether these objections are valid or not, there is still another objection, which, in my judgment, is paramount to any other reason that can be urged against the Act becoming a law.

During the past four years the Legislature has appropriated money for Legislative and other expenses, amounting, in the aggregate, to about two millions of dollars, without levying a single mill of taxes to raise the money. These several appropriations for Legislative expenses authorize the Treasurer to pay them out of any moneys not otherwise appropriated, when it must have been clear to the mind of every member of the General Assembly, that there was not a dollar collected from the levy of taxes which had not been appropriated in the general appropriation Bill to meet the current expenses of each fiscal year. And, even on the collection of the general tax levy, there has been a deficit of from twenty-five to thirty per cent. per annum from delinquent taxes.

This deficit, I have previously stated to the General Assembly, was about one million two hundred thousand dollars; hence the moneys expended, for which no levy of tax was made, added to this amount, makes an aggregate of over three millions of dollars. In this statement I have not taken into account the numerous claims, including the Land Commission, which have been paid out of moneys borrowed.

Up to this moment no disposition appears to prevail, on the part of the General Assembly, to even recognize the obligation that is due from the State to those who came forward, in the hour of our danger of failure, for the want of money to sustain the Government, but with an indifference, which is beyond the comprehension of any mind, the General Assembly seems determined to tax the resources of the State to meet a mere contingent obligation, not due for many years, and which, to a very limited extent, has become a liability to the Blue Ridge Railroad, or the State, as its endorser, from which the legitimate creditors are led to infer that they are to be left victims of misplaced confidence. On this subject there is something more due to our creditors, which I will lay before you previous to your adjournment.

Very respectfully,

(Signed)

ROBT. K. SCOTT, Governor.

It having been reported to me that certain persons have asserted that my absence from the House, on Saturday, when the Veto Message of His Excellency, relating to the Act to relieve the State of South Carolina of all liabilities for its guaranty of the bonds of the Blue Ridge Railroad Company, came up for consideration, arose from a desire to shirk the vote that would necessarily ensue. To those who were instrumental in putting this report in circulation, I have no reply or explanation to make, regarding, as I do, their belief or opinion with supreme indifference.

For the information of my friends and constituents, however, I desire to say that my absence from the House, and from the city, was due to the serious indisposition of a member of my family, at my home in Charleston.

In conclusion, I would state that had I been present, I would have voted, as I have ever voted, when *such* measures as the one now referred to were presented to me, viz: with the minority of the members of this House.

Yeas, 58 ; nays, 28. Agreed to.

Those voting in the affirmative are :

Messrs. Adamson, Bascomb, Berry, Boston, Bowley, Byas, L. Cain, E. Cain, Corwin, Crews, Dannerly, Dennis, Elliott, Ellison, Ferguson, Gaither, Gantt, Gardner, Giles, Goodson, Goggins, J. A. Green, Harris, Hart, Hedges, Henderson, Holmes, Humbert, Humphries, Hunter, Jackson, Jamison, Johnson, Jones, Keith, Lang, Lee, Levy, Littlefield, Madocks, McDaniels, T. D. Those voting in the negative are :

Messrs. Allen, Briggs, Crittenden, J. Davis, Doyle, Duncan, Ford, Glover, S. Greene, Hagood, Hurley, Jervy, Lloyd, Nehemias, Ramsay, Shanklin, Simons, R. M. Smith, Sullivan, Taylor, W. M. Thomas, Warley, White, Wilkes, Williams, Wilson, Wofford and Yocom.—28.

The following papers were presented, to be entered on the Journal :

We voted " no " on the passage of a Bill to provide for a general license law, for the following reasons :

1st. We consider the people of the State sufficiently taxed.

2d. The people of the State are now taxed, including the Blue Ridge Railroad, fourteen mills on the dollar, and to increase the already enormous tax, without a knowledge of the correct indebtedness of the State, and taking into consideration that seven mills on the dollar was sufficient to meet the current expenses of the State Government last year, and pay the interest on the public debt, amounting to four hundred and eighty-two thousand five hundred and ninety-four dollars and forty cents (\$482,594.40); and yet, not one mill of the fourteen is appropriated to pay the present interest of the public debt, and the feeling of insecurity which pervades the entire community of the State, with regard to the honesty of the motives of the State Treasurer, and believing that, with proper care and management, the whole burden of the State can be relieved, and its honor sustained, by the amount of tax already appropriated, we feel it our duty, as representatives of the people of the State, to file our protest against what we consider an indirect confiscation, which is unparalleled in the management of the financial affairs of any Government in this country or Europe, and oppressive, particularly to that class of tax payers whose only means of living is obtained by the sweat of their brow, and will eventually tend to destroy the Republican party.

(Signed)

A. P. HOLMES,
WM. C. GLOVER.

Upon the question, "Shall the Bill (to provide for the general license law) pass, and be sent to the Senate?" I vote "no," for these reasons: Upon general principles, I am in favor of a license law, in order to relieve real estate, in some measure, from the burdens of taxation, which now press so heavily upon it; but, the General Assembly having already imposed a tax of fourteen mills, I cannot sanction the imposition of a further tax by this Bill, which the laborer, the mechanic and the farmer must pay in the end. There is a point beyond which taxation becomes prohibition and confiscation, and we may well pause and consider how much further we can go in that direction before that point will be reached. Besides, there are other Bills pending, and undisposed of, which look to a further increase of taxation.

WARREN D. WILKES.

Mr. SUMPTER stated that, had he been present when the foregoing vote was taken, he would have voted in the negative.

The following papers were presented, to be entered on the Journal:

I voted "no" on the passage of a Bill relating to the bonds of the State of South Carolina for the following reason:

I object, by any vote of mine, to endorse the action of the State Treasurer in relation to his report of bonds issued, to the General Assembly, dated 31st October, 1871, believing that the bonds were not lawfully issued in conformity with the true intention and meaning of the several Acts of the General Assembly. And, further, that by voting for its passage, I would virtually endorse what I consider a fraud on the part of the State Treasurer, in connection with the Financial Agent of the State of South Carolina, and would be recusant to the trust given me, as a representative of the people of the State, if, by any vote of mine, I endeavored to make lawful the unlawful acts of which the State Treasurer has clearly, in my judgment, been guilty.

(Signed)

W. W. RAMSAY.

Upon passing the Bill relating to the bonds of the State of South Carolina to its third reading, we vote "No" upon every Section and line, for the following reasons:

Under this Bill a tax of six mills, in addition to all other taxes, must be levied to pay the interest on the amount of State debt as reported by the Treasurer. This will swell the total tax levied upon the people to twenty mills, exclusive of the tax levied under the license law and stamp Bill, which can, and we fear will, be passed by the same instrumentalities that secured the passage of this Bill. This tax amounting, in the aggregate, to twenty-nine mills, which our people cannot pay, and which cannot be necessary for any legitimate purposes of an honest government. Besides, if the stocks and bonds heretofore issued, the total amount of which is an unknown quantity, were issued in conformity to, and by the authority of, laws already passed, then they are already legal, and need no further law to validate them. If they were not issued by authority of law then they should not be made legal by the passage of this Bill. A demand for a Bill to declare the bonds and stocks already issued legal is a clear confession that *all* of them are not *legal*, which is further confirmed by the provisions of the Bill, which exonerates the officers who issued them from all legal responsibility for any violation of law and good faith of which they may have been guilty. Hence we solemnly protest, in the name of the *people*, against the passage of a Bill which we hold to be unnecessary, unjust and burdensome, and to the people we will appeal directly.

Thomas, Wallace, Warley, Whipper, Wilson and Yocom.—48.

The following paper was presented, to be entered on the Journal:

We voted "yes" on the passage of the Bill relating to the bonds of the State, for the following reasons:

First. The Bill recites the several Acts authorizing the issue of State bonds, and declares valid only such bonds as were issued pursuant to those Acts; thus excluding from payment any bond—if such there be—issued in violation of law.

To make this declaration is not to assert that there are invalid bonds on the market, but it is simply to recognize the notorious fact that doubts have been expressed as to the validity of bonds that the General Assembly *know* to be valid, they having authorized their issue, in the precise mode, and for the identical purpose, and on the very conditions, on which they were issued, as set forth by the Financial Board of the State, who were vested by law with the power to direct and regulate the issue of such bonds, pursuant to the several Acts authorizing the same.

Second. The allegation that the Bill "goes it blind," and declares valid any and all bonds, issued to an unlimited amount, is not true; for Section 3 of the Bill distinctly limits the declaration of validity to the bonds set forth as outstanding, by the Treasurer, in his report of October 31, 1871, amounting to \$9,314,000.06, accounted for as follows:

Sold and the proceeds paid into the Treasury, and expended according to law, \$5,541,000.

Deposited as collateral, or, in other words, pawned for a loan of \$800,000, \$3,773,000.

Amount of cash realized by the State from bonds sold as above, \$3,500,000.

Amount obtained by hypothecation, \$800,000.

Total cash received by the State on \$9,314,000, in bonds outstanding, \$4,300,000.

The bonds actually sold averaged about 64 cents on the dollar, or 17 cents more than bonds of the United States averaged during the war; and we have been virtually in a state of war in South Carolina during the past three years.

Third. The Bill, out of an abundance of caution, provides for the registration of all bonds that have been issued, thus subjecting the report of the Treasurer to the only possible test to determine its accuracy; such registration to be made by two of the most responsible banking corporations in the country, and to be published with full description of bonds, every three months, in New York, Charleston and Columbia.

Fourth. The Bill prohibits the further issue of bonds, except for the conversion of bonds or stocks already issued pursuant to law.

Fifth. The ancient Israelites borrowed the gold and silver plate of their former masters and never returned it. In this they "spoiled the Egyptians," who had sorely oppressed them. But we are not Israelites, nor are the bondholders Egyptians. Not to provide for the payment of our bonded debt, is to rob the men who are our creditors solely because they had faith in our sense of public honor, and were willing to trust the free government of South Carolina when it was poor and weak, and its continued existence uncertain.

Sixth. Our final and best reason is found in the sixth commandment, which declares, "Thou shalt not steal."

The following paper was presented, to be entered on the Journal :

Upon the final passage of a Bill relating to the Financial Agent of the State of South Carolina, in the city of New York, we vote "no." Not that we wish to do any injustice to the Agent, Mr. Kimpton, for any advances that he may have made to the State—he is entitled to immediate re-imbursement, as well as to full compensation, for his services—but we cannot vote for the passage of a Bill which confers authority upon the Financial Board to audit and pay claims to an undetermined amount. It would have satisfied the tax payers of the State much more fully if a disinterested Committee had been called upon to adjust the account of the State with Mr. Kimpton. Had that been done, we would have felt bound to vote for a Bill providing for the payment of any balance that might have been found to be due to Mr. Kimpton.

(Signed)

WARREN D. WILKES,
J. WILSON.

Mr. FROST, from the Committee on Enrolled Acts, reported as delivered to the Governor, for his approval, this day, at 1:20 P. M., the following Acts, viz:

An Act to incorporate the Carolina Light Infantry, of Charleston, South Carolina;

An Act to renew the charter of the Hope Steam Fire Engine Company, of Charleston;

An Act to charter the Union Savings Bank, of Georgetown, S. C.;

An Act to incorporate the Grand Lodge of Free and Accepted Ancient York Masons, of the State of South Carolina, and the Subordinate Lodges under its jurisdiction.

An Act to incorporate the Firemen's Union, of Charleston, South Carolina;

An Act to permit James McCullough to adopt, change the name of, and make his lawful heir, Joseph Allen Stepp;

An Act to amend sundry Sections of the Code of Procedure, relating to the Circuit Courts;

An Act to provide for the payment of certain debts by the County of Aiken;

An Act to incorporate the Charleston, Georgetown and Conwayboro Railroad Company.

Mr. WILKES, from the Committee on the Judiciary, submitted the following:

The Judiciary Committee, charged with the duty of investigating certain rumored irregularities upon the trial of the case of William F. Redding *et ux*, against the South Carolina Railroad Company, in the Circuit Court, at Charleston, before the Hon. R. F. Graham, beg leave to report:

That from the very grave nature of the allegations against Judge Graham, and by implication, though not named, against the Sheriff and Jury Commissioner of Charleston County, your Committee notified Judge Graham that they would proceed with the investigation on the 7th day of March, and at the same time dispatched a Sergeant-at-Arms to summon before the Committee the Sheriff and Jury Commissioner of Charleston County, and some twenty other witnesses, whose names were furnished by the author of the resolutions. Judge Graham promptly appeared before your Committee, announced his readiness to answer any and every allegation contained in the resolutions, so far as they related to his judicial action in the case, and requested the most thorough investigation.

Your Committee examined but two witnesses in the case, Mr. Jervay, the author of the resolution charging your Committee with this investigation, and E. B. Seabrook, Esq., Solicitor of the First Judicial Circuit,

who was of counsel for Wm. F. Redding *et ux*. At the conclusion of the testimony of Mr. Seabrook, Judge Graham, through his friend, the Hon. T. Y. Simons, proffered to the Committee a copy of his charge to the jury, empanelled to try the case, certified to as correct by B. G. Shaffer, Stenographer to the First Judicial Circuit; and also a letter from the Hon. R. W. Seymour, who was also of counsel for the plaintiffs.

In submitting the testimony and accompanying documents to the consideration of the House of Representatives, your Committee feel themselves constrained to express the regret that a mere passing conversation between Mr. Jervey and Mr. Seabrook, with reference to the case of Redding *et ux*, should have been made the occasion of preferring to the House charges of "corruption and bad faith" against Judge Graham and the under officers of his Court. If members of the House will read carefully the testimony of Messrs. Jervey and Seabrook, and which your Committee do not feel called upon nor inclined to review, they will readily perceive that the foundation for this investigation rests solely upon the statements made to Mr. Jervey by Mr. Seabrook, in conversation, and, as to which statements, Mr. Seabrook solemnly affirms he was misunderstood.

Without quoting the evidence of Mr. Seabrook, your Committee affirm that, in language clear and unmistakable, he fully and completely exonerates Judge Graham from the charge that his "bearing, instructions and rulings to the jury, and towards the counsel of the plaintiffs," wrought a denial of justice to the plaintiffs.

With the rulings of Judge Graham, your Committee have nothing to do, nor can the General Assembly rightfully bring them under review. It belongs to the Supreme Court alone to review them. It did so, and found no error in Judge Graham's statement of the law; it only differed with him as to the sufficiency of the evidence to send the case to the jury, and ordered a new trial. Upon such re-hearing of the case, Judge Graham did no more than state the law to the jury, in the exact language of the Supreme Court. In this he certainly could not, and did not, act in bad faith. The law having been stated to the jury, they were left, as they ever should be, to apply the evidence and render a verdict. With that verdict we can have nothing to do. If there was any suspicion that their verdict was improperly influenced in any manner, Mr. Seabrook sets the suspicion at rest, when, in answer to a question by Mr. Whipper, "Do you mean public opinion, by outside influences?" he answered, "I do, and believe the woman suffered by it."

In all this, your Committee find nothing to attain the verdict of the jury. It is only Mr. Seabrook's belief, honestly entertained, no doubt, but no sufficient cause to brand the jury with infamy. Perhaps fifty men

could be found who entertain a different belief, and your Committee know of no rule by which to estimate the force of public opinion upon a jury.

The testimony of Mr. Seabrook also fully exonerates the Sheriff and Jury Commissioners of Charleston County from any imputation of official misconduct.

Thus, your Committee find that they have been gravely called upon to investigate—nothing.

In conclusion, your Committee would remark that the enacting of this farce, expensive though it be, will not fail of producing good results, if for the future it shall stand as a beacon light to warn the House of Representatives against any investigation into the rulings of Judges or the verdict of juries. These matters, of right, belong to the Circuit and Supreme Courts, and we may not touch them without infringing upon the independence of the Judicial Department of the Government, and weakening public confidence in the administration of justice. This is dangerous ground to tread upon, and if the House will rashly intrude thereupon, the independence of that branch of the Government is at an end, and it will not be long until every Judge of character and capacity will desert the Bench.

Respectfully submitted,

Mr. C. D. HAYNE submitted the following :

REPORT.

The Joint Special Committee of the Senate and House of Representatives of the State of South Carolina, to whom was referred the memorial of the American Woman Suffrage Association, with instructions to report thereon at the present session, now beg leave to submit the following report :

Your committee have carefully considered the subject-matter of the memorial referred to them, and have devoted to its examination all the time which they could command at so late a period of the present session of the General Assembly. Your Committee greatly regret that so important a subject should have been brought before the General Assembly in the midst of the haste and pressure of business, always attending upon the close of a Legislative session. Their regret is, however, more espe-

cially occasioned by the want of time, in which to mature practical measures looking to the enforcement and protection of the equal rights of all our people, than by the want of time in which to arrive at fixed conclusions upon the subject matter of the present memorial. Their convictions of justice and of duty are to them clear and unhesitating, but they have not failed to discover many practical obstacles to the immediate practical enforcement of the views which they hold.

Your Committee deem it to be demanded by the gravity of the subject with the consideration of which they have been charged, that they should at least present somewhat fully to the General Assembly the grounds upon which they have determined to recommend the adoption of the Joint Resolution which closes this report. Your Committee are embarrassed at the outset by the difficulty of advancing arguments in support of what seems to them to be the primal axiom of a Republican form of government, the postulate upon which the entire superstructure of the argument, which supports the doctrine of self-government, rests. They are compelled to reiterate truths which are really axiomatic and properly incapable of being subjects of dispute. And yet in no other way than by the constant repetition of these great fundamental principles will our community finally be raised to the standard of their reasonable duty. Your Committee must, therefore, be pardoned for entering again upon the well-beaten path which all reformers and friends of justice have heretofore been compelled to tread with such painful frequency.

The fundamental idea of our American Republic is, government resting on the consent of the governed; or, to express it in a single word, self-government. The doctrine which had so long controlled civilized man, which viewed civil government as something greater and higher than man himself, was discarded by those who laid the foundation of our Government, and the simple, absolute truth that government derives all its just powers from the consent of the governed, was not only proclaimed as a principle, but was incorporated as the practical and controlling element of our Constitution and laws. Yet, at the very moment when Jefferson wrote the Declaration of Independence, at the moment when Washington and his compeers of that period were framing the Constitution, they were holding as absolute chattels an "entire race, equally entitled with themselves to the blessings of the principle which the Declaration and the Constitution embodied." The whole civilized world then recognized, and the American people now recognize, the hideous anomaly which the institution of slavery in this country then presented; but today, in every State in this Union, and on almost every foot of American soil, there still exists an anomaly equally hideous, equally inconsistent with the principles upon which our Government rests, and equally abhor-

rent to the view of an enlightened and unprejudiced statesmanship. What blinded Jefferson and Madison and Hamilton, the clearest sighted statesmen of their age, men of high and generous aims, of wide acquaintance with men and affairs, to the gross inconsistency between human slavery and the Declaration of Independence? It was that which to-day blinds a majority of the American people to the equally great inconsistency between the Declaration of Independence and the universal disfranchisement of woman. It was custom; it was interest; it was prejudice; it was antiquated and traditional beliefs, accepted without reflection, and adhered to without remorse. The moment the Declaration of Independence was read, it was seen to be the condemnation of slavery; equally, to-day, is the simple text of that Declaration the complete rebuke of the spirit of slavery and of caste which supports the political slavery of woman.

If we appeal to the doctrine that government rests properly upon the consent of the governed, can logic, however acute, show us why this principle does not cover woman, who is governed equally with man? If we appeal to the principle that taxation and representation are co-extensive and inseparable complements of each other, which statesman is astute enough to point out to us how woman can be justly taxed, and yet have absolutely no voice representing her in any department of the Government? Still the great fact remains that woman is disfranchised; that she is a political slave, although every voice that has proclaimed in the past, or that asserts to-day, any of the fundamental doctrines of our Government, proclaims in the same breath the injustice of any law which gives to woman fewer civil and political rights and privileges than man enjoys.

How, then, shall this great fact be overcome? How shall the American Governments, State and National, be put into practical harmony with the principles of self-government? Our answer is, by continually sounding in the ears of the people the simple and primal truths upon which this reform rests; by recalling, on all occasions, in season and out of season, the practical denial which we now give to all the doctrines which we profess to maintain. Such efforts in the end will bring success, no matter how great the prejudice, no matter how long continued the wrong, no matter how hopeless to the view of the many, may be the task which we essay.

Your Committee are disposed to look for a moment at some of the prominent objections which are generally put forward as the apologies for the prejudice which denies equal civil rights to woman. We should do violence to the fair use of language if we dignified any of these apologies with the name of arguments. They are, in reality, pretences, whether consciously so or not, and it requires only a brief examination to con-

vince all that your Committee do not untruly or uncharitably characterize them as such.

There are some bold enough to declare that woman is so far mentally inferior to man that she is properly deprived of any share in the Government. Granting her inferiority, the instant and sufficient answer must be, "So much the more need that she shall be clothed with the means of her own protection." Others, again, not venturing to fasten upon woman the disgrace of inferiority, urge that her temperament, her mental and moral nature, is wholly unsuited to the stern duties which the discharge of civil and political functions demands. To such a suggestion, the perfect answer is, that her temperament and nature do not deprive her of her rights. If "government rests upon the consent of the governed," and "taxation without representation is tyranny," the fact of the soft temperament and the gentle nature of woman does not make the tyranny less. Nay, rather, it invests that tyranny with a degree of hard brutality which does not attach to it when the rights only of strong and self-asserting man are denied.

Others there are, who tell us that the discharge of political functions, the exercise of suffrage, is inconsistent with that chief charm of woman, that gracious feminine sweetness and delicacy of nature which has characterized her in all ages. The answer comes again that this is a strict matter of right, and that, unless we are ready to deny the doctrines which support our own liberties, we cannot deny woman's rights upon the flimsy plea that we men, forsooth, think that voting and holding office would remove from woman some of those graces of manner and of feeling which we now admire. What right have we to sacrifice woman's rights for woman's graces? What right have we to say that if the principles of eternal justice clothe her with equal rights with ourselves, we will intervene to strip her of her rights, in order, as we falsely assume, to keep her possessed of certain soft and tender graces, which we pretend to believe the exercise of her rights would remove.

Another class of apologists for woman's slavery tell us that her exercise of political rights is inconsistent with those natural duties which her sex imposes on her; in other words, that she is physically incapacitated from the exercise of those rights. The answer again is—what has this to do with our denial of her rights? If, as is claimed, Nature has forbidden her, at times, to exercise those rights, how is it that we are clothed with the prerogative of denying her those rights at *all* times. If nature has said to woman, "There are times and seasons when other duties will stand before your political duties," be it so; but how impious the claim that we may take up this injunction where nature stops, and say, "because, at times, you may be incapacitated, we will make you perpetually and at all times incapacitated." Maternal

duties do not measure the *rights* of woman. Her rights belong to her because she is a human, rational being; because she is responsible to the laws and to the Government; because she is one of the governed upon whose consent Government ought to rest; because she is one of those who are taxed, and, therefore, who should be represented by the Government. Wherever Nature has intervened to prevent woman from exercising her rights, Nature will always take care to assert itself; but the claim that, because of her maternal duties, she shall be incapacitated from voting or holding office at all, is certainly one of the weakest pretences put forth in support of the prevailing prejudice of the times.

Another class of objectors say that, if woman would claim equality of political rights and privileges with man, she must stand ready to discharge equally with man, all the duties which Government may require; and, inasmuch as woman cannot be a soldier, and defend her country in times of war, therefore, she ought not to be admitted to citizenship. Let us look a little more narrowly at this claim. Suppose the principle just stated to be correct. A rule, to be a just one, must be impartial. Apply this rule, then, with impartiality, and will it stop with the exclusion of woman? How many of this community in the midst of which we live, are physically unfitted to discharge a soldier's duty as woman? How many have passed the age of a soldier's strength? How many throughout life have never attained for once to a soldier's strength? And shall these all still be clothed with full political rights, and woman alone be excluded? The question answers itself. The rule has been made in order to exclude woman. The rule has been suggested to account for and defend an existing and prevailing prejudice. It does not rest in reason; it cannot be supported by argument.

But to discharge a soldier's duty, is by no means the touchstone of civil and political rights. In the multifarious and complicated duties of citizenship, who shall say that the soldier's vocation is the one which shall measure political citizenship? Others as truly defend their country, as truly win her fights, as those who stand in marshal array on the steep and perilous ridges of battle. Woman in the darkest hours of our own recent war, was as truly capturing Richmond, as General Grant and the volunteers who stood behind him. What pretense can there be for saying, to-day, that Clara Barton did not as truly defend the Republic in that hour of supreme danger as did any soldier who stood on the fields of battle? No, the truth is that, measured strictly by the standard of a soldier's duty, there is no reason for the exclusion of woman which does not apply with equal force to fully one-half of the male sex. But the whole assumption is false. The duty of some is to be soldiers; the duty of others is equally imperative to discharge other offices in the defense and support of their country; and as well might

the limbs say to the other members of the human body, that their importance is less because they do not bear the soldier on his march, or because they do not grasp the sword which he wields.

But another pretense to support woman's slavery is constantly heard from the lips of all apologists for this injustice: "The ballot would degrade woman; it would familiarize her with the weaknesses, the vices, and the crimes of men." So, then, at last, it has come to this, that man is so vile that, for woman's sake, he must exclude her from his political society! The man who makes this claim deliberately fastens a shameful stigma upon his own sex. He does not believe it himself; he puts it forth only as a convenient pretext. If it were true, the monarchist and the imperialist would be furnished with an argument, which every male voter of this country would be slow to admit, in favor of despotism and monarchical tyranny. If it were true, it would be the complete condemnation of our system of suffrage. But, again, if this last pretense be true—if politics and suffrage be so degraded and vile—why is it that woman's presence, which so often appeals to all that is noble and good in man's nature, might not here, also, be the elevating inspiration which should redeem American politics from the disgrace and shame which men have affixed to them? If the ground of this argument be sound, we know of no consideration which more clearly points to the advantage which will accrue to man himself from his association, at the ballot box, and in the caucus, with woman.

But another assumption, often put forward, is, that women themselves are not generally seeking for the right of suffrage. So eminent a philanthropist and lover of political justice as Horace Greeley, justifies his present opposition to woman suffrage upon this one ground. The majority of women, he declares, do not wish or seek for suffrage. It would be well to remind Mr. Greeley that the question we are discussing, and trying to settle is not a question of wishes, but a question of rights. If nine women out of every ten in America do not wish to-day to exercise the right to vote, will Mr. Greeley tell us that the tenth woman should, for that cause, be deprived of her rights? Are the rights of the tenth woman to be settled by the wishes of the nine? The tenth woman is governed, is taxed. The principles of our government say, that because she is governed, her voice should be heard in the government, that because she is taxed she should be represented in the government, and yet Mr. Greeley tells us that because nine women out of ten do not care to exercise the rights with which self-government clothes them, the tenth woman, who does seek her rights, shall be deprived of them! Truly this is among the weakest and flimsiest pretenses which we have yet examined. But we deny the whole assumption of this argument. It is not true that women generally do not wish to exercise polit-

ical rights, and no man who has intelligently inquired upon this subject, can doubt that the free and unhindered voice of the women of America would, to-day, be ten to one in favor of woman suffrage.

Another apology for this injustice is, that women are really represented now, by the men; that women's views are reflected and expressed by the ballots of the men whom they influence. If this be true, if woman really exercises now her full influence in political affairs, why all this opposition to her exercising this influence directly, and in her own person? If she has political opinions, and her husband, or her father, or brother expresses them, what greater harm would come to her if she should express those views herself? It is difficult to see how the mere act of casting a ballot would corrupt, or degrade, or make harsh and ungentle, the nature of a woman who now really exercises her full political influence through some man who represents her. This argument does not deserve the attention which we have already bestowed upon it.

To another class of apologists for woman's slavery, who profess to regard our movement as premature, and who tell us that woman is not now ready for such responsibilities, we reply that she never can, never will be, ready to meet these duties until she is actually confronted by them. You cannot prepare woman to wisely exercise her rights until you throw upon her the actual, present responsibility of those rights. Responsibility itself, let it be always remembered, is one of the highest educators. The colored race were declared unfit for the ballot. The answer then made was: give them the ballot, and it will educate them. The country acted on that theory, and experience has justified it. How much stronger is the argument, when applied to woman! She is educated now, so far as books can educate: while the negro was almost wholly unlettered. Her mind is furnished with all that she needs to discharge her duties, except that one indispensable incentive,—the actual possession of her rights, and the consequent responsibility for their exercise. Woman will never be versed in public affairs, or over approach much nearer to that standard, until you give her an actual, responsible share in public affairs. To expect otherwise, is as absurd as to forbid your boy to go into the water, until he learns how to swim. Our demand is for immediate suffrage for woman, upon conditions as broad and general as those applied to men. This we ask as the truest mode of fitting woman for the discharge of her civil and political duties.

Your Committee might proceed to notice many more suggestions which constantly appear against the claim which is now made for equal civil and political rights for woman, but they would all be found to be utterly indefensible and worthless when tested in the clear light of the primal principles of our American Government. Not an argument nor a consideration exists to-day which supports the claim of man to the ballot,

which does not equally support the claim of woman to the ballot. She differs from man, as one race of men differs from another ; but in rights, she is his equal ; in subordination and obedience to government, she is his equal ; and in the administration and conduct of the government she ought to be his equal.

And now your Committee beg leave briefly to call attention to some of the motives and considerations which prompt the constant and earnest assertion of these claims for woman's equality. Wherever the eye of an impartial observer is turned, in the new world as well as in the old, the practical disability of woman in the race of life stands apparent. A thousand means of support, a thousand avocations, a thousand sources of happiness, are open on all sides to man and are shut to woman. Her wages are grossly unequal ; her opportunities for self-support are grossly unequal ; the protection of the few rights which the law professes to give her, is attended with so many difficulties that in matters of property, of the custody of her own person, and that of her children, she is at the mercy of the caprices and prejudices of men. The result is natural. One large and growing class of womankind have long been doomed to a hopeless and pitiless fate ; and to-day, he is a very bold philanthropist who makes even the attempt to rescue the thronging multitude of degraded women who rush on to the dens of infamy and despair. This is the appalling consequence of woman's political slavery. The want of employment, the hopelessness of obtaining a competency, the natural desire of display for the gratification of which no other means are at hand, have resulted, in dooming to this terrible fate, so many of the daughters of our country, who might, under better auspices, have led lives of honorable employment and usefulness. But rising above this lowest class, grade after grade, appear the victims of this false and unjust prejudice of sex. It is against such consequences, too palpable to need further notice, that the friends of woman suffrage direct their efforts. They ask simply that woman should have her rights. They seek no privileges, they ask no favors, but simply that the doctrines of the Declaration of Independence, and all the principles of self-government everywhere, should be carried to their logical and just application in behalf of woman. They seek for woman an opportunity, through the ballot, to the development and exercise of all her faculties and powers. They do not assume to point out her sphere as coextensive or identical with that of man ; they simply say, "Open wide the doors, and let woman fill that sphere which her powers and her inclinations and her capacities shall dictate." It is not the ballot merely which they seek for woman, but it is that to which the ballot inevitably leads—free development, unhindered expansion, an untrammelled career, an open and fair field, where man and woman alike may carve out for themselves such a fortune and name as each may be able ; and this claim

and this purpose the friends of woman suffrage rest upon the impregnable ground that it is her *right*—a right secured to her not only by natural justice, but by that imperfect human justice which we have embodied in our own Declaration of Independence, and in the principles upon which we have declared that our Constitution is established. This is a movement which is as broad in its influence and purpose as the human race. It is already arresting the attention of the generous and the thoughtful in all lands. Organs of public opinion, which, a few years since, did not deign to notice this cause, are now either its respectful opponents, or, in some instances, its earnest advocates. To show how rapidly public opinion is advancing upon this question, your Committee beg leave to present a brief extract from a recent remarkable article in the Westminster Review, for January, 1872, entitled "The Political Disabilities of Women:"

"The political position of women under the existing law has been compared to that of minors, criminals, lunatics and idiots. But a little examination will prove that the status of persons of all these classes would be considerably lowered, were it reduced to that of women. Minority, if a personal, is merely a temporary disqualification. A householder, who is a minor, will, in time, come into the enjoyment of his vote. But adult women are kept, throughout their lives, in the state of tutelage proper to infancy. They are never allowed to grow up to the rights of citizenship." As Justice Probyn said, "Infants cannot vote, and women are perpetual infants." Criminals are also temporarily disqualified. During the debate on the Bill of 1867, Lord E. Cecil proposed a clause providing that persons who had been sentenced to penal servitude for any offence should be incapable of voting. Mr. Gladstone objected to the clause, because "a citizen ought not to bear for life the brand of electoral incapacity." Another member objected to "extending a man's punishment to the whole of his life." The clause was finally negatived. But the brand of life-long electoral incapacity, which was thought too severe for burglars and thieves, is inflicted without scruple on rational and responsible human beings, who have never broken the law, for the sole crime of womanhood. Parliament deems an ex-garrotter morally competent to exercise the franchise, whilst it rejects the petition of Florence Nightingale. So much for the moral standard required for the exercise of the suffrage. Let us now see what the law says to lunatics. In a legal text-book we find the following statement: "With regard to a lunatic who, though for the most part he may have lost the sound exercise of his reason, yet sometimes has lucid intervals, it seems that the returning officer has only to decide whether, at the moment of voting, the elector is sufficiently *compos mentis* to discriminate between the candidates, and to answer the questions and take the oath, if required, in an intelli-

gible manner." But the law never allows that a woman can have a lucid interval, during which she is sufficiently *compos mentis* to discriminate between the candidates, and to comply with the formalities incident to recording a vote. Thus it places her mentally below lunatics, as it does morally below felons. The Courts have a very kindly consideration for the electoral rights of idiots, as a case quoted by Mr. Rogers will show. He states that the voter had no idea of the names of the candidates, but he had of the side on which he wished to vote. He seems to have been unable to answer the ordinary questions, and the returning officer rejected the vote of this idiot; but, on appeal, the decision was reversed, and the vote held to be good. Mr. Rogers states that it is difficult to determine, since the decision in the "Wigan Case," what degree of drunkenness need to be shown, in order to disqualify an elector. It is a question of fact for the returning officer to decide; and, with respect to persons deaf, dumb and blind, he says that, "although it is difficult to believe that such persons should have understanding, still, if such a person can show, by signs or otherwise, that he knows the purpose for which he has come to the poll, and can also comprehend the obligation of an oath, and the temporal dangers of perjury, it is conceived that a returning officer would not be justified in refusing his vote."

It will be seen by these extracts, that those who compare the political status of women to that of criminals, lunatics and idiots, give too favorable a view of the facts. The true comparison is that which was used by Mr. Justice Byles, in the Court of Queen's Bench, when he likened the political condition of women to that of "dogs and horses."

The same authority again observes :

"The attributes that distinguish man from the beasts are speech, reason, moral responsibility and religious faith. Out of these attributes springs the capacity for political functions, for knowledge and experience, and for the formation of a stable, regular government. Yet, in seeking the proper basis of a qualification on which to rest the possession of political power, men deliberately reject as insufficient all those attributes of reason and conscience which raise humanity above the brutes, and select one which they have in common with these."

Your Committee, as a conclusion of their examination of the matters referred to them, beg leave to express their conviction that the proper action for this General Assembly to take, in order to remove this standing reproach to Republican government, and to do justice to a long neglected, but most vital subject, is the adoption of the following Joint Resolution :

JOINT RESOLUTION PROPOSING AN AMENDMENT TO THE CONSTITUTION
OF THIS STATE.

Be it resolved by the Senate and House of Representatives of the State of South Carolina, now met and sitting in General Assembly, and by the authority of the same :

That the following Article be submitted to the qualified electors of this State at the next general election for Representatives, as an amendment to the Constitution of this State:

ARTICLE 1.
